Fear 7 Dead In Camden Factory Flames

DELAY SEARCH OF RUINS FOR MORE VICTIMS

Fumes Sicken Firemen Trying To Cool Smoking Embers Of Polish Plant.

67 HOMES DESTROYED

Smouldering Chemicals Drive Residents From 4-Block Area of City.

(By Associated Press)

CAMDEN, N J.—Gas fumes sickened fireman after fireman today as they tried to cool still-smoking ruins to search for bodies of missing dead in a fire and explosions that destroyed a million-dollar paint plant and at least 67 midtown homes.

Fifteen were treated within a few hours. The fumes, rising from smouldering chemicals, drove all others from the four-block area. Firemen worked in 15-minute relays.

Mrs. Mary W. Kobus, director of public safety, expressed fear the death toll might exceed the number indicated in still incomplete checks. She said insurance underwriters thought "probably seven persons" were dead.

"But I am not so hopeful" said Mrs. Kobus, who remained at the scene all night.

With the picture still far from clear, unofficial reports on the $2,000,000 disaster—worst in Camden's history—showed:

Four women and a man definitely missing.

Possibly four or five more unaccounted for—subjects of inquiries at hospitals and relief stations but not given up.

Upwards of 200 injured or affected by heat or smoke, many treated at the scene.

Of those in the hospitals, attendants said four were in critical condition.

An army of volunteers undertook the task of caring for scores of families made temporarily homeless. Most of these—about 200—were sheltered in dormitories of Camden's naval militia armory.

Four hours after the first explosion at the R. M. Hollingshead

$2,000,000 Blast, Fire Wreck Camden Paint Plant

At least five persons were missing and more than 200 injured after a chemical-fed fire, touched off by a series of 25 explosions, swept the Camden, N. J., paint manufacturing plant of the R. M. Hollingshead company. This Central Press phonephoto shows an air view of the fire at its height. Damage to the plant and adjoining buildings was estimated at $2,000,000 as the structure was turned almost immediately into a flaming inferno, forcing panic-stricken employes, both men and women, to flee through doors and windows.

PANTING CITY RELIEVED AS HEAT BREAKS

Cool Breezes From Lake Areas Cause Lowest Mercury Drop In Two Weeks.

FALL STARTS AT 5 A. M.

Temperature Stays In 80's As Weather Experts Say It'll Be There Awhile.

With cool breezes from Lake Erie breaking the heat wave at least temporarily, Mansfielders enjoyed temperatures in the 80's today after two weeks of blistering weather.

Relief from the 95-degree heat followed a shift of the wind to the north about 5 a. m. today which dropped the mercury to 66 degrees. The reading at noon today was 82, lowest noonday temperature in two weeks.

While forecasters would not predict how long the moderate weather will last, they said it will be "somewhat cooler" tonight over most of Ohio and skies will remain clear.

Ralph C. Mize, Cleveland meteorologist, said cool air from the upper Great Lakes will cause rain and moderate temperatures that "should prevail several days."

The cool breezes were believed to have come from the mass of cold air over Canada which has been held out of the United States for several days by stagnant pressure areas.

Goes Up To 92.

As a parting gesture, the heat wave yesterday sent the mercury up to 92 degrees in Mansfield and to record marks in southern Ohio cities. At Springfield it was 107 and Cincinnati had an unofficial 105. The Columbus reading of 98.7 was the highest for July 30 since 1887. Cleveland was comparatively cool with a peak reading of 82.

One of the states hardest hit by the heat wave, Ohio has had

Italians Told Zero Hour Not Ready as Yet

Gayda Declares Wearing-Down Tactics Expected In War Against British; Observers Fear Statements Conceal Coming Attack

BULLETIN

LONDON—(AP)—Britain today ordered a blockade extending from the Arctic to northern Africa, effective at midnight tonight, an order in council giving effect to the policy announced in commons yesterday by Hugh Dalton, minister of economic warfare.

In future non-British shipping companies will have to agree always to employ navicerts—form of passport for ship cargoes—in order to enjoy services such as coaling, drydock and insurance facilities at Britain's worldwide ports. Ships of offending lines entering British ports may find difficulty even in getting water.

(By Associated Press)

Suspense created by mysterious reports of energetic efforts by Germany and Italy to deploy their troops, planes and boats to jumping off places on the channel coast for the awaited frontal attack against Britain was heightened by authoritative warnings to Italian Fascists today that the zero hour is not yet.

A "spectacular lightning campaign" such as has been waged against Poland, Norway, the low countries and France is not feasible against Britain, Virginio Gayda, authoritative journalist in Rome, asserted.

Wearing down tactics, rather, are to be expected, he said.

This stage, with its daily bombing raids, submarine attacks, and lightning forays by small torpedo boats to destroy Britain's ports, sink her shipping and blockade her from the world, already is in progress, the editor said.

(At the same time the Spanish Falangist newspaper, Arriba, called for help from the United States to restore her economy after her exhausting civil war, a call interpreted by observers as a hint Spain does not regard herself ready to participate in any Axis attempt to capture Gibraltar. Observers said they believed the Spanish appeal was inspired by Spain's gasoline shortage, likely to be aggravated by inclusion of the country's in Britain's "rationing" blockade.)

M'GREGOR HITS MILITARY BILL

Richland's Congressman Says Bill's 'First Step In the Goose Step.'

Pointedly commenting, "The bill is the first of the goose step," J. Harry McGregor (R.), of West Lafayette, congressman from the 17th district which includes Richland county today stood firmly with the majority of the Ohio delegation to congress in expressing opposition to the Burke-Wadsworth military conscription bill.

Declaring that his mail indicated sentiment 8 to 1 against the bill, McGregor said, "if the enlistment were cut to one year it would attract a lot of men whose employers would be willing to release them for that period. Compulsory training should be used only if everything else fails."

Heading the list of Ohioans opposed to conscription was Senator Robert A. Taft who went on record against the bill several weeks ago.

A poll of all 24 Ohio members in the house and senate showed only Representative Dow A. Harter, Akron Democrat committed to support the draft bill.

Of the other 23 members, 14 stood definitely against the legislation; five remained uncommitted but were reported leaning against it; four were undecided, and two were out of the city.

Reports from Washington said the Ohio delegation has been deluged by a letter-writing campaign

100-Year-Old Rev. Millar Realizes Another Wish

Four Months Old Next Door Neighbor Goes to Home of Pastor for Bed-Side Baptismal Service.

Picture on Page 6.

By JANE WILLIAMS

It's just a case of not being able to keep a good man down.

Rev. D. B. "Daddy" Millar, who said only last month on his 100th birthday anniversary, that he was through and ready to retire from all activities, conducted a baptismal from his bed yesterday.

And again it was a rare occasion for the centenarian, who on June 8 realized one of his great ambitions—to officiate as chaplain of the Masonic lodge on his 100th anniversary. Yesterday he baptized little Judith Kay McLaughlin, his youngest friend and neighbor who has been his daily caller for most of her four months.

Judy is the four-month-old daughter of Mr. and Mrs. Kenneth McLaughlin, 535 Bowman street, and lives just next door to the Millars. From the day that Judy was two weeks old, she has been taken every day to the Millar home, and as she grew old enough to remember faces and make friends, her friendliest gurgles were saved for the man next door.

After Rev. Millar celebrated his birthday last month, an event to which he had long looked forward, he suffered a collapse and has been confined to his bed since then.

BANS EXPORT OF AVIATION FUEL

Roosevelt Closes U. S. Sources To All But Nations of Western Hemisphere.

(By United Press)

WASHINGTON—President Roosevelt, by his power under the export license system, today barred export of aviation gasoline outside the western hemisphere.

He permitted only one minor exception American-owned aviation companies outside the hemisphere which need such gasoline for their operations will be permitted to obtain it.

The order followed Mr. Roosevelt's proclamation last week subjecting petroleum products and scrap metal to the export control system. The original proclamation, however, merely subjected these essential war materials to export licensing. Today's action specifically bars exports of aviation fuel outside the western hemisphere.

Under the order, Great Britain as well as the Axis powers—Germany, Italy and Japan—are

WARNING: Stimson Bluntly Calls Axis Powers 'Enemies'

BULLETIN

WASHINGTON—(U.P.)—The senate military affairs committee voted today to limit registration for compulsory military service under the Burke-Wadsworth bill to men between the ages of 21 and 31.

(By International News Service)

WASHINGTON—Secretary of War Stimson today bluntly labeled Germany and Italy as "potential enemies," pictured Japan as an Axis sympathizer, and declared that this nation must face the possibility that Great Britain may fall within "30 days."

The 72-year-old Republican member of President Roosevelt's coalition cabinet, making his first public appearance before a committee of congress since he accepted his post, stated flatly that the danger confronting the United States at the present time is "far greater" than in 1917 when this country entered the first World war.

His assertions were made during testimony in support of the administration's compulsory military training bill which is pending before the house military affairs committee. Concerning the legislation he said:

"Voluntary enlistment has been tried again and again and has proved a failure. The only effective way of treating emergencies such as this is by conscription and training large armies."

"We face a far greater danger than we did in 1917," he declared. "In 1917 we were protected by the unbroken line of our allies in France.

"We had time then. We had allies and we could buy guns and material from those allies.

"Today there are no lines to protect us and the British control of the sea is in imminent danger.

"Today we are faced with a potential enemy which has been using conscription for six years—and even now is conscripting in the countries Germany has conquered."

Stimson declared that "we must face the possibility that perhaps in 30 days Great Britain herself may be conquered and her great fleet and shipbuilding facilities may pass into German hands."

FIGHTS RAIDER

British Armed Merchant Ship Battles Nazi Boat.

LONDON—(AP)—The British armed merchant cruiser Alcantara fought a battle with a German raider, a fast converted merchant ship, in the South Atlantic but was unable to prevent the raider escaping, the admiralty announced today.

The admiralty said the German ship, mounting four guns on each broadside, turned away immediately after she was hit, using a smoke screen to escape.

The Alcantara chased her until a German shot reduced her speed, the report said.

The British casualties were two killed and seven wounded.

SEVEN KILLED

Crossing Crash Brings Swim Party to Tragic End.

AUGUSTA, Ga.—(INS)—Seven young persons, all of Augusta, were dead today as a result of an auto-train tragedy which occurred as they were en route to a swimming party yesterday. Their automobile was hit by a freight train on the Georgia railroad.

The dead were Emma Edith Baker, Mary Helen Elliott, William Wheeler, R. A. Elliott, jr., Jarrel Shephard, Julian Baldowski and Corinne Elliott.

STRANGE PLANT

Potatoes And Tomatoes Grow On Same Vine.

ATHOL, Mass.—(AP)—Paul Pralinsky is amazed at the virtuosity of a plant in his back yard.

Below the ground the plant is growing healthy potatoes, while up above there is a handsome tomato.

Mansfield Stores Launch Bargain Days Tomorrow

Mansfield's semi-annual Bargain days, the two most important shopping days of the year, will be held Thursday and Friday with 50 retail stores taking part.

Summer stocks of merchandise will be "put on the block," figuratively, at least, with unusual bargains in all lines.

The Retail Merchants' association, sponsors of the event, has arranged special concessions for shoppers for those two days. Mansfield shoppers will have free bus rides downtown on Thursday morning between 9 and 11:15 a. m., so that the round trip may be made for the price of a one-way fare.

Then there will be parking courtesies for out-of-town shoppers who use the coupon appearing in today's News-Journal. It may be used only by cars from out of the city. The parking coupon must be pasted on the windshield.

All of the participating stores will be designated by the display of yellow and red banners in their windows.

Crowd On Grounds as County Fair Opens Four-Day Program

Foreshadowing an expected record attendance, hundreds of fairgoers started an early trek to the fairgrounds today for the opening of Richland county's 72nd annual fair, a modernized farm show running for four days and nights.

R. D. Hale, fair board secretary, said that judging from indications this morning he expected the grounds to be jammed by nightfall. More than 1,500 persons were on the grounds at 10 a. m. soon after the gates were opened, he said.

Exhibitors who had until 10 a. m. to get their displays in place put in a morning of feverish activity but completed their tasks in time. Livestock and farm produce entries have been arriving at the exhibit halls for the past three days.

(Continued on Page 32, Col. 5)

TONIGHT'S PROGRAM

Dick Rogers' All-American Motor Maniacs 7:30 p. m.

TOMORROW'S PROGRAM

(Afternoon)

Circus and Rodeo performances at 2:15 p. m. Pony races, mule races, hog calling or husband calling contest for women.

Balloon ascension with girl being shot from cannon in mid-air.

(Evening)

Township tug-of-war competition 7:30 p. m.

Pine Ridge Revue. Circus and Rodeo performances. Battery D sham battle with American Legion Drum corps, fireworks.

Police To Start Issuing Bicycle Licenses Friday

Issuing the long delayed bicycle license plates will get under way Friday, it was announced today by Police Chief Meade K. Bates upon the arrival of 1,000 tags at the police department.

The plates were ordered two months ago after city council had passed an ordinance governing bicycles and making licenses for them compulsory.

Chief Bates said today that licenses would be issued by school districts on announced days. Friday and Saturday, from 9 a. m. to 4 p. m. the tags will be issued to children of the Carpenter school district. Applications must be made at the police office in city building and the plates will be put on bikes at the police garage.

Next issuance of tags will be on Wednesday and Thursday of next week to children of the Western Avenue school district. Other schools will be assigned days later, Bates said today.

The tags are small steel plates white background with blue numerals. There will be one tag for each bicycle and it will be clamped to the rear fender where it must remain. Owners will be given license certificates to be kept at home by parents and which may be used to establish ownership in case of a theft.

As soon as the tags are issued to the school district Bates said a dead line would be set for operating a bike without them.

Locomotive Was 'Hurt' This Time, Rail Line's Suit Says

A man biting a dog isn't any better news story than a railroad company getting mad and suing a motorist for running into one of its engines.

A suit was filed in common pleas court yesterday by G. E. Hagenbuch and H. B. Stewart, jr., trustees of the Northern Ohio Railway company, against John E. Haas, R. D. 1, Willard for damages inflicted on one of their engines as it crossed a street in Plymouth last Nov. 3.

The petition sets forth that the crossing is protected by an electric blinker system which was operating at the time of the accident, and that Haas was driving his car in a careless and reckless manner, towit: 50 miles an hour.

The trustees maintain in their petition that the engine approached the crossing with whistle blowing and bell ringing, and that "without regard for the rights of the plaintiff to use the crossing the defendant crashed his auto into the left side of said engine and the electric signal sign to the damage of $588.12."

The company asks for damages and interest from Nov. 3, as well as costs of the case. Attorney McE. Weldon represents the plaintiff.

SPEEDS UP QUIZ

Grand Jury, With 32 Cases on Docket, Ahead of Schedule.

Disposing of cases ahead of schedule, the Richland county grand jury probably will complete its work by early Thursday afternoon, Prosecutor G. W. Marriott said today.

The jury had heard 15 of the 32 cases on its schedule at noon today, including 11 yesterday. Among the cases already disposed of were those involving a murder charge against Albert Davis, colored, accused of fatally stabbing Mrs. Lena Morton, and a statutory charge against James Foster, held in connection with a criminal assault on a 15-year-old Mansfield girl.

The jury session was delayed briefly shortly before noon today because witnesses could not be located and told to appear earlier to comply with the jury's stepped-up schedule.

GENERALS HELD

Rumanian Officers Arrested for Bessarabian Faults.

BUDAPEST—(INS)—Nine Rumanian army generals and 30 colonels have been arrested for faults committed during the evacuation of Bessarabia according to reports reaching Budapest today.

The army chieftains face court martial for their errors in removing the Rumanian troops from Bessarabia when Soviet Russia took over the province.

ITALIAN RAIDS

Claim Two Ships and Gasoline Depot Hit by Bombs.

ROME—(INS)—Italian air raiders in a successful attack on the Arabian port of Aden struck two ships and a large gasoline depot, an Italian military bulletin said today. The announcement said all of the Italian planes returned.

GRAB: Britain Not Alarmed By Threats at Empire Points

(By International News Service)

LONDON—Unofficial reports that Japan, Spain and Italy are preparing to grab shares of the British Empire simultaneously with an attempted German invasion of the British Isles were being closely studied by the British government today.

Reports that Britain feels any great alarm over this possibility have no foundation, it was said.

At the same time, there were hints that Britain might not take further provocation from Japan lying down. Suggestions were voiced in diplomatic circles that Britain would be justified in putting an end to Anglo-Japanese agreement closing the Burma road unless Japan's attitude speedily improves.

Britain is particularly indignant over Tokyo's attempts to ignore formal protests over the arrests of British citizens in Japan and the circumstances surrounding the alleged suicide of Melville J. Cox, Reuter's news agency correspondent in Tokyo.

The likihood of attempted wholesale grabs by the totalitarian powers if and when Germany strikes against the heart of the empire has been under consideration for many weeks or months, it was said.

British officials are under no misconception, official quarters declared. Not only England but the entire empire and "every atom of British influence" are threatened, and the next few weeks or months will decide the outcome.

The situation is regarded most serious in the Far East and at

VARIED ACTIVITIES ENTERTAIN WOMEN

Out-Door Sessions Offer Diversion for Many; United Commercial Travelers Wives Hostesses at Guest Party at Pavilion.

EVENTS in Mansfield yesterday were mostly a little of this and a little of that with entertainment running the gamut from nuptial showers to picnics and back again. Members of the Ruth Circle class of the First Christian church held a noon picnic at Middle park. During the business meeting plans were made to hold a breakfast Aug. 7. Mrs. J. C. Robinson and Mrs. John McPhern are in charge of arrangements for the morning affair. The next regular meeting will be held Aug. 27 with Mrs. Carl Laubscher, Park avenue west road. Mrs. Cleo Buchter and Mrs. Sherman Stone will be the associate hostesses. There were 15 members and three guests present yesterday.

* * *

U-Name-It club members met yesterday with Mrs. Jacob Rupanovic, 170 Grace street. During the business session the group decided to suspend activities during August. The next regular meeting will be held Sept. 11 at the home of Mrs. Russell Indorf, 214 Grace street.

Following the session members motored to Robinhood's in Ashland for refreshments and dancing.

* * *

Wives of the United Commercial Travelers entertained with a covered-dish guest party yesterday at the North Lake park pavilion. Hostesses were Mrs. Grace Myers and Mrs. James Bailey. Prizes were won by Mrs. Harry Leight, Mrs. J. A. Willard and Mrs. Clyde Forsythe.

The next meeting will be held Aug. 27 at the Bowers cabin on the Park avenue west road. Mrs. Archie May and Mrs. Ralph Davis will be the hostesses.

* * *

There were 40 present for the covered-dish dinner of the C. L. of C. last night at North Lake park. Mrs. Frank Dillon won the bridge prize, and five hundred awards were presented to Mrs. W. A. Wehinger and Mrs. H. A. Dillon. Mrs. James Herlihy was in charge.

A regular business meeting will be held by the group Aug. 20 in the club rooms in the Bird building.

* * *

The birthday of Mrs. George Guiher was celebated yesterday when members of the Social Crochet club met. A noon covered-dish dinner was served, and the afternoon was spent socially. The next meeting will be a birthday party for Mrs. Frank Page at the park Aug. 13.

Turns to Drama

Long one of the nation's favorite singers, Frances Langford has had a highly successful career. In her current picture assignment she will have an opportunity to open a new field for her talents.

RESUME SEPT. 6

Announcement has been made that there will be no August meeting of the Daughters of Scotland, but that sessions will be held during September. The next meeting is scheduled for Sept. 6 at 7:30 p. m. at the North Lake park pavilion.

* * *

Mr. and Mrs. Frank Renard and children of Lima are visiting at the home of her parents, Mr. and Mrs. Joseph Loch, 30 Florence avenue.

Five Generations Shown

When Mrs. Amanda Daugherty, seated, came to Mansfield from her home in Cleveland recently to visit her son, C. R. Daugherty, Newman street, standing, five generations of the family were gathered together. Mrs. Joseph Stone, left, is his daughter, and Mrs. T. J. Brucato, right, is his granddaughter, while the infant, Gladys Louise Brucato, sitting on Mrs. Daugherty's lap, is his great-granddaughter.

Offices Swamped With Requests for English Children

Editor's Note: With the interest manifest by Mansfielders when the American Association of University Women started to co-operate with the national organization in an effort to bring English children here for the duration of the war, it is felt that this article will be of general interest to readers.

By ADELAIDE KERR
AP Feature Service Writer

THOUSANDS of American women wanting to open their homes to British children have almost swamped the New York offices of the American committees organized for care of the young refugees.

An average of 500 persons a day—most of them women—have poured into the newly installed headquarters of the United States Committee for the Care of European Children, where several hundred employes seek to help them untangle the red tape involved in transferring a child from British to American shores. Women in wash cotton dresses and women in copies of Paris gowns crowd around wooden tables filling out long blanks, while a steady hum of voices rises in the heat. Many of them want to arrange the transfer of some special child—the son of a sister, or the daughter of an old friend.

Eager for Sacrifice.

But 5,000 more have sent a flood of letters to the committee's headquarters asking for just any child at all—one of the mass group of refugees that may arrive before the summer's end. Their letters either express hunger for a child or strong desire to help one—even to the point of cutting the allowances of their own children to do it.

The task of selecting abroad the children to be sent to American homes is being performed by the American Committee for the Evacuation of Children in London. Care and placement of children after they arrive is the responsibility of the United States Committee for the Care of European Children, whose chairman is Marshall Field and whose honorary chairman is Mrs. Franklin D. Roosevelt. Both are active in the committee's campaign for a $5,000,000 fund.

From committee headquarters in New York a national network of local subsidiary committees is being established, a spokesman said. The local committees are scheduled to work with local welfare agencies in handling problems attending the transfer of refugees. The Children's Bureau, United States Department of Labor, the American Red Cross, the Child Welfare League of America and state and local welfare services are among those co-operating.

Lots of Red Tape.

If you want to take a golden-haired little English girl or a freckle-faced English boy you'd better be prepared to handle red tape. Here is the procedure outlined by the New York headquarters of the committee:

First step is to get in touch with the local committee nearest you or tell the New York headquarters, by letter, of your desire to help a child. That help may be given in several ways. You may (1) take the child into your home and give him full support, (2) contribute to his support in some other home than your own or (3) offer him only the shelter of your home—his support to be underwritten by someone who prefers to give money.

After the question of your type of help is settled, you will have to sign an affidavit promising that the child will not become a public charge, that he will be cared for in accordance with the standards of the Children's Bureau of the United States Department of Labor and that his care at all times will be subject to the supervision of the United States Committee or its agent. You also will have to answer a few questions as to your average annual income, "net worth," etc.

Basic Entry Cost $63.

If you are going to take complete care of the child, you will have to accompany all this with a payment of $63 (to cover head tax, visa charge and the $50 which Federal regulations now require to be deposited in a trust fund for every child admitted under this plan). You will also have to meet the cost of his reception at the port of entry and his transportation to your home (or the committee will assume responsibility for it upon payment of a flat sum of $75).

Virtually the same procedure and expense holds good if you take a "specified child" such as the son of a sister or the daughter of a friend. In that case you may have to pay the child's steamship transportation too, which you are not now expected to do with an "unspecified child" who is one of the mass evacuees.

If you don't take complete care of the child, several types of arrangements can be made. The committee estimates the cost of support of a child, including his schooling and medical care, at $400 a year.

Shopping Around...

With MARIANNE

WITH weather like this, baby may not need a new pair of shoes, but perhaps he does need a new plate and cup. . . . If that be the case, you'll be delighted with the bakelite sets that a downtown store is showing now. . . . The plates are divided and have a special place to hold the cup. . . . They can be obtained in peach and blue combinations and are decorated with figures of playful little bunnies.

Marianne

* * *

And while we're still in the infants' department, I must tell you about those lovely, all cotton crib-size blankets. . . . Measuring 36 by 50 inches, these blankets are trimmed with a wide satin binding, and white letters in a corner of the blue ones say, "our boy," while the pink ones are marked, "our girl." In case you're searching for a gift for a new baby, you'll delight his whole family by giving him a "log of life." In pink or blue imitation leather bindings these books will keep a record from infancy through life—with places for certificates from birth, to school graduation, marriage and several others, with places for pictures and all sorts of other interesting data.

* * *

Since we're all hoping for rain these days, we certainly should have some before too very long—and so when we do, you'll want to be well prepared with a cool, but waterproof raincoat to protect your summer clothes. . . . The newest ones of a silk composition feature an inside zipper panel, so that no matter how hard the wind may blow and the rain may swirl your dress won't be wet and spotted. . . . Another style of the same material has a detachable hood, and both coats can be obtained in white or blue.

* * *

DOES your dressing table look as though it needs a pick-up or change in appearance? Then you'll find that one of those summery plastic dresser sets will lend just the right note. . . . Decorated with open-work carving, these comb, brush and mirror combinations come in colorful, light shades of coral, aqua, green and ivory.

* * *

A pleasant summertime cologne is geranium rose, which can be accompanied with bath salts and soap in the same scent to form a fragrant bath ensemble. . . . Or if you prefer a refreshing perfume that has no scent, you'll be pleased with the double strength cologne, because it is cooling with a pleasant aroma that's neither too sweet or heavy for the very warmest days.

* * *

IF YOU want to dress up your luncheon table or surprise a friend with a gift so that she can do the same for hers, why not purchase a set of those morning glory dishes. . . . They're ideal for serving fruit cocktails, fish cocktails, jello and ice cream desserts, puddings or custards. . . . The little dishes look just like morning glories, and each flower in the set of six is of a different pastel shade, while the accompanying plates are shaped like large green leaves.

* * *

WITH August vying honors with June as a month of brides, you're probably busy looking for an appropriate wedding gift for a marrying friend these days. . . . One of those glass top tables of white which also have a glass shelf would be sure to find a welcome corner in any bride's new home. . . . And some unusually effective finger bowls are those which have a handpainted flower on the bottom, and one or two colored glass bubbles to float on top of the water—and really they're pretty enough to be used as dessert dishes or flower bowls too!

* * *

Note: The styles described above are available in Mansfield shops. You can learn where they may be obtained if you will telephone Marianne at The News-Journal between 1 and 2:30 p. m.—Canal 4251.

Pinafores Take Summer Fashions Favored Spot

Cherubic little girls, with freshly scrubbed faces, neatly braided pigtails and crisp white pinafores are a pleasant memory of the childhood days of most of us.

This summer, many of the smart playclothes that dot summer beaches, picnic grounds and streets have been patterned after the pinafored misses pictured in the family album. The charm and fresh simplicity of that day has been recaptured in the new and frankly feminine fashions.

It is even possible to go around the clock in pinafores, from crisp little morning pinnies of gaily colored seersucker, with white blouse underneath the enveloping apron, to a dressier version in black bengaline worn over a billowy white blouse for informal summer gatherings.

Suggested for wear in the garden or on the tennis court, is a snow white rayon sharkskin pinafore. Worn without a blouse, the square cut apron permits the sun's rays to reach neck and shoulders. Colorful and gay is another type, a tailored chambray dress with striped chambray pinafore to match. Red or blue are favorite colors in the striped pinafores.

Students of sleep deplore the custom of serving heavy repasts at the conclusion of a social evening. They assert that the consumption of anything except the lightest foods before retiring is likely to interfere with sleep.

The first written mention of sleeping equipment occurs in the Book of Esther. It tells how pillows were piled in a corner of the room, to be used by days as seats and by nights for sleeping, thus being the precursors of our modern studio couches and sofa beds.

SEW ALL DAY.

There were 14 members of the Service League present yesterday for a covered-dish dinner at the home of Mrs. Robert R. Black, 182 West Second street. Dresses for school children and baby's sacks were made during the all-day sewing. The next meeting will be Aug. 20 with Mrs. V. E. Vining, when another all-day sewing and covered-dish dinner will be held.

* * *

ROUTINE SESSION.

There was a routine business meeting of the Chi Sigma sorority yesterday evening at the Mansfield-Leland hotel with the president, Miss Florence Nail, in charge. She appointed Miss Rita Newcomer chairman for the August social meeting, and named Mrs. Norman E. Leonard, Mrs. William Mosey, Mrs. Donald E. Frampton, Miss Marianne Springer and Miss Marjorie Rhoads as her assistants.

* * *

Mr. and Mrs. Wayne Jackson, Ford apartments, are now on a motor trip through the west. They will return to Mansfield about Labor day.

DAUGHTER BORN

GALION—Word has been received here of the birth of a daughter, named Virginia Ann, to Mr. and Mrs. Jack Morgan, Tuesday morning in Fort Sanders hospital in Knoxville, Tenn. Mrs. Morgan is the former Virginia Arter of Galion, daughter of Mr. and Mrs. R. C. Arter of West Church street.

FRIENDS GIVE PARTY FOR BERTHA SAUDER

Miss Ida Willis, Mrs. Wayne E. Williams Hostesses for Kitchen Shower Honoring Bride-Elect of Ferol Miller.

MISS IDA WILLIS and Mrs. Wayne E. Williams entertained with a pre-nuptial party for Miss Bertha Sauder, bride-elect of Ferol Miller, yesterday evening at the Susie Janis home on the Park avenue west road.

The affair was a dessert party, with the 17 guests seated at one long table. A large nosegay centered the candle lighted table. Miniature nosegay place cards and the refreshments in pastel shades further carried out this theme, while the honoree received a small colonial bouquet.

A poem, suspended from a shower ribbon of the bouquet, directed Miss Sauder to the hiding place of the kitchen gifts from the guests. She received an electric clock from the hostesses. Card games were the evening's diversion at four tables, with the score prize going to Miss Martha Sauder. This was presented to the bride-elect, as were the individual prizes.

Another party honoring Miss Sauder, who will become Mr. Miller's bride on Aug. 4, will be given this evening at the home of Miss Catherine Mitsch on Third avenue. The associate hostesses will be Mrs. Bruce Friday, Mrs. Alexander Turner and Miss Mary Vesper.

Tri-Kappa Will Have Picnic Next Month

Plans were made to hold a picnic supper and swimming party at Ashland Aug. 7, Monday evening, when members of Kappa Kappa Kappa met with Mrs. E. C. Fuller, 157 Raleigh avenue. Miss Janet Garfield was associate hostess.

Games and contests were the diversion of the evening with prizes being won by Miss Virginia Gerke and a guest of the club. The date of the next regular meeting will be announced later.

CCC ENLARGES SKILLED TRADE TRAINING WORK

System Geared to Turn Out 100,000 Young Men Every Year.

WASHINGTON — (U P) — More than 100,000 enrollees in the Civilian Conservation Corps are receiving training as skilled mechanics and machine operators under a central repair shop system set up as an efficiency measure.

The system, under which the CCC members are learning to repair and operate more than 43,000 pieces of equipment, is producing 2,000 skilled mechanics and 9,000 semi-skilled workers yearly.

The equipment includes trucks, tractors, bulldozers, road graders, power shovels, automobiles, ambulances and similar machinery. Other motorized units employed in the 1,500 CCC camps as utility equipment include pumps, compressors, chlorinators, generators and washing machines.

Central Shops Increased.

To keep the equipment in good running order, the corps is completing a series of 63 central repair shops throughout the country. At present 44 of these shops are in operation and 19 more will be started by fall. Enrollees work under the direction of skilled mechanics.

Minor repairs are made in the 1,500 camp garages, with enrollees aiding camp mechanics.

James J. McEntee, director of the corps, under whose direction the system of central repair shops was set up, said the shops will be used to train an average of approximately 2,000 enrollees each year as skilled mechanics.

"In the 1,500 camp garages approximately 9,000 enrollees receive training as semi-skilled mechanics in the course of each year," McEntee added. "The operation of the automotive equipment in the field provides training for approximately 72,000 enrollees yearly as truck and tractor drivers and operators of bulldozers, graders and power shovels. Besides learning how to operate these pieces skilfully, the enrollees learn to make minor repairs and keep their equipment in running order."

In the central repair shops the equipment is overhauled and rebuilt. Motors are rebored and valves ground, worn piston rings replaced, crankshafts and connecting rods realigned and tightened, all worn parts rebushed or replaced, and tight fitting gaskets installed in the process of reassembly. Front and rear wheel assemblies are taken apart and inspected and needed repairs and replacements made. Bodies are removed from the chassis, dents removed, interior fixtures repaired and the bodies painted.

Costs Are Reduced.

"The cost is considerably less than new replacements, with a result that we are beginning to show substantial savings in machine operation costs," McEntee said. "At the same time, we are giving mechanically inclined boys an opportunity to learn trades which now are increasingly in demand. From a national defense standpoint, this force of skilled and semi-skilled automotive mechanics and operators may prove invaluable in the months to come."

The CCC central repair shop system, approved by Federal Security Administrator Paul V. McNutt, was started a little more than a year ago.

Prior to that time 212 shops were operated under the direction of the various technical services of the Departments of the Interior and Agriculture. In many cases shops belonging to different services operated in virtually the same area, resulting in duplication of effort and heavy cost of repair and maintenance.

Besides the practical training received in the shops, garages and in the field, classes in theory of automotive operation are held in the repair shops and in many class rooms. During the 1939 calendar year, 45,502 enrollees took courses in truck driving, 40,612 in auto mechanics, 17,846 in blacksmithing, 12,441 in tractor operation, 7,979 in electric and acetylene welding, 5,949 in machine operation, 4,204 in general mechanics, 2,347 in bulldozer operation and 1,630 in grader operation.

Empress Zita's Children Here

New York Artist J. J. Miller welcomes three of the eight children of former Empress Zita of Austria as they arrive via Clipper plane in New York as war refugees from Europe. Left to right are Archduke Rudolph and Archduchesses Adelaide and Charlotte.

U. S. BORDER PATROL TRAINING RECRUITS FOR ALIEN CONTROL

WASHINGTON —(INS)— A vast drive against illegal entry of aliens and infiltration of "fifth columns" into the United States is being carried out by the U. S. Immigration Border Patrol.

Hundreds of men are being trained for the patrol at the training school at El Paso, Tex., and subdistrict headquarters on the Mexican and Canadian borders, under an act passed by congress last month providing an additional 712 recruits to the present force of 856 patrolmen.

As each class of 100 men completes its formal training at the El Paso school, a new one will immediately take its place. Preliminary training will be given at the various patrol subdistricts where the men will be held in readiness for any emergency. The entire new force is expected to be on duty by the end of the month.

With new and stringent border crossing regulations taking effect, activities of the patrol, a branch of the Immigration and Naturalization Service, will now be more than doubled. Under the new laws all classes of aliens entering this country are subjected to the closest scrutiny at all designated ports of entry. Regular channels are now closed to many aliens.

To Intensify Control.

All patrol activity in the immediate vicinity of the borders will be intensified and patrol units will be established at strategic points on important rail and highway routes leading from the borders toward the interior of the country.

The patrol was created in 1924 after post war conditions in Europe and restrictive immigration laws in this country had caused an illicit traffic of aliens.

The new World war and the new stringent regulations are expected to again cause numerous attempts at illegal entry. Unlike the days of 1924, however, the force is now well-trained, equipped and has a background of 16 years of experience in combating smuggling and illegal entry.

Have Excellent Equipment.

The patrol now has a fleet of 500 fast cars, 14 speed boats, radio communication facilities and radio-equipped observation towers at "hot spots" on the borders, 26 horse outfits and three autogiros, files containing approximately 100,000 fingerprints of aliens and other violators of the immigration laws and many other aids.

Should the situation suddenly become serious prior to the entry upon duty of the recruits, arrangements have been made whereby the U. S. Customs Patrol and the Forest Service will supplement the border patrol with several hundred customs men and forest rangers on a day's notice.

ARMY PIGEONS ASSIGNED FOR DEFENSE ROLE

Expert Handler in Last War Summoned to Further Training Plan.

ONTARIO, Cal.—(U P)—Ray R. Delhauer, professor of Ontario high school but better known as the "pigeon man" of the west, has been called into consultation with the War Department in Washington relative to organization of carrier pigeon service in the national defense program.

Delhauer was one of 16 officers who, at the outbreak of the World war, developed the carrier pigeon division of the army's signal corps.

At that time there were few pigeon fanciers in the United States, scarcely any trained birds, and only a small number of persons who knew how to train and handle them.

Many Handlers Trained.

The 16 officers trained 800 pigeon handlers and operated in this country alone with 150,000 birds, stationed in 110 lofts throughout the United States.

The heaviest concentration of messenger birds was along the Mexican border.

A signal corps officer at the Presidio at San Francisco has reported that California is the only state which has no pigeon organized corps in the army.

As against this, however, Delhauer said that hundreds of young men throughout the state are trained pigeon fanciers and experts in dispatching them, training them for flight and building their lofts.

While they have learned this as a sport, it is expected that many of them will be induced to enlist in the army.

Value In War Stressed.

The birds, Delhauer said, are exceedingly important in intelligence work where radio cannot be trusted for fear of giving valuable information to the enemy, or where it is not available.

Delhauer, who is still busy training young pigeon fanciers among Ontario high school students, has pledged the co-operation of the state's fanciers with the government's military program.

More than the birds and their trainers, Delhauer has developed for the government's use a specially bred bird with high speed, long distance endurance and positive coloration that is nature's camouflage.

The bird was bred from the Black Bovyn, used to fly over the Swiss Alps, a famous German pigeon, Spyke, captured by the Allies during the World war, plus a strain of Red Putnam that colors it to blend with the California soil.

For the first pair of Bovyns, with which Delhauer began to develop the new breed of birds, the government paid $1,700, he said.

Frankford Arsenal Hums as America Builds Up Armed Forces

Girl worker loads .30 caliber machine gun bullets

Each 155-mm. shell should weigh 42.4 pounds

Presses stamp out shell casings

The finished death dealers

One of the busiest places in the country today is the Frankford arsenal in Philadelphia where workers turn out the shells and bullets to be used by Uncle Sam's expanding defense forces. Here are shown some of the steps in the manufacture of ammunition, from the stamping of the shell cases on the powerful presses to the final weighing and the rows upon rows of shining engines of death.

TAB GOOD AND BAD DRIVERS

Traffic 'Vigilantes' Start Work at Youngstown to Reduce Accidents.

YOUNGSTOWN—(U P)— Twenty civilian traffic observers, their identity kept secret, soon will be at work "spotting" good and bad drivers as a means of reducing the automobile accident rate here.

Although they will receive no pay, the observers will function permanently, reporting not only violations of the traffic code, but also courteous acts on the part of motorists.

Each observer will operate by checking on prepared cards the courtesy or infringement he has witnessed and by noting the license number of the car. The cards then will be mailed to the office of the Youngstown safety commission, which in turn will notify the owner of the automobile.

Part of the cost of the safety campaign will be paid through the sale of safety emblems bearing the inscription: "Lose a second and save a life."

MORE MATTRESSES

AUBURN, Ala.—(U P)— More than 100,000 home-made mattresses to make Alabama farm houses more livable is the goal set for this summer by the state home demonstration unit for its county programs.

Wreckers' All-Stars Stage Workout at Liberty Park

Ready To Meet Rivals

League Players Anxious to Tangle With Beeber's Unbeaten Club.

MANAGER Nick Wagner of the Mansfield Wrecking Company All-Stars will get his first chance today to see his squad in action when a practice will be held at 6 p. m. at Liberty Park.

The All-Stars, who tangle with the undefeated Sons of Herman in a five-game series starting Thursday for the city softball championship, are anxious to stage a workout to see which players work together the best.

The two managers, Wagner and Beeber, and the teams' business managers voted last night to stage the series on the Liberty park baseball diamond and the Liberty park officials stated today that additional bleacher seats will be placed around the diamond to take care of the crowds.

Umpires for the series are John Gross and Bill Donnellan and the contests will get under way at 6 p. m. The second tilt will be played Friday. The series will be resumed Monday and if the fourth and fifth games are necessary they will be staged Tuesday and Wednesday.

Pilot Beeber of the Hermans stated early today that he will send Jimmy Fullager, Hermans' ace righthander, to the hill in the initial game. Wagner was still doubtful who would draw the mound assignment for the All-Stars.

POSTPONE TAPPAN GAME

Don D. Cram, Y. M. C. A. physical director, announced early today that the Tappan Stove-Barnes Challengers game at Liberty park today has been postponed to allow the Mansfield Wrecking company All-Stars to stage a workout.

Donate Game To Each Other

Yanks, Red Birds Lose On Errors.

PORTSMOUTH — (AP) — Portsmouth and Akron donated a game to each other in the Mid-Atlantic league last night.

* * *

An Akron error in the last half of the ninth gave the Red Birds the first game of a doubleheader, 3 to 2, and a Portsmouth error in the ninth allowed the Yanks to take the nightcap, 5 to 4.

* * *

Youngstown and Dayton split another double bill, the Browns scoring in the last half of the seventh to take the seven-inning opener, 1 to 0, while Dayton staged a four-run rally in the eighth to take a 9 to 8 nightcap decision.

* * *

Walter Dixon, Canton hurler, came within two innings of a no-hit game as he defeated the Charleston Senators, 8 to 3. The Senators accounted for a hit in the eighth inning and bunched two more and two walks for three runs in the ninth.

* * *

Today's schedule: Portsmouth at Dayton, Charleston at Akron, Canton at Youngstown.

Donavan to Referee 'Buddy' Walker Scrap

COLUMBUS —(NS)— Arthur Donovan, of New York, internationally known prize fight referee, will be the third man in the ring next Monday night when Jack "Buddy" Walker and Johnny Whiters, of Pontiac, Mich., fight in a 12-round return engagement, it was announced today. Walker won the first scrap several weeks ago but a storm of protest arose over the judges' decision.

Tavernettes Lose to Wemcos, 15 to 2

Wemco's softball club strengthened its lead in the Y. M. C. A. Independent league yesterday by defeating the Tavernettes 15 to 2. In a Club league game yesterday the Ohio Public Service team won over the Catholic Foresters on a forfeit. In a postponed Wreckers vs. All State Freights game in the Independent loop, the Wreckers won, 9 to 7. Box scores for these games were not turned in for publication today.

WOMEN GOLFERS ENTER SECOND ROUND OF PLAY

AKRON—(INS)—With the pre-tournament favorites eliminated, the Akron district women's golf association today entered its second round of play.

Mrs. Robert Boyle of Breathnach defeated Eva Shorb of the Massillon Country Club, four-time Akron district champion and the tournament medalist, 2 and 1 at the Portage Country Club.

EAGLES CLUBS TANGLE

Mansfield's Eagle club softball team will tangle with the Ashland Eagles today at 6 p. m. on the Armory diamond, it was announced today.

BRAVES SUFFER DEFEAT

(Continued From Page 26)

ing the attack, the Braves pounded out six hits in the ninth to account for the runs. Herb secured a double and two singles to lead the Braves.

* * *

One of the principal factors that led to the Braves' defeat was two home runs by the Findlay club. Mazgay and Stevenson hit for the circuit.

WOMEN'S TENNIS RACE ENTERS THIRD ROUND

EAST HAMPTON, N. Y.—(INS)—The women's invitation tennis tournament at the Maidstone club went into the third round today with Miss Virginia Wolfenden, seeded fourth, and two other stars, Miss Valerie Scott and Miss Nina Brown, eliminated.

Miss Wolfenden was defeated by Miss Gracyn Wheeler of Santa Monica, 6-2, 6-8, 6-3. Miss Dorothy May Bundy eliminated Miss Brown 6-3, 6-0. Miss Margaret Osborne of Los Angeles accounted for Miss Scott, 6-2, 1-6, 6-2.

MITSCH'S WIN

Frank Mitsch's Corner Store defeated the Service Cabs softball club yesterday at the Armory diamond, 7 to 5. Cloverdale was on the mound for the Mitsch's team, getting credit for the win.

SPORTS PARADE

By HENRY McLEMORE

SARATOGO SPRINGS, N. Y. — (C.P.)—The numbers went up on the totalistator board after a photo-finish at the race track today, and Mr. J. J. Jones jumped up and down on his new straw hat.

* * *

Mr J. J. Jones had been violently disappointed in what he thought was a good thing by the unfailing eye of the camera, and not even the breeze caused by the flutter of his torn up win ticket could cool him off as his horse showed up second on the film.

* * *

As Mr. J. J. Jones stood there on his shattered straw hat, midst the fragments of his no-good tickets, He must have regretted the day he quit the electrical contracting business to invent the country's most widely used photo-finish camera. Because it was his own device, his own handiwork, that had peered down on the finish line and proved in the black and white of a negative that he had guessed wrong.

As a fellow victim of the camera's eye in this race, I asked Mr. J. J. Jones, and somewhat heatedly, why he ever turned his hand to perfecting a fool-proof, mistake-proof machine, that made it impossible for a judge or judges to call a wrong number.

"Well, I'm not sorry I did," said the man whose machine records the finishes at most of the country's tracks "It costs me money sometimes but look at the money it saves thousands of other horse players and owners. There is no telling how many horses, owners, and players have been deprived of honest wins because of the plain inability of the human eye to catch the finish of a close horse race.

Almost without fail the human eye will give an edge to the horse on the rail. People used to think that cameras did that too, but no more. That camera of mine, which just got me sore for a second, not only places the first, second and third horses, but all of the horses in the race. You'd be surprised how many dead heats you get for fifth, sixth, seventh and even last place."

"Are all photo-finish cameras this accurate," I asked Mr. Jones.

* * *

"No, I don't think so," he answered, "and that's not just bias either. There is one that is working at one of the biggest tracks in this country that photographs only moving objects.

This means that when the negative is developed there isn't a sign of a finish wire, or a fence, or a tote board, or anything that would connect the horses shown with any particular track or any particular race. The finish wire, because it is not a moving object, has to be superimposed against the noses of the leading horses. I am inclined to believe that this is a bad thing."

Swearing Means a Slapped Wrist On This Championship Ball Club

SHORTSTOP JESSIE LESLIE PITCHER WILMA TURNER CATCHER RUBY JOHNSON

These two sluggers and Wilma's pitching make Alameda tough to beat in any league.

By SAM JACKSON

LAMEDA, Calif.—(AP)—This challenges the fabulous record of those 1869 Cincinnati Red Stockings—a ball team in this town has won 96 straight games and is confidently forging ahead toward the 100 mark.

It's a girls' team, though—softball, of course. As the record indicates, these girls claim national and international championships in their line. Lacking any commercial angle this season, they just go under the name "Alameda." County Supervisor Harry Bartell, father of Detroit shortstop Dick Bartell, scurries around and raises the money to keep them going.

* * *

Guiding genius of the club is a city fireman named O. W. Fisher, who seems to combine the abilities of manager, coach and talent scout in remarkable degree. He was once a jockey, and has never played much baseball himself.

The first year Fisher got his gang together was 1938, and they went to Chicago to capture the national tournament. Last year they took it again, though two 1-to-0 games gave them a fright.

Barring some upset in regional eliminations, they will be on hand when the international softball tournament opens at Detroit Sept. 7 to seek their third title.

Some of the things Fisher runs up against are different from problems of the manager of male teams. The star pitcher who hurled the team to two championships got married and quit. Another star has just become a mother. When the going is tough, some of his players break down and cry. And so on.

The pitcher's box has been effectively filled this season by Wilma Turner, a 16-year-old high school girl of Bakersfield, Calif. She makes a round trip of nearly 600 miles to play in each game.

"Willie" was heroine of last year's tournament when her double broke up a 12-inning tie with Louisville, and now she has lived up to her reputation by pitching 22 straight games and winning them all. She is women's bowling champion in her home town—a point for those who say bowling is good practice for softball pitching.

* * *

The Alamedas don't go in for sex appeal on the diamond by wearing the conventional shorts. They're ball players, and their sateen uniforms are cut just like those of professionals.

They're nice girls and have a rule against swearing even in the hottest moments of conflict. An offender must hold out her left arm and let each teammate take a whack at it.

PLAY UNDER LIGHTS

Nick's Place softball team will travel to New Pittsburgh for a game under the lights with the New Pittsburgh softball club Thursday at 8:30 p. m. All players are asked to meet at Nick's Place Thursday at 6:30 p. m. before journeying to New Pittsburgh.

Major League Leaders

(By Associated Press)

NATIONAL LEAGUE

Batting—Danning, New York, .340.
Runs—Frey, Cincinnati, 69.
Runs Batted In—Mize, St. Louis, 71.

Triples—McCosky, Detroit, and Keller, New York, 11.
Home Runs—Foxx, Boston, 21.
Stolen Bases—Case, Washington, 23.
Pitching—Newsom, Detroit, 13-2.

PREDICT 500 IN EVENTS

(Continued From Page 26)

Saturday morning with the finals. Ribbons will be awarded preliminary round winners and cash prizes will be given final winners.

The Olympics are being run as special children's day features on the county fair program. The event is designed to replace the annual playground field day, cancelled this year because lack of funds has prevented operation of the recreational grounds.

Plans have been made to have picnic grounds set aside for the children so they can bring their lunches and spend the balance of the day at the fair. They will be admitted to the grandstand program in the afternoon for 10 cents.

Starting off the event in typical style, an Olympic relay team carrying an American flag will make a dash to the fairground beginning at 8:30 a. m.

The first runner will leave the Mansfield-Leland hotel and Mayor W. J. Locke will serve as the starter.

Runners on the team are Paul Ferguson, Phillip Duckworth, William Ferguson, James Young, Tom McNew, Robert McCullough, Richard Burton, Rudy Knapp, Lawrence Pittman, Herbert Smith, Gerald Hobart, John Hill and Robert Patterson.

* * *

Starting at Walnut street and Park avenue west, the runners will go west to Mulberry, north to Springmill street and on to the fairground by way of Harker street.

* * *

To compete in the Olympics, boys and girls must report at the baseball field at the fairground at 9 a. m. Friday. They will compete in age classifications, and events to be run off are:

Aren't you glad I remembered about "33 to 1"?

BLENDED 33 TIMES TO MAKE ONE GREAT BEER!

It's the happy blending of 33 separate brews.

PABST Blue Ribbon is served in more homes—at more parties and picnics—than any other beer.

And the reason? It takes not one, not five, or twelve . . . but 33 separate brews from 33 separate kettles, to make a single glass of BLUE RIBBON!

Each brew is as fine as choicest ingredients and Pabst's 96 years of experience can make it.

Then all 33 brews are brought together in perfect balance.

An expensive way to brew? Of course! It's like blending champagne, coffee or tobacco to produce the finest. And that's what makes it *America's Premium Beer*, with a smoothness that is unique . . . and a goodness that never varies.

Meet Blue Ribbon today!

It's the BLEND *that Betters the Beer*

Try Pabst Blue Ribbon and Prove it

Just One Dozen Fine New Homes Are Under Construction In Coolridge Heights

Several young couples are making their start to own their own home in this sub-division.

Located on the left side of the Ashland-Mansfield road, 2 miles east of the square at the top of Pulver's Hill.

There will be a number of more homes started soon. You, too, will take advantage of this opportunity if you will only come out and investigate the same.

This beautiful sub-division with its winding drives, with all the utilities, paved streets all paid for, water, gas and electricity, high and dry affords a beautiful view of the entire city. These home sites are artistically laid out and the contour of the ground makes it an ideal place to build.

Restrictions prevail. No shacks, garage houses or trailers will ever be tolerated here.

Your investment in this sub-division will always be secure.

It is handy to the schools, factories and the down town district.

These homes now under construction can be inspected by you. We have all kinds of designs for you to choose from. We can build you just what you want.

Come out and choose your site and let us assist you in picking out the home that will meet your needs. Let us explain how easy it is to own your own home.

We are offering these large home sites from $100 to $300. We arrange the terms to suit you.

Come out and get in on this boom. You are bound to make money. Now is the time to get started.

Drive out tonight. Salesmen will be on the ground between 6 and 8 p. m.

Or Call Canal 3176

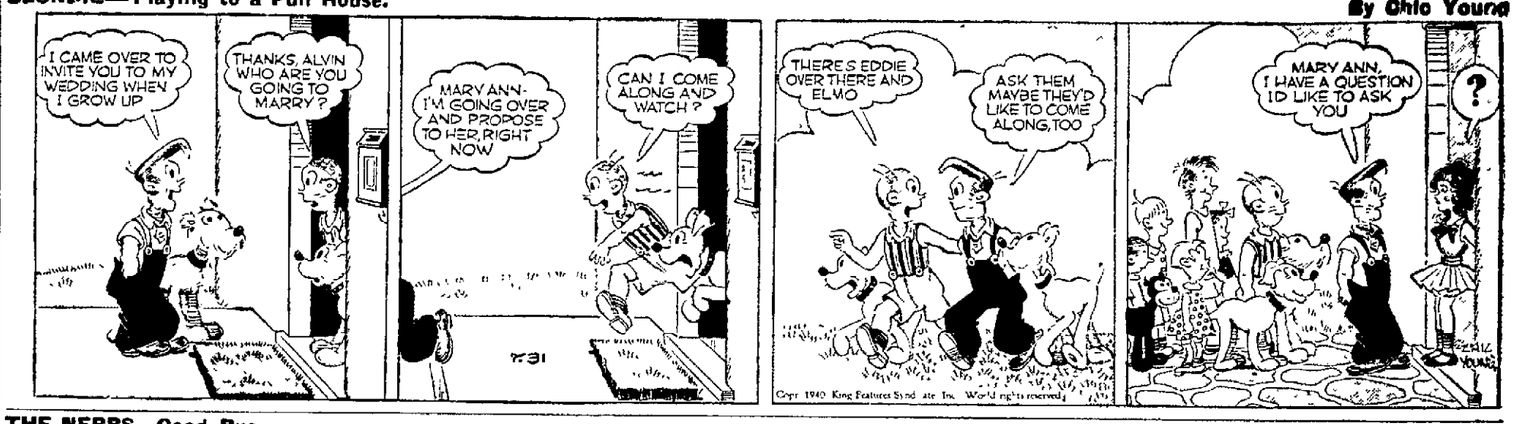
LITTLE ORPHAN ANNIE— Man Alone.

By Harold Gray

OH, THERE GOES SAM- HE'S DELIVERIN' SUITS HE'S PRESSED--HE'S A NICE GUY. ISN'T HE?
YES, ANNIE- SAM IS A FINE MAN-
7-31-40
I GUESS EVERYBODY LIKES SAM, DON'T THEY?
WELL, PEOPLE WHO KNOW HIM DO--- I REMEMBER WHEN HE FIRST CAME INTO THIS NEIGHBORHOOD- PEOPLE ARE CRUEL SOMETIMES-
BUT HE'S SO KIND AND FRIENDLY- HOW COULD ANYONE HELP LIKIN' HIM?
AT FIRST, NO ONE WOULD HAVE ANYTHING TO DO WITH HIM--- I DON'T KNOW HOW HE MANAGED TO HANG ON--- BUT HE DID-
HE USED TO STAND AT THE DOOR OF HIS SHOP WATCHING THE PEOPLE PASS- EVEN HIS NEIGHBORS WOULDN'T SPEAK TO HIM- THEY SEEMED TO THINK HE WAS BENEATH THEM-
ANY FOLKS THAT MEAN HAVE GOT TO DIG PRETTY DEEP TO FIND ANYBODY LOWER THAN THEY ARE-
HAROLD GRAY

BLONDIE— Playing to a Full House.

By Chic Young



I CAME OVER TO INVITE YOU TO MY WEDDING WHEN I GROW UP
THANKS, ALVIN WHO ARE YOU GOING TO MARRY?
MARY ANN- I'M GOING OVER AND PROPOSE TO HER, RIGHT NOW
CAN I COME ALONG AND WATCH?
7-31
THERE'S EDDIE OVER THERE AND ELMO
ASK THEM MAYBE THEY'D LIKE TO COME ALONG, TOO
MARY ANN, I HAVE A QUESTION I'D LIKE TO ASK YOU
?

PAM— In Answer.

By A. W. Brewerton

PAM HAS PURPOSELY KEPT THE GOOD NEWS FROM COLONEL CAREY TO SURPRISE HIM IN PERSON!
GUESS HIS NEW SECRETARY HAS THE RUN OF THINGS BY NOW - MUSTN'T LET THE OLD DEAR THINK OF TURNING HER OUT FOR ME!
CLIFF
AT
THIS GIRL WILL CERTAINLY DRIVE ME CRAZY! OH, WHAT WOULD I GIVE TO HAVE PAMELA BACK AGAIN!
7-21
HELLO, COLONEL CAREY.
WHY - WHY, - PAMELA! - SPEAKING OF ANGELS!
BUT, MY DEAR, WHERE IS MISS LOY? DON'T TELL ME YOU'RE GOING ABOUT BY YOURSELF, ALREADY? THAT YOU CAME DOWN HERE ALONE?
YES, COLONEL
THE OLD COLONEL IS TRULY ASTONISHED - BUT IS DUE TO BE STILL MORE AMAZED.

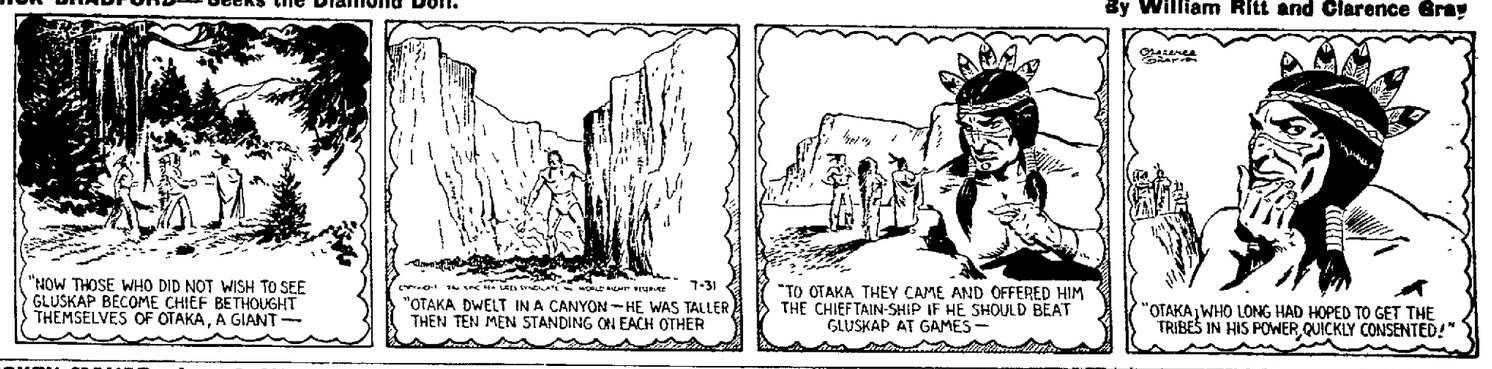
THE NEBBS— Good-Bye.

By Sol Hess

THE NEBBS ARE OFF ON THEIR VACATION - - A FLYING TRIP IN THEIR PLANE - - - - THEIR COURSE TO BE CHARTED BY WHIM AND FANCY
7-31
WELL, SUDER, I'M OFF! THE FEARLESS NEBB FLIES AGAIN!
MR NEBB, YOU SAID YOU WERE IN A BIG HURRY TO GET THAT ADDITION TO YOUR POWER PILL FACTORY - WILL YOU LOOK OVER AND O.K. THESE BLUEPRINTS?
THEY LOOK ALL RIGHT - I DON'T THINK THE CHANGES I COULD MAKE WOULD BE MUCH IMPROVEMENT
JUST GET GOING ON THE BUILDING - I'M GOING AWAY SO MR SLIDER HERE WILL SUPERINTEND THE CONSTRUCTION - YOU WON'T HAVE ANY TROUBLE GETTING YOUR MISTAKES PASSED BY HIM!

BRICK BRADFORD— Seeks the Diamond Doll.

By William Ritt and Clarence Gray



"NOW THOSE WHO DID NOT WISH TO SEE GLUSKAP BECOME CHIEF BETHOUGHT THEMSELVES OF OTAKA, A GIANT —
"OTAKA DWELT IN A CANYON — HE WAS TALLER THEN TEN MEN STANDING ON EACH OTHER
7-31
"TO OTAKA THEY CAME AND OFFERED HIM THE CHIEFTAIN-SHIP IF HE SHOULD BEAT GLUSKAP AT GAMES —
"OTAKA, WHO LONG HAD HOPED TO GET THE TRIBES IN HIS POWER, QUICKLY CONSENTED!"

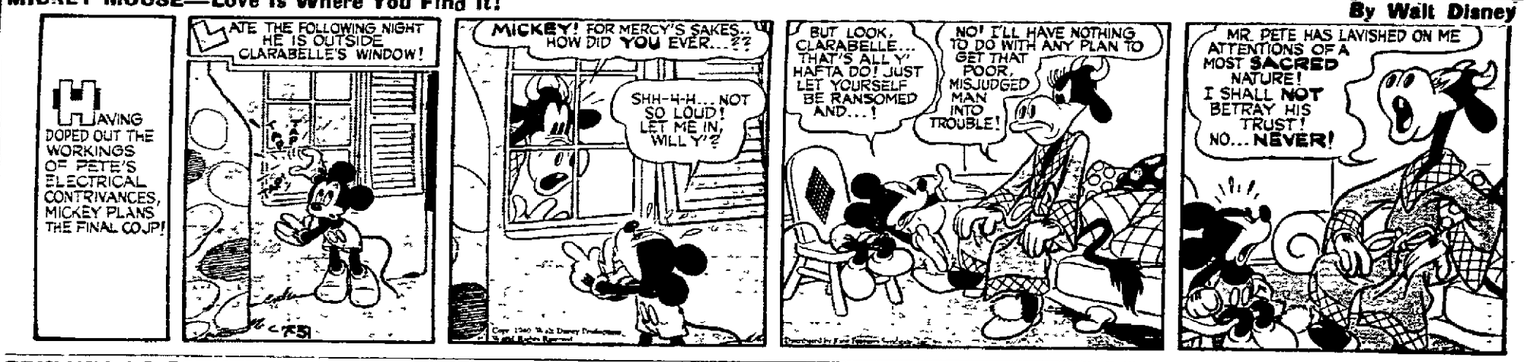
MICKEY MOUSE— Love Is Where You Find It!

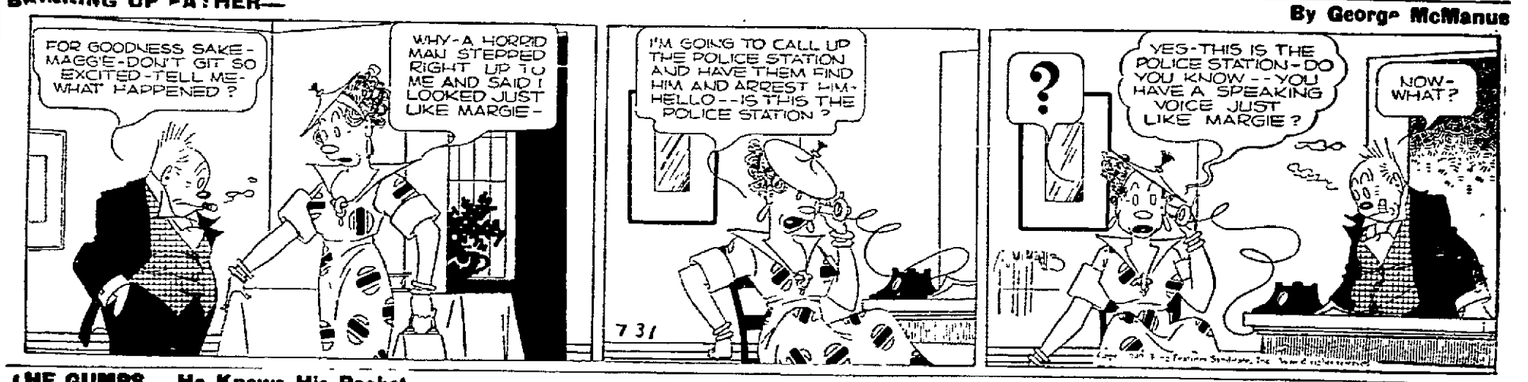
By Walt Disney



HAVING DOPED OUT THE WORKINGS OF PETE'S ELECTRICAL CONTRIVANCES, MICKEY PLANS THE FINAL COUP!
LATE THE FOLLOWING NIGHT HE IS OUTSIDE CLARABELLE'S WINDOW!
MICKEY! FOR MERCY'S SAKES.. HOW DID YOU EVER...??
SHH-H-H... NOT SO LOUD! LET ME IN, WILL Y'?
BUT LOOK, CLARABELLE... THAT'S ALL Y' HAFTA DO! JUST LET YOURSELF BE RANSOMED AND...!
NO! I'LL HAVE NOTHING TO DO WITH ANY PLAN TO GET THAT POOR, MISJUDGED MAN INTO TROUBLE!
MR. PETE HAS LAVISHED ON ME ATTENTIONS OF A MOST SACRED NATURE! I SHALL NOT BETRAY HIS TRUST! NO... NEVER!

BRINGING UP FATHER—

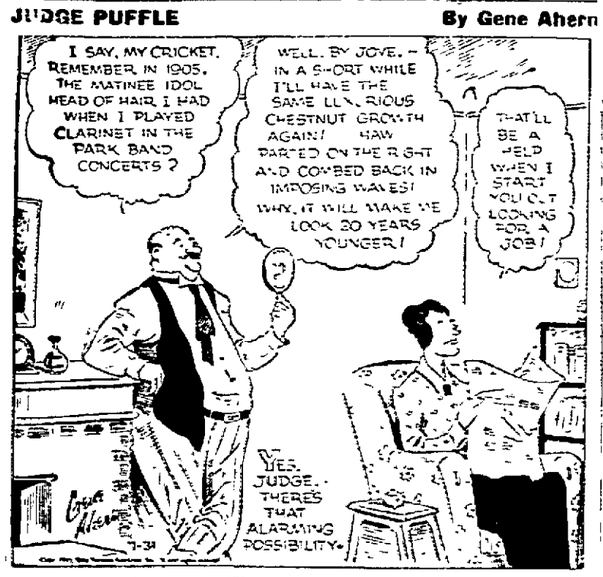
By George McManus



FOR GOODNESS SAKE - MAGG'E - DON'T GIT SO EXCITED - TELL ME - WHAT HAPPENED?
WHY - A HORRID MAN STEPPED RIGHT UP TO ME AND SAID I LOOKED JUST LIKE MARGIE -
I'M GOING TO CALL UP THE POLICE STATION AND HAVE THEM FIND HIM AND ARREST HIM - HELLO - - IS THIS THE POLICE STATION?
7 31
?
YES - THIS IS THE POLICE STATION - DO YOU KNOW - - YOU HAVE A SPEAKING VOICE JUST LIKE MARGIE?
NOW - WHAT?

JUDGE PUFFLE

By Gene Ahern



I SAY, MY CRICKET, REMEMBER IN 1905, THE MATINEE IDOL HEAD OF HAIR I HAD WHEN I PLAYED CLARINET IN THE PARK BAND CONCERTS?
WELL, BY JOVE, - IN A SHORT WHILE I'LL HAVE THE SAME LUXURIOUS CHESTNUT GROWTH AGAIN! HAW PARTED ON THE RIGHT AND COMBED BACK IN IMPOSING WAVES! WHY, IT WILL MAKE ME LOOK 20 YEARS YOUNGER!
THAT'LL BE A HELP WHEN I START YOU OUT LOOKING FOR A JOB!
YES, JUDGE, THERE'S THAT ALARMING POSSIBILITY.

STOCKS MOVE UNCERTAINLY IN REACTION

Dull Behavior Results From Failure to Follow Up Buying Lead.

(By Associated Press)

NEW YORK—Stocks moved uncertainly today in reaction to yesterday's general upturn.

Among issues on the downside from time to time were U. S. Steel, Bethlehem, General Motors, Douglas, Sears Roebuck, Santa Fe and Texas corporation.

Traders said the dull behavior resulted from the failure of the public to follow the buying lead.

Bonds and commodities were mixed. The cotton textile market was active.

America's rearmament program, the magazine Iron Age reported, has begun to exert an influence on the steel industry.

"Fabricated structural steel contracts," it said, "are upward of 49,000 tons and include a good many defense projects."

The finanacial district's overnight news was the $1 a common share dividend declared by U. S. Steel, which reported June quarter net profit equal to $1.48 a common share compared with $1.24 in the March quarter.

CROWD ON HAND AS FAIR OPENS

Fairgoers Begin Early Trek to Grounds as Four-Day Farm Show Begins.

(Continued From Page 1)

Fair directors today pointed with pride to what they called the largest mid-way ever built for a Richland fair. The mid-way, crowded with fun concessions, shows and other typical county fair amusements, extends from the grandstand past the exhibit halls at the far eastern end of the grounds. Concessions line both sides of the mid-way.

The fair's grandstand program got under way at 1:30 this afternoon. Tonight's program starts at 7:30 p. m. Dick Roger's All-American Maniacs, automobile and motorcycle thrill show directed by B. Ward Beam headlines today's performances.

Judging of exhibits will start tomorrow morning. Horses and cattle are to be judged before the grandstand beginning at 9 a. m. Poultry, sheep, and hogs will be judged in the exhibit halls.

All judging is to be completed before noon so that the race track will be cleared in time for the Thursday afternoon grandstand program which features a double bill program, one a circus and the other the B X B rodeo.

Topping the afternoon program Thursday will be the fair's feature attraction, a balloon ascension in which a girl is shot from a cannon attached to the gas bag. The cannon is discharged when the balloon reaches a height of 3,000 feet.

The balloon-cannon act will be repeated on Friday's and Saturday's programs.

Tomorrow has been set aside as courthouse and city hall day at the fair. Both city and county buildings will be closed in the afternoon to permit employes to attend.

NEW MEMBERS

Fraternity Initiates Three at Services Monday.

Three new members were taken into Phi Sigma Chi fraternity during formal initiation services held Monday night.

New members are Earl Hines, John Fisher and John Emmler. Edward Sites, president, presided over the exercises, assisted by Stuart Meehan, treasurer, Pat Malone, secretary, and Max Stickler, who acted as chaplain.

A delegation from the fraternity is expected to attend the national convention to be held in Cleveland in August.

'WEARY WILLIE'

OKLAHOMA CITY —(AP)— A thief whob roke into Mrs. C. W. Alexander's home must be planning to take life easy. He stole three pillows.

MANSFIELD NEWS IN BRIEF

Hobby Meeting—A meeting of the Buckeye Hobby club will be held at 8 p. m. Thursday at the Y. M. C. A., Donald Cram, secretary, announced today.

Car Recovered—An automobile which Paul Banbury, Danville, reported stolen Monday night, was recovered by police last night near Wayne and Fifth streets.

BAPTIZES BABY AT BED-SIDE

100-Year-Old 'Daddy' Millar Conducts Service For Daily Infant Caller.

(Continued From Page 1)

But he wanted to baptize little Judy, and the McLaughlins were eager to have him do it. At first Rev. Millar had hoped that he would be able to get up and perform the ceremony in the yard, under the trees, but at last he knew that would not be possible and it was he who suggested that Judy be brought to him for the baptismal service.

Sitting on the side of his bed, he performed the sacred service, using a silver bowl for a fount, and while he held Judy on his lap he baptized and christened her Judith Kay.

So eager was the venerable churchman to perform this service for his small, bright-eyed friend, that he could eat no breakfast yesterday, and he was as excited as a boy in anticipation of the event.

And Baby Judy repaid him by being on her best behavior, blinking her wide eyes a little as the drops of water fell on her head and face.

Enters Hospital—Reuben Neal, 29 Greenwood avenue, entered U. S. Marine hospital, Cleveland, Monday for treatment of an injury suffered in a fall recently while delivering mail.

Meeting Set—A meeting of old age pensioners in the recently organized Richland county branch of the Ohio Society of Old Age Pensioners will be held here Saturday afternoon in the common pleas courtroom at the courthouse.

Back From Funeral—Mr. and Mrs. O. M. Bauer, 61 Clifton avenue, and their daughters Winifred, Shirley and Bernice have returned from Chelmsford, Mass., where they attended funeral services for Mrs. Bauer's mother.

Picnic Saturday — The seventh annual Florida-Ohio "get-together" and picnic, will be held Saturday at the North Lake park pavilion. A covered-dish dinner will be served at noon, according to an announcement by Mrs. D. G. Dickson, secretary.

Vandalism Reported—Residents near Maple lake called police last night to tell them that boys had thrown the picnic tables into the lake and were using them as diving boards. Police located the boys at the lake and sent them home after they denied throwing the tables in the water.

Watch Taken—Virginia Hopper, Belmont avenue, left a wrist watch in the keeping of an attendant at Liberty pool and when she called for it, the attendant said she had given it to another girl, according to police who were trying to locate the other girl today.

Plan For Picnic — Transportation arrangements to the picnic Sunday of the Disabled American War Veterans at Greter's Lake, near Crestline were announced today. Members planning to attend, but without means of transportation were asked today to meet at Memorial building, Park avenue west, at 11 a. m. Sunday. G. C. Davis, chaplain of the D. A. V., is in charge of the arrangements.

TRAFFIC DEATH DAMAGES ASKED

Suit For $75,000 Filed by Widow of Engineer Who Was Killed by Truck.

ASHLAND—Judgment for $75,000 is asked in common pleas court here for the death of the late Howard Fetzer, in a suit filed by his wife, Myrtle Fetzer, against O. H. Hiser, driver of the truck which struck him.

Hiser, a Tiffin operator, is charged with negligence and failure to even attempt to avoid striking Fetzer with his truck on route 224 east of Sullivan, on June 21.

Fetzer was struck down by Hiser's truck as he was surveying lands from the highway, Mrs. Fetzer states in her petition. She avers that he had set up his transit on the highway, and that he was standing behind it, when struck.

It is alleged that the defendant was operating his truck at an excessive speed in a westerly direction, that he was negligent in its operation, that he did not have it under control, that he failed to move over in effort to avoid striking the engineer and that he gave no warning.

Fetzer was 47, a graduate of Ohio Northern university, and at the time of his death, earning $5,000 yearly, with a family dependent on him for support, the petition states.

IT'S TYPICAL

California Shows 21 Per Cent Gain in Population.

SAN FRANCISCO—(AP)—California gained 1,196,560 or 21.08 per cent, in population during the last ten years, preliminary census figures disclosed today.

The 1940 figure is 6,873,811, compared to 5,677,251 in 1930.

Largest numerical increase was in Los Angeles county, which went up 568,719, or 25.7 per cent, to 2,777,211.

Shasta county, where the central valleys irrigation project brought an influx of workers, had he largest percentage increase, 106.5.

About 10,000 persons are employed in making men's neckwear in the U. S.

Writer a Suicide

An official report from Tokio police headquarters states that Melville Cox, a correspondent of Reuters news agency (British), died after a plunge from a window in Tokio police headquarters after being quizzed concerning his news dispatches. Japanese authorities have recently been exerting heavy disciplinary measures against "unfriendly" foreign newsmen.

Property Owners Ask Parking Ban On Their Streets

City council had before it today petitions from two groups of property owners requesting extension of the parking ban to include the streets on which they live.

Both were filed with Council Clerk William J. Beer and will be referred to council for action at its Aug. 6 meeting.

Residents on Lexington avenue between Main street and Dunbilt court submitted a petition asking council to prohibit parking on the east side of the street between the Main and Dunbilt court intersections.

Property owners on the first alley east of Main street between North Park street and East Third street requested council to restrict traffic on the street to "one-way."

BROTHER DIES

Mrs. Oliver Gremling, 16 East Arch street, received word of the death of her brother, Fred Hill, a former resident of this community, at Minneapolis, Miss., Monday morning. Services will be held at Minneapolis today and burial will be there.

Quick Relief From Pile Irritation

30 years ago a Buffalo druggist created an ointment for relief from the itching and smarting of Piles. It brought such quick cooling, soothing, astringent relief that its fame spread throughout the country, and made Peterson's Ointment a favorite in thousands of homes. Ask your druggist for a 35c box of Peterson's Ointment today, or 60c tube with applicator. Money back if you are not delighted with the relief.

SKIPPERS AVER RIVER PACKETS TO RIDE AGAIN

Envision Modern Designed Boats on Mississippi Muddy Waters.

MEMPHIS, Tenn.—(UP)—They are gone, those days when romantic old packets churned up and down the muddy Mississippi while easy-going passengers aboard sipped mint juleps and played cards or basked in the sunlight and watched the peaceful delta farmlands go slipping by.

But old-time river men don't believe they are gone forever.

"They'll be back," they say, "'cause Old Man River ain't hisself without the packet and the lazy roustabouts."

They feel that the Father of Waters has been robbed of most of his romance by automobiles, buses, railroads, and airplanes. They reason that, although the packets have been driven out of business, all travelers aren't in a hurry to get to their destinations.

Some Night Clubs Afloat.

Today the only traffic on the mighty stream is made up of barges, speed boats, pleasure yachts, and a few floating night clubs. Men who once piloted the packets believe the interest of pleasure-seeking Americans will bring back the passenger steamers.

Seldom does a week pass that inquiries are not received in Memphis by persons wanting to know if they can drive to Memphis or come by train and then take a steamer down to Natchez, Vicksburg and New Orleans.

The old-timers believe that passenger service will be revived on the Mississippi by someone with an eye for profitable business.

"It's an important field," they say. "Lots of people would like nothing better than a chance to ride down the old river on a real steamboat. Can you imagine a better way to spend a two-week vacation?

"Folks want to ride in a steamer that looks like the old packets outwardly, but the packet will have to be a modern vessel inside."

Trips Popular Now.

They point out that a St. Louis line makes trips twice a year from St. Louis down the Mississippi, up the Ohio, then down the Tessessee to Wilson Dam. These ships carry a capacity load each trip.

Barge lines operate regularly in and out of Memphis but barges are not permitted to ship passengers unless they have special licenses. Few of these lines go to the added expense of a passenger license because their accommodations are too limited. Many a prospective passenger has been disappointed because of this.

There are no boats docking in Memphis capable of carrying many passengers, and if the dream of the river men is to be realized, new ships will have to be built at great expense.

But that doesn't shake the confidence of old-timers. They believe in progress, and they see no reason why the Mississippi should not be a part of it.

CHURCH BIRTH

Cat Has Kittens In Pew as Curate Gives Sermon.

ROCHESTER, N. Y.—(AP)—While Rev. Donald H. Gratiot, curate of Christ Episcopal church, was delivering his Sunday sermon, a stray cat, which had entered the edifice several times before, gave birth to two kittens in a pew.

Notified after the service, Rev. Gratiot telephoned the humane society. Later, the cat gave birth to a third kitten there.

UMPIRE'S RIGHT

Prison Ball Players Won't Argue With Arbiter.

SALEM, Ore.—(AP)—The state prison baseball team will be in perfect agreement with umpire's decisions in its first game outside the walls in 20 years.

Umpire for a game Aug. 12 with the Carl Mays team will be Roy S. Keene—parole board member.

MANSFIELD, OHIO
JULY 29-Aug

NEWSPAPERARCHIVE®

Mansfield News-Journal

AN INDEPENDENT NEWSPAPER

MANSFIELD, OHIO, WEDNESDAY, JULY 31, 1940.

Now ex-King Zog, of Albania, wants to come to the United States, possibly hoping to join Zig and Zag.

No wonder southern Democrats are disturbed by the announcement that Jim Farley will hereafter show preference for the Yanks.

Oldsters who recall when eggs were a dime a dozen sometimes forget that the dime was also considered good pay for an hour's work.

Britain Confident of Victory

THE HEAD of a large factory which has branches in the British Isles as well as in some other parts of the earth reports a startling change in English sentiment in the last few weeks as the English representatives come in for their periodical visits to the main plant.

That slow British wrath which began to stir against the Chamberlain policy at Munich has now flamed to white heat. Norway roused Britain to real danger. Holland and Belgium made it mad. At the collapse of France came first a fury at the treachery which sold out its ally, then the realization that now Britain must fight it out alone. With this came a steadiness and sureness not felt before.

The Churchill leadership has been a great success so far, say these men from England. Under it Britain is becoming herself again. She is now perfectly confident of the outcome. Time must be lived through, invasion and struggle, perhaps. Siege under short rations is not only possible but probable for a while. But fear? Not at all. They know they are going to win. Britain is going into battle with the grim determination to fight it out no matter how long it takes.

Well-Intentioned Dumbness

A LOCAL motorist writes to mention a recent driving incident in which he was surprised at the apparent ignorance of a driver who was pulling away from the curb without paying any attention to an approaching car.

As told by our informant: "I was driving on a down-town street when suddenly a car started out from the curb not 20 feet ahead of me. I sounded my horn and swung to the left. Instead of waiting until I had passed, the driver kept coming out, forcing me to the center of the street. When I asked him why he did it he replied (believe it or not) 'Always watch the car to the right of you.' He said it with profound earnestness, as if reciting some well-learned maxim, giving the impression that he had always practiced that creed and would continue to do so."

The habit of pulling out from a curb parking place without making sure that no other car approaching from the rear is too close for safety has become so common in Mansfield that there is no apparent justification for severe censure in this particular case, although the explanation, "Always watch the car to your right," seems to mark a new high in motoring dumbness.

An obvious weakness in Ohio's driver's license law is assumption of an applicant's ability to safely drive an automobile without being required to meet any tests intended to disclose such ability.

The conclusion seems reasonable that much of the asinine driving witnessed on Mansfield streets and vicinity highways is due to ignorance rather than wilful violation of traffic laws and rules.

Make Democracy Work

THE American people, awakening to the menace to this nation's way of life, are willing to make many sacrifices in the name of liberty and security. But that doesn't mean they will be satisfied with mere bills appropriating money and raising taxes. They want to make sure that tax money spent produces results—that bureaucratic red tape is cut—waste reduced—delay avoided.

It is one thing to appropriate billions. It is another thing to translate those billions into airplanes and artillery, and fighting ships. Any run-of-the-mill politician can vote to spend taxes—but it will be a dark day for this country if politics is permitted to dominate the actual job of making our needed weapons. The wisest industrial and economic statesmanship is vital. Speed, efficiency and economy are the essentials.

This is the time to make democracy work. America's capacity to produce is limitless — the American genius for achievement has proved itself too often in other crises to be doubted now. But that genius must be freed of the political shackles that have been welded onto it in recent years.

On Guard Against Burglars!

CONTINUED vigilance of the police department, coupled with co-operation and caution on the part of citizens, should shortly be effective in apprehending the persons responsible for a number of recent burglaries in Mansfield.

Past experience has shown that such culprits usually run only a brief course before they are caught.

Meanwhile residents of the city are warned to be on guard against strangers seeking admission to homes, either on the pretext of being canvassers, asking to use the telephone, or whatever the excuse may be.

Where the behavior of a strange caller, or person seen in the neighborhood, is such as to arouse suspicion, proper procedure would be to make a report to the police for investigation.

Other cities are reporting similar conditions and it is important that Mansfield residents give every possible help to the police department in rounding up either the transient vagrants or local crooks who have been burglarizing homes, offices and stores in this city.

Parachutists as Fire-Fighters

PARACHUTISTS are being trained in considerable numbers in the mountains of the Far West, not to drop bombs on harmless neighbors, but to put out forest fires.

The airplane has been used for nearly twenty years in the forest service, to scout out fires and to drop tools and supplies to ground crews fighting them. Just lately have men been dropped at the fire fronts where they are most needed. These smoke-jumpers carry explosives and fire extinguishing chemicals. They also have rations for several days, compass and portable radio. They alight on treetops, letting themselves down by coils of rope.

So many of the developments of modern science have been used for destructive purposes in the past few years, it's pleasant to see one used by the forest service for the saving of our trees.

THE ENDLESS VIGIL

Listen, World!

Too Busy "Expressing Themselves" To Help a Child Find Expression.

—By ELSIE ROBINSON

A YOUNG GIRL writing in a strange room . . . smearing back her ceaseless tears with shaking hands . . . gulping through swollen lips. A young girl, writing her farewell.

"Dear Mother and Father—I love you both so much and I hate myself for this, but I just don't know how to get along with other people. If we hadn't moved nearly every year, I mightn't have always felt so strange with other girls and felt that I have so few things in common with them. I'm sorry, but things like this sometimes happen.

She put down her pen, turned uncertainly toward the open window. Twenty-two stories down—twenty-two stories was a long way . . . longer, maybe, if you were just a kid, leaving life before you'd had a chance to know it. And after that—what? What lay ahead? She didn't know.

But, then, she never had known what lay ahead of anything. Everyone had always been too busy, moving around. No time to think . . . no time even to feel. No time to learn what you were all about. It had been like one of those bad dreams where you're always falling . . . falling. So, perhaps this last fall wouldn't be so different. Just the first part would be hard. For an instant she closed her eyes, clinging to the table, breathing hard. Then she was running . . . was over . . . was gone.

That is a true story. And thousands of young parents, reading it over their morning's coffee, gasped with pity for that father's and mother's pain, or possibly snorted at such a daughter's ingratitude. *Never dreaming, as they did so, that they might be contributing to a similar tragedy in their own children's lives!*

They don't look like criminals, these modern parents. They're gay, friendly young folk, proud of their pleasant homes, current interests and up-to-date viewpoints. They love life, and honestly believe it is their duty to get the most out of it. And they are as sincerely convinced that they are devoted to their children. They provide for them amply, give the mthe best of food, fun, clothes, and schooling.

YET THEY'RE WRECKING THOSE YOUNG LIVES AS SURELY AS THOUGH THEY STARVED THEM DELIBERATELY.

But how? By depriving them of that quiet companionship, that sense of security and stability which growing natures so vitally need that they may find root and anchorage against the shocks and change of life.

"If we hadn't moved nearly every year," wailed that despairing little ghost who had never been able to find her place in the constantly shifting scheme of things. And countless young Americans will echo that wail, for restlessness is the favorite vice of these 1940 fathers and mothers. *"Let's go places—do things"* is their theme song, lest dreaded old age creep upon them through inertia. Not for them the "stupid" sacrifice, discipline, order and regularity which once made real homes and built sane minds and steady nerves in husky bodies.

Even if they do not change their addresses, their days become a whirl of Dizzy Doings . . . night spots and country clubs . . . golf . . . bridge, "affairs," hectic week-ends . . . radios blaring, cocktails swishing throughout the apartment.

SO BUSY "EXPRESSING THEMSELVES" THAT THEY HAVE NO TIME TO HELP THEIR BEWILDERED CHILDREN FIND THEMSELVES AND DISCOVER THEIR WORLD!

(Copyright, 1940)

Looking Back

TWENTY YEARS AGO TODAY

Saturday, July 31, 1920.

Hundreds of Mansfield and Richland county Republicans went to Marion to greet Warren G. Harding, presidential nominee, at opening of "front porch" campaign.

Hughes-Keenan company started moving into new plant on Wayne street—site of old baseball grounds.

Mrs. J. H. Secrist, 58 South Adams street, underwent operation at General hospital.

R. R. Maxwell bought Chalfern apartments, corner West Fourth and Bowman streets.

Augustus G. Fox was awarded four-year scholarship at Western Reserve university.

Pythian Sisters surprised Mrs. William Schrack with housewarming at new home, 88 Helen avenue.

FIVE YEARS AGO TODAY

Wednesday, July 31, 1935.

Three hundred melons were being iced for the annual watermelon festival at Johns Park.

Announcement was made of the marriage of Miss Pauline Lanning to Jerry Crofutt, on July 28 at the home of the bride's parents.

Miss Genevieve Watson, primary supervisor of Mansfield public schools, was named supervisor of elementary education at Norwalk, Conn.

Ruth Garver, Mary Butler, Mrs Arthur Knight and Dorothy Crawford entertained at the W. L. Secrauth home for Mrs. Kenneth Houston, a recent bride.

Guests at the G. W. Brunk home for the wedding of his daughter, Eleanor, to Charles Cook, were three other daughters and husbands, Mr and Mrs Nolan Reiter of Las Cruces, N. M.; Mr. and Mrs. James Swinehart of Cleveland, and Miss Christine Brunk of Beacon, N. Y.

TODAY IN HISTORY

The Treaty of Breda, Holland, was signed by representatives of England, France, Holland and Denmark on July 31, 1667. Acadia (Nova Scotia) was given to France and New York and New Jersey were confirmed to England.

Health And Diet

Proper Care For Sunstroke Victims.

—By DR. CLENDENING

HEAT stroke or sunstroke is due to an upset of the heat regulating centers of the body, and the worst symptoms, the actual "stroke," loss of consciousness and collapse, are preceded by a period when the victim becomes very sensitive to the oppressive atmospheric conditions, gets pale with clammy skin, feels weak, may be nauseated. Shortly after the skin, instead of being clammy, feels hot and dry and mentality is disturbed.

The English physiologist, Haldane, has shown that if the temperature of the environment is greater than the body, heat storage may occur and a grain in body temperature of one degree an hour is possible. Humidity, that old enemy, tends to increase this heat storage.

Cooling Imperative.

Treatment in these early stages will ward off the serious later stages. Cold water on the skin to reduce temperature is the indication. Ice is not so effective as cold water evaporated by a fan. The evaporation of a quart of water removes seven times as much heat as the melting of two pounds of ice.

The water should be thrown on the body with some force: from a hose, if available, or sluiced on from a bucket. This impingement of the water on the skin is a stimulant and very valuable because the real danger of heat stroke is circulatory collapse.

Of course, remove the heat exhausted victim to the coolest place that can be found, away from the sun.

The ideal treatment is to remove all the clothes, wrap the patient in a sheet and put him on a cot or a rubber sheet. A hose is played on him from a distance of several feet. Every two or three minutes a stream of cold water is poured on his head from a distance of 6 to 8 feet. Heat must not be extracted too suddenly and when the body temperature falls to 102 degrees Fahrenheit he is wrapped in blankets.

Anyone who handles one of these patients is liable to report that he is "sizzling hot" to touch. Sometimes the body temperature gets as high as 109 degrees Fahrenheit.

One heat stroke or attack of heat exhaustion makes the victim heat-sensitive, and he must be careful of hot weather ever afterward.

It only needs the newspaper headlines to tell us that the condition may be fatal. A bad heart or kidneys naturally predisposes to heat stroke, and people who know they have such disability should be doubly careful on hot days.

Everyday Poem

—By GEORGE ELLISTON

Comment At Sixty.

"I've had a lot of fun," he said.
"Life has been great to me.
And after all is said and done
I think you will agree

That any one who gets from life
A lot of fun is wise.
For seeking out the brightest side,
Its wonder and surprise.

"Is well worth while. Much I have missed
And yet success is mine.
I feel, who sought from life always
Its gayest, bright design."

As Others See It

Today's Thought.

The chances are that your worrying will do you more harm than the thing you are worrying about.—Kansas City Times.

Observation.

Begins to look as if the "gimmies" may have to economize until the taxpayers, with all the heavy expenses coming on, can earn more money.—Toledo Blade.

Washington Merry-Go-Round

Belated Efforts To Secure Tin Reveals Serious U. S. Shortage

—By DREW PEARSON and ROBERT S. ALLEN

WASHINGTON—After seven years of stalling over one of the most important raw materials to American industry, the state department actually is doing something about the U. S. tin supply.

In co-operation with the National Defense Commission, state department officials are doing three things:

1. Talking with Jesse Jones about an RFC loan to establish a tin swelter in the United States. The U. S. firms in on this are Phelps Dodge, National Lead, American Metals, and the American Smelting and Refining company.

2. Facilitating the visit of the world's biggest tin king, Simon Patino, to the United States; also holding conversations with Mauricio Hochschild, big German-Jewish producer of Bolivian tin.

3. The National Defense Commission has ordered 75,000 tons of metallic tin from the Malay peninsula and the Dutch East Indies.

This is almost enough to last the United States for half a year—if it ever gets here. But the catch is that the tin is still down in the mines of Malaya and must not only be mined and smelted, but also shipped half way around the world. Meanwhile the Japanese may move into this area of the South Pacific, or the Germans may crush the British combine which controls Malay tin, or the British may decide that they need the tin for their own military purposes.

* * *

Three Weeks' Supply.

ALL of which reveals one of the most inexcusable chapters of national defense neglect in recent history.

Almost nobody knew that on Jan. 1 of this year, U. S. stocks of tin were so low that we had only three weeks' supply. And few people know what the exhaustion of our supply would mean to American life and industry.

Not only would it put an end to our packing food in tin cans, which is a major industry, but it would eventually mean a blackout for every American home not lighted by gas or kerosene lamps. For the contact point of every electric light bulb is made of tin.

Furthermore, the U. S. fleet would be laid up in a few months for lack of tin for bearing replacements. The same would apply to automobiles, and to many other products intimately woven into American life.

* * *

Bolivian Overtures.

DESPITE this, the state department literally ignored representations by the Bolivian government to work out a trade agreement whereby the United States would secure tin not from the South Pacific, but from inside the Western Hemisphere, thus avoiding dangerous shipping hauls, and the danger of foreign controls.

First Bolivian overture to the state department was made by Charge d'Affaires Enrique Lozada in June, 1933, at the suggestion of the Washington Merry-Go-Round. At that time, Acting Secretary of State William Phillips, now ambassador to Rome, turned a deaf ear. He said the United States was not interested.

Then the late Representative Sam McReynolds of Tennessee introduced legislation favoring the importation of crude tin, in order to encourage its smelting in the United States. Whereupon the state department actually intervened to kill the bill, causing its author to protest to his old friend Cordell Hull.

"This memorandum," said McReynolds, referring to the state department's memo opposing the tax on tin, "could have been no more favorable to British interests if it had been written in the British foreign office."

* * *

Opponents of Plan.

BY THAT TIME it had become apparent that the chief opponents of having Bolivian tin smelted in the United States were (1) the British tin monopoly; (2) the Patino tin interests, which were shipping ore all the way from Bolivia to Liverpool, thence back to the United States, in order to enjoy British monopoly price-fixing; and (3) the National Lead company and perhaps also other heavy U. S. users of tin, which seemed to be linked up with the British-Patino interests.

For instance, the late Edward J. Cornish, chairman of National Lead, also was chairman of Patino Mines and Enterprises, while the present chairman of the Patino company, Fletcher W. Rockwell, is also president of National Lead.

Thus big American business appeared to be co-operating with the British-Patino monopoly, despite national defense interests, while the state department appeared to condone that co-operation.

But now, suddenly awakening to the grave danger of the past negligence, several days ago it sought to arrange for space on a clipper plane for Patino to come to the United States. But since his family almost fills one clipper, he is en route by boat.

* * *

Nazis In Bolivia.

MEANWHILE Jesse Jones, in co-operation with the state department, is discussing an RFC loan to set up a tin smelter in the United States, with a possible subsidy of one or two cents a pound on smelted tin. The first company to show an interest was Phelps Dodge, but more recently American Metals, American Smelting and Refining, and National Lead have shown interest.

Meanwhile Hochschild, who has been mining tin in Bolivia for ten years, informed the National Defense Commission that he was ready to do immediate business. But the defense commission, like the state department, bowed to the tin king and said they would wait for Patino's arrival.

Most ominous development has been the recent and sudden activity of Nazi interests in Bolivia to try to block these deals. The Bolivian army, long trained by German officers and leaning heavily toward the Nazis, is doing everything possible to sabotage the negotiations now being conducted by Bolivian Minister Guarchalla in Washington.

Note—Dr. W. Y. Elliott, Harvard expert, comments on the present tin situation: "Today the prospect of Japanese domination of Asia and of German domination of Europe and the whole of its colonies presents this country with an entirely changed strategic situation, desperate in its implications. The securing and processing of these vital strategic materials is no longer an arguable point. It may be a matter of survival itself of the American people."

Man About Manhattan

—By GEORGE TUCKER

NEW YORK—We asked Billy Rose what he thought about the peep-show side of showbusiness, and he became so articulate that we asked him to put all his ideas down on paper and send them over to us. They arrived this morning, by one of Mr. Farley's boys, and they express his view so well that it seems a good idea to pass his note along, as received. Here it is:

"The sheriff has taken over the G-string, and most American sheriffs aren't fiddle players. I mean that nudity as a form of entertainment is now practically bankrupt in this country. 'The female form divine,' as the boys used to call it, has been put out of business not by any blue-nose laws but by the much more drastic and ruthless laws of economics—the laws of supply and demand.

"If there are any dividends left in nakedness or dirt on the stage, they are microscopic. Big dividends are paid only by clean shows. If you want proof, look at burlesque, the sleep-walker of show business. Time was when big burlesque circuits operated from coast to coast, and stripping, accompanied by purple gags, was one of the most prosperous branches of the amusement industry. All that's left now are a few theaters that, at most, gross $5,000 a week—hardly exciting show-shop receipts.

* * *

"THE most convincing evidence of the ill health of burlicue is that it is almost exclusively patronized by a male audience—a crowd of pasty-faced fellows who sneak furtively into the maiden-in-the-raw museums, keep on their hats, spit in the aisles, make assorted weird noises and then sneak out again. If there's one thing I have learned in 20 years on Broadway and in the honky-tonks it is that, in America, the women do the buying, and mama not only buys the sheets for the bed and the meat and vegetables for the soup, but she buys the family's entertainment, too.

"Another proof of the decline of the crass commercial appeal to sex is the failure of peep-shows at the New York World's Fair. In 1939, there were quite a few of those establishments on the midway at Flushing and none of them did well enough to keep a medium-sized bird alive. The Crystal Palace, which had several nudes—and I mean nudes!—played to no business. N. T. G.'s Congress of Beauties, a super peep-show with more than 50 lovely gals in their birthday suits, folded in the middle of the season. An enterprise called "Ecstacy" also made a poor showing and "The Dream of Venus" a peep-show disguised as a surrealist art outburst, put its sponsors into a $50,000 hole. Altogether, a little more than $500,000 was invested on last year's New York midway in structures to house nudie shows that no one came to see.

* * *

"NOW, in the old days, naked-lady emporiums were among the most heavily patronized hoopdas in American fair grounds. What has happened to change the situation? Has the average American come squeamish? Or has he lost a natural and wholesome interest in the opposite sex? Neither, of course, is true. What has happened is that there are no rubes any more. Well, hardly any. The few who survive are the handful of showmen who still imagine that Americans want to shell out a quarter to look at a bandy-legged naked woman."

Daily Bible Thought

They that wait upon the Lord shall renew their strength, they shall mount up with wings as eagles, they shall run and not be weary, they shall walk and not faint.—Isaiah 40:31.

Grab Bag

One-Minute Test.

1. What is a light year?
2. What is the Virginia state flower?
3. Where was Thomas A. Edison born?

Words of Wisdom.

All cruelty springs from hard-heartedness and weakness.—Seneca.

Hints on Etiquette.

If you are uncertain of the amount to tip a waiter, figure 10 per cent of your bill for the tip. A slightly larger tip may be made if there are several persons in the party, requiring more service.

One-Minute Test Answers.

1. The distance light will travel in a year, going at the rate of 186,000 miles per second.
2. The American dogwood.
3. Milan, Ohio.

A Farmer's Diary

Amish Barn-Raising

—By CALVIN A. BYERS

I ENTERED into a long broad cove surrounded by mountains on all sides. A gap between two lofty ranges where a creek had washed and a road was chiseled out of the rock, led into a wide valley with broad cultivated acres.

Dwellings were of stone, with flowing limestone springs, and smaller outbuildings had many times clapboard roofs that told of ancient tastes and workmanship. The scythe and cradle, the handmake rake and flail had been early tools of harvest. Now I saw modern machinery in most fields.

Westward, along a side road, I came upon an Amish barn-raising. It was not a modern picture for 1940. Men who labored lifting heavy legs, and those who balanced the framed trestles on pikes were long full beards that rippled in the wind. The upper lip was clean shaven, but the hair hung to the shoulders.

Upon the topmost scaffold I saw a young man of not more than 26, guiding with precision the tendon of a cross beam into its narrow mortice. When it was joined he inserted a wooden pin into holes made beforehand, and drove it home with his hammer. He climbed gracefully and with a purpose. He knew his job.

Then I noticed a comely Amish maid of about eighteen dressed in what looked almost like homespun. Her hair was raven black and loose lace cap adorned it like a crown. Her cheeks were flushed and pink. She watched the dashing figure high upon the beams with parted lips, and smiled her admiration as he turned about.

I knew he caught the look from the tail of his eye, although he did not seem to, for he was shy and did not want his fellow workers to guess the secret of his energy and force this day. But I, a stranger read the glances of two thrifty Amish young folk of Big Valley and pieced together the love story of the ages.

ITALIANS TOLD ZERO HOUR NOT READY AS YET

Gayda Declares Wearing-Down Tactics Expected In War Against British.

(Continued From Page 1)

Observers were unable to determine whether reports from German, Italian, French and other sources of widespread troop activity was just another instance of the "nerves" war, or whether Gayda's statements were intended to conceal a coming attack.

Postal, telegraph and telephone communication between German-occupied and unoccupied France, and within the occupied zone, was suspended today, a possible preliminary to the order to attack.

Italian troops and planes were reported ready along the North sea and English channel to participate.

Italians in Switzerland confirmed diplomatic reports that Adolf Hitler had granted a specific request from Benito Mussolini that his Fascist troops be permitted to share in the attempt to invade Britain.

The fuehrer agreed, the reports said, after a conference with his military staff, although he limited Italian army participation to "token" land and parachute troops.

In the matter of planes, however, Hitler asked for many squadrons, and these have been flown to bases in the German-occupied sections of France along the Bay of Biscay and in Brittany, loaded with Italian parachute troops trained by the Germans.

Other land units, composed of troops who have seen service in Ethiopia and Spain and drawn from eastern Italian garrisons, have been sent through the Brenner Pass to North sea channel ports farther north.

Italian sources like the German, reported the long-planned big offensive against England was "imminent." Nevertheless many foreign observers believed the Axis partners might only be turning on their familiar terror machine full blast and that the attempted invasion, if it comes, still may be several weeks away.

Those who believed the reports that the apparent last-minute preparations were the real thing pointed out to improving weather all over western Europe, presaging ideal August conditions for an air offensive.

The Italian reports said Premier Mussolini was convinced the combined air power of the Axis would win an easy victory over Britain and was anxious to have the Italian colors side by side with his German ally.

There were indications, too, that Spain might join in the "all out" offensive.

German and Italian travellers from Spain said Generalissimo Francisco Franco's government appeared to be preparing to try to capture Gibraltar, famed fortress rock guarding the western entrance to the Mediterranean, long coveted by Spain. Spain and Britain are not yet at war, however.

Troops in small boats carrying artillery were reported concentrated near La Linea, Spanish port just behind Gibraltar, and reports from France said Italy was concentrating bombing planes at her Sardinian bases for an air attack against the "Rock."

Such an attack presumably would be co-ordinated with a big smash against England. Isolated attacks against the historic stronghold have been occurring regularly. Five persons were reported killed and 15 wounded in a raid on Gibraltar by enemy bombers—presumably Italian—yesterday afternoon.

Italy was reported to have completed the task of moving many of her "pocket" submarines by rail through the Brenner Pass into Germany. These 36-foot craft were shipped in sections on flat cars, and presumably would be important as a protecting arm in any German onslaught against Britain.

Germany last night closed all rail and road frontier posts on the Swiss frontier except one, apparently to keep secret troop movements through southern Germany.

Rail traffic between the occupied and unoccupied sections of France definitely has been stopped, the French government announced, despite German denials.

Fight Off Attack On British Convoy

LONDON—(AP) German planes attacked shipping off the southeast coast of England today, continuing blows they have been delivering in this region almost incessantly for the past three days.

Strong forces of British Spitfire and Hurricane fighters rose at once to meet the attack and some of the German planes returned across the channel.

The explosion of bombs could be heard inland.

The government today renewed warnings to civilians to carry their gas masks with them.

Minister of Home Security Sir John Anderson in a broadcast cited the possibility that liquid gas might be sprayed from the air in enemy raids.

The government announced that enemy bombers "dropped a few bombs" in southeast and southwest England in South Wales during the night, with "little damage" done and no casualties.

The attack on Wales was the third successive night assault in that area. Some bombs fell into the sea, others ashore.

German dive bombers and British warships convoying merchant ships battled for 15 minutes off the southeast coast of Scotland, with thousands lining the shore to watch. The convoy apparently escaped damage.

Russia Expected to Ask Dardanelles

BUDAPEST—(INS)—Soviet Russia is expected to demand control of the Dardanelles from Turkey the moment Germany begins its projected attack on Great Britain, according to a report reaching Budapest today.

Despite the fact that Turkey already has mobilized about 1,000,000 troops, it was expected that she will comply with the Russian demands, the report said.

Meanwhile, an Iranian (Persian) delegation was in Moscow for a series of important negotiations with Soviet officials. Russian desires to obtain use of all Iranian railroad lines.

Rumania Puts Trust In Axis

BUCHAREST, Rumania—(U.P.)—Rumania's adherence to the German-Italian "axis" was regarded in diplomatic quarters today as assured after a statement by Foreign Minister Mihail Manoilescu that the country's peace and economic situation were now guaranteed by Germany and Italy and that those powers would become Rumania's best customers.

Addressing a press conference after a cabinet meeting last night, Manoilescu said that Rumania wanted to collaborate with Hungary and Bulgaria and to exchange minority populations with them. Referring indirectly to Russia's seizure of Bessarabia and northern Bukovina, he said that Rumania had suffered this blow at a moment when it was unprepared but that "Rumania knows how to defend herself and will do so if necessary."

On the question of territorial confessions, Manoilescu said that Rumania was willing to discuss an exchange of territories with its neighbors but that Rumanian territory should always be occupied by Rumanians."

It was reported that Hungary, outlining its territorial claims against Rumania to Germany and Italy, claimed more than half the great province of Transylvania. The Hungarian claim would be the starting point for any negotiations. It was understood to include all Transylvania north of the river Muresul. In it are more than a dozen major towns and several scores of smaller communities. It was undestood that Rumania would not concede this claim, and that if Hungary insisted on it arbitration by Germany and Italy might be necessary.

UP TO WOMEN

BATAVIA, O.—(AP)—Mayor Harold H. Burton of Cleveland, Republican nominee for U. S. senator, believes that women have "a great opportunity . . . in the coming election" to upset President Roosevelt's third term bid. He said so at a meeting of Clermont county Republican women in nearby Chilo yesterday.

WAR TRIALS SET

VICHY—(U.P.)—Trials designed to establish war guilt of prominent French military and political personages today were set tentatively for the second fortnight in August.

FUGITIVES HELD

OKLAHOMA CITY—(AP)—Two confessed fugitives from the Ohio boys industrial school in Lancaster, Joe Miller and Samuel Carr, were held by police today on charges of burglary and auto theft.

Centenarian Minister In Bed-Side Baptismal

Rev. D. B. "Daddy" Millar, 100 years old, sat up in his bed yesterday long enough to baptize Judith Kay, four-month-old daughter of Mr. and Mrs. Kenneth McLaughlin, 535 Bowman street, yesterday. Mrs. McLaughlin is shown with the baby and the centenarian minister.

NEW VACCINE

Pneumonia Preventive Revealed By Federal Official.

WASHINGTON—(INS)—Development of a new pneumonia preventive was revealed today by CCC Director James J. McEntee. He reported that approximately 115,000 enrollees voluntarily were treated with the vaccine, developed by Dr. Lloyd C. Felton, formerly of Johns Hopkins university and now with the U. S. public health service.

"The results," McEntee stated, "indicate that the vaccine has definite value as a preventive of pneumonia."

EIGHT KILLED

New England Storm Causes Damage of $1,500,000.

BOSTON—(U.P.)—New England calculated a mounting death toll and widespread property damage today after the area's worst storm since the devastating 1938 hurricane.

At least eight persons were dead and the property damage was estimated at $1,500,000.

Many homes were struck by lightning bolts, industrial plants were damaged, fires were started, roofs blown away and trees uprooted during a violent, 15-minute storm which struck the area last night.

HITS POWER LINE

GREENBELT, Md.—(AP)—A newly acquired plane carried James Masters of Springfield, O., to his death here. The ship struck a high tension wire, threw Masters clear but dragged the wire down upon him, causing his electrocution yesterday. A passenger was cut and bruised.

COOL BREEZES RELIEVE CITY

Temperature Goes Down as Wind Blows In Cool Air From Lakes Region.

(Continued From Page 1)

103 deaths attributed to the sweltering weather in the past 12 days, the Associated Press reported. There were 17 fatalities yesterday. The nation's toll from the heat had mounted to 656 today.

Columbus thermometers registered 120 degrees on some of the city's streets yesterday, and traffic policemen were instructed to look for shady spots if the heat threatened to make them ill.

In southern Ohio where crops are threatened by drought, game wardens and sportsmen formed rescue squads to remove fish from streams drying up due to lack of rain.

Peak temperature readings throughout the nation yesterday included 107 at Waynoka, Okla.; 105 at Topeka, Kans., and 102.9 at Indianapolis.

Violent thunderstorms struck sections of New England, causing a number of fires. High winds flattened trees and disrupted communication lines. After climbing to 94.3 degrees in New York City, the mercury toppled to 82 after a thunderstorm last night.

The price of milk in Cleveland will go up one cent a quart Thursday because of a shortage blamed on the heat.

SOUND SLEEPER GIVEN LULLABY

Lightning Wrecks House as Pete Slumbers On.

DANNEBROG, Neb.—(AP)—Pete Sondergard, bachelor farmer, is a fellow who sleeps soundly, but—

A bolt of lightning shot down his chimney, demolished a section of the roof, tore away three sides of his house and caused the bed in which he was leeping to bounce four feet away from the wall.

Pete stepped out of bed, unharmed.

EX-OFFICIAL DIES

LORAIN—(AP)—William E. B. Notley, 80, council president at nearby Elyria until his resignation last Jan. 31, died here last night. An Elyria resident 66 years, he moved to Lorain last winter.

M'GREGOR JOINS OPPONENTS OF MILITARY BILL

Calls Burke-Wadsworth Plan 'First Step In Goose Step' As He Flays Plan.

(Continued From Page 1)

in regard to the bill. In some cases, the poll showed, the letters are running as high as 20 to 1 against the measure. Some members thought they saw evidence of artificial stimulation.

Most of the Ohioans opposed to the bill contended the army had not given voluntary enlistments an adequate trial. They suggested raising the base army pay and shortening the enlistment period from three years to one.

Several said they would support conscription if the voluntary system failed.

Rep. Robert T. Secrest, D., Caldwell, said he will introduce a bill today reducing the enlistment period to one year and raising the pay from $21 to $30 a month to make it equal to wages paid Civilian Conservation corps enrollees.

"I'm confident such a plan would produce a million volunteers," Secrest said. "If it does not, then it's time to try conscription."

Sen. Vic Donahey, Democrat, declined to commit himself but close friends said he was leaning toward the opposition.

Rep. Harter, member of the house military affairs committee, said he regarded conscription as the fairest method for defense training. He predicted the opposition would melt "when the public understands the situation."

Rep. Clarence J. Brown, R., Blanchester: "I haven't decided yet."

Rep. Frederick C. Smith, R., Marion: "The bill would force American people to give up one of their most cherished traditions and yield to an alien system of military regimentation. It would push us into war, adopt the Hitler plan for ending unemployment, wreck our finances still further and be the final factor in creating a dictatorship."

Rep. James Seccombe, R., Canton: "The bill would be an invasion of our personal liberties in peace-time. I favor an adequate defense but conscription is unnecessary now and would be damaging because it would take men needed in industry."

Rep. Harry N. Routzohn, R., Dayton: "I'm still studying the bill. My mail is almost unanimously opposed to the bill."

Rep. Cliff Clevenger, R., Bryan: "I'm not convinced a draft is needed now. I've been getting sentiment at home for two weeks and find most thinking people are opposed to conscription. We should concentrate on bringing in volunteers for a moderate army as rapidly as we can produce training facilities."

Rep. Earl R. Lewis, R., St. Clairsville: "The bill will have to be amended before it satisfies me. More pay and shorter enlistment periods might be the answer."

Rep. Dudley A. White, R., Norwalk; and Robert F. Jones, R., Lima, were out of the city.

NYA EMPLOYES GET PAY CUT

SHELBY—Longer hours on a lower hourly wage scale will go into effect for NYA employes here next month, city officials disclosed today.

A communication from NYA officials at Columbus received today by city officials disclosed that the NYA labor would be put on a 70-hour a month schedule, with the pay to average about 26 cents an hour. At present NYA youths work some 50 hours on 33-cent an hour pay scale.

BANS EXPORT OF AVIATION FUEL

Roosevelt Closes U. S. Sources To All But Nations of Western Hemisphere.

(Continued From Page 1)

barred from access to supplies of aviation fuel in this country.

Britain, Italy and Germany have been obtaining most of their aviation fuel from other sources. Japan, however, has been a substantial purchaser of the American product.

Today's action was announced by White House Secretary Stephen T. Early.

The announcement said:

"In the interests of the national defense the export of aviation gasoline is being limited to nations of the western hemisphere, except where such gasoline is required elsewhere for the operations of American-owned companies."

That single exception will permit such companies as Pan-American Airways to transport United States aviation gasoline to their terminals outside this hemisphere for their trans-Atlantic and trans-Pacific services.

The earlier proclamation placing aviation gasoline and scrap metal under export control becomes effective tomorrow, Aug. 1, together with today's order.

THREATS MADE OF LAND GRAB

Britain Not Alarmed Over Reported Menace to Empire Points.

(Continued From Page 1)

Gibraltar. There has been mounting evidence recently that Spain may throw in her lot with the Nazi-Facist combination and strike with Italy against Gibraltar.

Madrid newspapers for the past week have been harping upon Spain's claims to the rock which guards the entrance to the Mediterranean.

(Editor's Note: The Fascist newspaper Arriba in Madrid today vigorously criticized certain "large and wealthy countries" which allegedly have delayed Spain's recovery. The attack was believed directed at the United States for the presidential embargo on oil shipments, but against England as well.)

Spanish-Italian seizure of Gibraltar and provocative action by Japan in the Far East—possibly against Hong Kong—would completely disrupt the normal procedure of the British empire.

Spokesmen for Britain took advantage of the tide of pessimistic reports to warn the United States about "what happens when her turn comes if England falls."

Once again they reiterated the thesis that adequate American aid to Britain will guarantee continued existence of the democracies on both sides of the Atlantic.

SPEED RELIEF

300 Persons Reported Killed By Turkish Quake.

ANKARA, Turkey—(AP)—Government agencies speeded relief today to earthquake-stricken areas in the central Anatolian plateau, where 300 persons were reported killed and hundreds injured yesterday by heavy temblors which destroyed 12 villages.

The affected region centered around Yozgad, 200 miles east of Ankara.

Last fall earthquakes took approximately 40,000 lives in Anatolia and in the region further east. Thousands, left homeless, died in bitter cold weather.

ELECTROCUTED

PORTSMOUTH—(AP)—Touching a cable carrying 2,300 volts, Lineman G. C. Smith, 51, was electrocuted in the Wheeling Steel corporation plant here while at work yesterday. He lived in nearby Minford.

EDICT WEAKENS STRIKE FORCE IN PHILIPPINES

Manila Court Says Walkout Unconstitutional; Rules Against Labor.

MANILA —(U.P.)— The Supreme Court of the Philippines has handed down a decision declaring the strike an economic weapon at war with the constitution and that laborers who resort to strikes must suffer the consequences.

The decision, which is expected to have a far-reaching effect on labor-capital relations, was handed down in the case of laborers of the Philippine Match Factory, who struck Sept. 29, 1939, and who subsequently were refused reemployment by the company. The case reached the high court when the National Labor Union asked for a review of a Court of Industrial Relations resolution refusing to reinstate the laborers.

Penned by Justice Manuel V. Moran, the decision pointed out that the purpose of the constitution in dealing with all industrial disputes "rests upon the obvious policy of supplying lawful and pacific methods to laborers and employers in the vindication of their legitimate rights and the corresponding avoidance of a resort to strike."

Aim To Forestall Strikes.

The decision further pointed out that the Court of Industrial Relations was created to supply an adequate "instrumentality to forestall strikes."

"While the law recognizes in a negative way the laborer's right to strike, it also creates all the means by which a resort thereto may be avoided . . . because a strike is a remedy essentially coercive in character and general in its disturbing effects upon the social order and the public interests," the decision said.

Holding that the strike "is an economic weapon at war with the policy of the constitution and the law," the high court declared that "a resort thereto by laborers shall be deemed a choice of a remedy peculiarly their own, and outside of the statute, and, as such, they must accept all the risks attendant upon their choice. If they succeed and the employer succumbs, the law will not stand in their way in the enjoyment of the lawful fruits of their victory. But if they fail, they cannot thereafter invoke the protection of the law from the consequences of their conduct unless the right they wished vindicated is one which the law will, by all means, protect and enforce."

Foreman's Ouster Demanded.

Briefly, the facts of the case on which the decision was handed down were:

On Aug. 31, 1939, the National Labor Union demanded of the Philippine Match Factory the dismissal of the general foreman, Pablo Pabalan.

The management asked the union to specify charges against Pabalan; the union brought four charges, which were found without merit.

Pabalan was charged with assault, and while the city prosecuting attorney's office was investigating the case, the laborers walked out.

The strike was referred to the Court of Industrial Relations for arbitration. While the case was pending, the laborers sought to be readmitted, but the management refused to take action until the case was settled.

First Court Move Lost.

The strikers then sought from the Court of Industrial Relations an order for their reinstatement, which was denied.

The high court ruled that judged from the facts of the case, the strike was "clearly unjustified." The decision pointed out that the factory management accorded due attention to the union's petition for the dismissal of the general foreman.

The high court remarked that to compel the company to readmit the laborers under the circumstances would be "to lend countenance to what the constitution and the law seek to avoid, and give protection to those who, by their conduct, have forfeited their rights thereto."

The high court added, however, that strikes are not outlawed, although they are by all means discouraged.

Cool Off With New Mansfield-Made Spray

Here are three Mansfield women cooling off with the children under the spray of a new sprinkling device manufactured by the Barnes Manufacturing company. The sprinkler is a 6-foot pipe fastened to an 8-inch spike which is driven into the ground. At the top of the pipe is a spray nozzle which casts a fine spray of water over 10-foot circle. Left to right, they are, Mrs. H. M. Rosenthal, Mrs. J. A. Mintz and Mrs. C. L. Frederick running through the spray from the "Shower-O-Fun" with Ivor Lee Balyeat, two and a half-year-old son of Mr. and Mrs. Ivor A. Balyeat, 110 Blymyer street.

Loudonville

BRIEFS

Mr. and Mrs. Harry Gray and children Harry and Shirley Ann, Mrs. Joseph Smith and daughters Jane and Dena of Dallas, Tex., visited in the W. L. Balliett home recently.

* * *

Mrs. Elmer Fisher is visiting at the home of her brother Maurice Fribley who is seriously ill at his home in Mt. Vernon.

* * *

Mr. and Mrs. E. J. Evans and family of Mansfield, visited Sunday with her parents, Mr. and Mrs. Thomas Russell.

* * *

Miss Mary Margaret Parker of Canton, spent the week-end here with relatives.

* * *

Members of the Catholic Youth Forum and Choral club and 3d assistant priest of Canton and Orrville, enjoyed a picnic dinner and supper at State Park Sunday.

BLOOD DONORS

LANSDOWNE, Pa.—(U.P.)—In honor of the late Fire Chief Walter L. Fraim who never overlooked a call as a blood donor by persons unable to pay professional donors, the local fire department has organized the Walter L. Fraim Blood Donor's Association to carry on his work.

Willard

BRIEFS

Richard, son of Mr. and Mrs. Alfred James of Shiloh, underwent a tonsilectomy at Municipal hospital Monday.

* * *

Delores, six-month-old daughter of Mr. and Mrs. Walter Riley who has been ill at the home of her parents, has been admitted to the hospital for care.

* * *

Mr. and Mrs. Stanley Adams are the parents of a son born at their home at Centerton Saturday.

DO YOU SMOKE THE CIGARETTE THAT SATISFIES

CHESTERFIELD GIVES YOU A

Cooler

POLEY McCLINTOCK and DONNA DAE are two of the busiest stars on Fred Waring's Chesterfield PLEASURE TIME broadcasts.

BETTER-TASTING DEFINITELY MILDER SMOKE

The one aim of Chesterfield is to give you more smoking pleasure. And no cigarette gives smokers such complete smoking enjoyment as you get from Chesterfield, with its Definitely Milder, Cooler, Better Taste.

The best cigarette tobaccos that grow in Tobaccoland, U.S.A. and in far-away Turkey and Greece are combined right in Chesterfield to give smokers everything they could ask for. If you want real smoking satisfaction ... make your next pack Chesterfield.

BETTER MADE FOR BETTER SMOKING

Every Chesterfield must conform to the one right standard of size and shape for a cooler, better-tasting, definitely milder smoke. Chesterfields are made right in every detail to give you the cigarette that really satisfies. (As seen in the new film "TOBACCOLAND, U.S.A.")

PROJECT MAKES OVER WESTERN RIVER COURSE

Sacramento Channel to Be Sent In 2 Diversions By Giant Dam.

REDDING, Cal.—(U.P.)—The second largest masonry dam in the world is slowly rising from the bottom of the Sacramento river canyon after 22 months of excavation work at the site of Shasta dam.

Pouring of concrete on Shasta dam started only a few weeks before the scheduled beginning of actual construction on Friant dam, fourth largest concrete dam in the world. Both structures are key units in the Central Valley project of California.

Shasta dam will be 560 feet high, 3,500 feet long at the crest, 500 feet thick at the base and 45 feet at the top. Its mass will be one and one-third times as large as Boulder dam, exceeded only by Grand Coulee dam in Washington.

Cable Conveyance Used.

Pouring of the first concrete to fill a row of 50-foot square blocks in the base of the dam followed completion of a vast cableway system around a 460-foot high steel headtower. The top of the tower is 760 feet above the Sacramento river and supports seven huge cables, upon which the four-yard concrete buckets skim back and forth from mixer to forms.

Trainloads of cement were stored in huge silos and thousands of tons of sand and gravel were carried on a 10-mile long conveyor belt before the work of building the dam was started. The conveyor belt is the longest in the world and traverses mountains and valleys en route to the dam site.

So large is the hole to be filled with concrete that the completed mass would build a monument the size of a city block and higher than the Empire State building in New York. A lake 35 miles will be backed up behind the dam.

During the next 18 months, the Sacramento river will be shifted twice, first into a man-made channel to permit cleaning of the original channel, and second into huge diversion tunnels which will be used for railroad tunnels when the dam is finished.

The $170,000,000 Central Valley project will provide electrical energy, storage of Sacramento and San Joaquin river waters, and the stabilization and distribution of water for flood control, navigation, municipal and domestic water and irrigation.

The deadly climate of Sierra Leone, Guinea coast settlement founded originally in 1788 for freed slaves, has made the area known as the "white man's grave."

EATING HELPS

Official Says Greater Vegetable Consumption Would Aid Farmer.

LOS ANGELES—(AP)—More attention to "seasonal surpluses" of vegetables will help the farmer and the nation's general food situation, says J. H. Holland, representative of the federal Surplus Commodities Corporation. Holland appealed to the public to buy vegetables when they are plentiful.

The world is full of would-be-leaders who couldn't even follow successfully.

SOVIET USES RAIN MACHINE

Experiments Carried Out In Black Soil Zone Show Irrigation Means.

MOSCOW — (INS)— Experiments with artificial rain, carried out in the black soil zone of the U. S. S. R., have demonstrated that this means of irrigation considerably raises the yield of grain crops and vegetables, according to Tass, official Soviet news agency. The Moscow Institute of Hydraulics and Reclamation has designed three rain machines.

The apparatus, designed by the engineer M. Vanshin, consists of light metal tubes and is mounted on a caterpillar Diesel tractor. It may be used for the irrigation of all crops.

A "short-stream rain installation" has ben constructed for use on small farms. It can be used in kitchen-gardens, as well as fruit-tree and berry nurseries.

For irrigation of large kitchen-gardens and fields, "long-stream installation," consisting of a pump which is mounted on a tractor, a light portable pipe-line with specially designed joints and a "rain apparatus," has been developed.

The application of rain machines in the collective farm "Komsomoletz" (Saratov Region) is said to leave increased the yield of spring wheat by more than three times, as compared with unirrigated fields.

In the State farm named after Stalin (Voronezh region) the crop of sugar-beet, on the irrigated fields, was three and a half times as large as that on the unirrigated ones.

In the collective farm "Ovoshchnoi Gigant" (Moscow region) the crop of cucumbers grew fivefold thanks to the artificial rains.

Actually there are over 100 powerful rain installations in the U. S. S. R. Mass production of these machines is being arranged, said Tass.

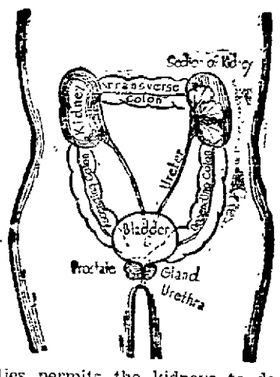
WONDER MEDICINE

BEE BEE'S DIURETIC

Just Arrived For Prostate and Urinary Troubles

(A MEDICINE FOR MEN, WOMEN AND CHILDREN)

The Most Scientific Medicine For Relieving Stoppage and Too Frequent Urination. Inflammation of the Bladder and Prostate Gland, Sharp Pains in the Back, Dizziness, Cramps, Gravel or Stones, Plus Acidity and Nervousness.



SYMPTOMS OF KIDNEY DISORDERS—A dully, achy feeling across the back, sharp pains over the kidneys, stiffness in the back and lower limbs, especially after rising, prostate troubles, frequent rising during the night, dizziness, spots before the eyes, swelling of ankles, feet and lower limbs, puffs or dark circles beneath the eyes, lack of vitality and rheumatic afflictions.

WHAT BEE BEES WILL DO —This treatment aids nature by its diuretic action upon the kidneys flushing out quantities of impurities that may have become dammed up inside. Cleansing out the impurities permits the kidneys to do their work more properly, often giving complete relief from bladder irritations, weakness and prostate gland inflammation, nightly rising and other miseries described above, miseries so often common among men and women past 40. THERE IS NOTHING LIKE BEE BEES. Get a bottle now and watch results. Sold at

KISS YOUR TIRED FEELING GOODBYE!
Pepless Many Suffer Low Blood Count—And Don't Know It.
The baffling thing about low blood count is that you can weigh about as much as you ever did—even look healthy and strong, yet—you can feel as if you had lead in your legs, dopey, tired and pepless.
Low blood count means you haven't got enough red blood corpuscles. It is their vital job to carry life-giving oxygen from your lungs throughout your body. And just as it takes oxygen to explode gasoline in your car and make the power to turn the wheels so you must have plenty of oxygen to explode the energy in your body and give you going power.
Get Dr. Williams Pink Pills today. They are world-famous for the help they give in increasing the number and strength of red corpuscles. Then with your blood count up, you'll feel like bounding up the stairs as if you were floating on air. Ask your druggist for Dr. Williams Pink Pills today.

Emphasis On Home-School Cooperation

By GARRY CLEVELAND MYERS Ph. D.

AT THE ANNUAL convention of the Association for Childhood Education, recently, at Milwaukee, there was great emphasis on the home and family. At this convention a daily conference, largely attended, was conducted on school-home cooperation. In this conference, hundreds of leaders in kindergarten-primary education sought light and exchanged suggestions on ways by which the school might better win the home's cooperation.

The most important emphasis at this conference, as I saw it, was the very general recognition that the school can learn much from the home and that if the school is to make its best contribution it will have to learn more and more from parents.

It is significant, moreover, that the convention put more emphasis on home and family life and ways and means for parent education than did the National P. T. A. convention the following week at Omaha. I attended both conventions. And yet the P. T. A. was founded for the purpose of furthering better parenthood. Let us hope it never strays from this major purpose.

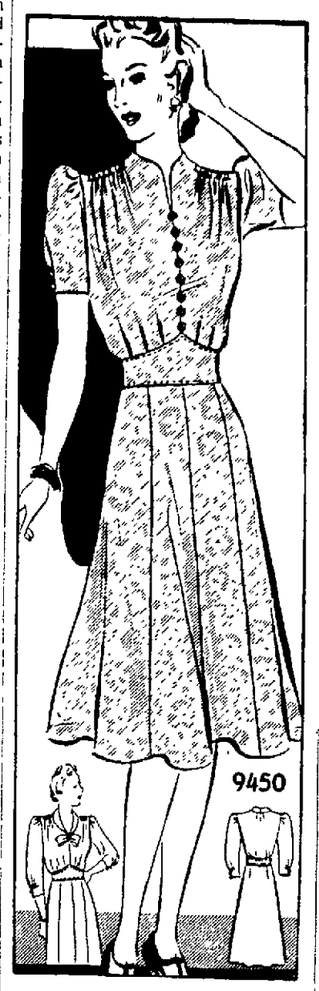
Mother's Room.

At a third national convention, that of the American Library Association, which met in Cincinnati, I observed a strong emphasis on the home and family, there being a section devoted to this purpose. It was my privilege to speak before this section on "The Mother's Room of the Youngstown Public Library as seen by a Psychologist." Judging from the manifest interest in the conference and from the numerous columns, editorials and magazine articles concerning the Mother's Room, the first of its kind in the world, I concluded that this project has helped greatly to stimulate libraries in our country and abroad to a growing interest in widening library service for parents.

As in the Milwaukee conference, so in this conference of library leaders, there was a marked humility in the attitude toward parents and their needs. Mrs. Caroline S. Hughes, of the library of Washington, D. C., for example, insisted that in choosing books for parents the library needed the aid of representative parents and of parent groups. What books parents think they need was emphasized. Humility is the beginning of wisdom.

You may have a selected list of books and pamphlets for parents by writing me at 235 East 45th Street, New York City, enclosing a self-addressed envelope with a three-cent stamp on it.

High Style Fashions, Fancy Work



By MARIAN MARTIN

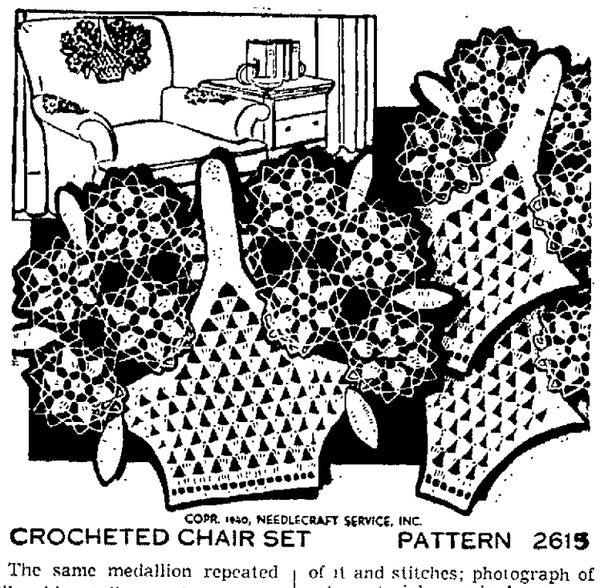
A wise lady-on-a-budget chooses her mid-summer frocks with an eye to the new season. Pattern 9450 is a Marian Martin dress that will carry you right into Winter.

Pattern 9450 may be ordered only in women's sizes 34, 36, 38, 40, 42, 44, 46 and 48. Size 36 requires 3⅛ yards 39 inch fabric.

Send Fifteen cents in coins for this Marian Martin pattern. Be sure to write plainly your Size, Name, Address and Style Number.

Send your order to The Mansfield News-Journal, Pattern Department, 232 W. 18th St., New York, N. Y.

The mattress is mentioned as far back as the third century B. C. Vegetable fibers and feathers were the earliest filling materials.



COPR. 1940, NEEDLECRAFT SERVICE, INC.

CROCHETED CHAIR SET PATTERN 2615

The same medallion repeated fills this easily crocheted basket. It's pleasant summer work so start crocheting it now for your own chairs or as a donation for a bazaar. Pattern 2615 contains directions; illustrations of it and stitches; photograph of set; materials required.

Send ten cents in coin for this pattern to The Mansfield News-Journal, Needlecraft Dept., 82 Eighth Avenue, New York, N. Y. Write plainly Pattern Number, your Name and Address.

Marriage Meddlers

By ADELE GARRISON

Continuation of "Married Comrades"

"I shall be very glad to look at the markings I made upon the emeralds," Queen Olga told my father, "although it really isn't necessary. As a whole, it looks exactly as it did when I last saw it. I don't think it has been touched except to place it in this box."

"I agree with you," my father said. "Nevertheless, I should like your identification of each emerald in the necklace. If you also will verify the number, I shall be grateful."

"I will do both at once," Olga said promptly, and bent to her task, while we all watched her, fascinated. When she finally laid the necklace down and lifted her eyes to my father's, I for one, was quite breathless.

"Every mark tallies, as does the number. It is my necklace, intact. And—I—do not know your laws—is it mine, to do with as I wish?"

"Eventually it will be," my father said, "but there will be certain custom formalities, perhaps some tax, before it can be formally restored to you. However, I think I can say that I am in a position to facilitate matters—" he permitted himself a slight smile—"so that its return to you will not be too long delayed. But, for the present, I am afraid I shall have to take charge of it. I can assure you it will be as safe as it is possible under present conditions. I do not dare send it away from here, because I cannot spare the men to guard it properly on a trip to a suitable safety-deposit vault in the city. But I have a safe here, a specially constructed one for the guarding of most important codes and other documents. It is fire proof, so no matter if the house should burn down, the jewels would still be safe."

"Dear Mr. Spencer," she said. "Whenever it is perfectly safe for you to bring me back the jewels, I shall be glad and grateful to receive them. Until then, I am not only content but anxious to leave them in your keeping."

She closed the box upon the scintillating jewels and held it out to him with a charming gesture. He bowed with formal courtesy, and took the box from her. Then he walked to the table and set the box upon it.

"I shall lock it away shortly," he said. "Now, one thing more. I want you to know that just as soon as it is humanly possible, I shall release you from your promise to keep the return of these jewels a secret from your daughter and from Philip Veritzen. I know that you must be extremely a..xious to share your knowledge with them, and I regret—"

Queen Olga interrupted him, something almost never done. With her hand flung upward in protest, she spoke rapidly, emphatically.

"Please! do not regret anything!" she pleaded. "I do not deny I should like to share my knowledge with my daughter and with Philip" — she spoke her fiance's name regally yet naturally—"but—I hope I am a sensible woman, and—I well know how to wait. Please do not consider me in the least when you have such momentous business on hand."

"You are very understanding," he said, and then his manner changed.

"Margaret, will you please take Her Majesty back to her rooms?" he asked. "While you are there, make sure that the bars on the windows are tightly in place. Then supplement the window curtains with blankets and draperies. There must be no single gleam of light anywhere. And your Majesty, I must ask that neither you nor your daughter leave your suite again until this crisis is over, unless you are summoned to meals or to my suite here."

She bowed her head in acquiescence.

"You may be sure we shall follow your orders exactly," she said.

"Good!" he answered. "Margaret, when you have finished, please come back here. And—your Majesty, please lock and bar your door behind my daughter, and do not open it again unless you are very sure of the person seeking admittance."

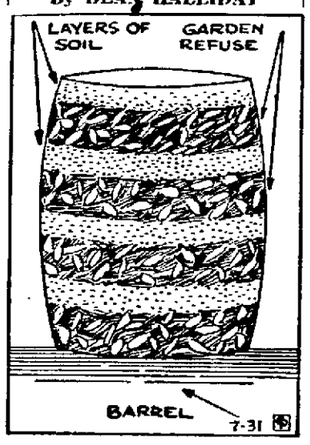
Garden Graph

By DEAN HALLIDAY



Convenient and Concealed Compost Pile.

The gardener always has uses for soil from a good compost pile. Many gardeners consider such piles unsightly and do not maintain one despite the fact that it is an economical method of obtaining true humus.

One can, however, have a compost pile that is both convenient and concealed by the simple method of keeping it in a barrel, as shown in today's Garden-Graph. When a tight barrel or open-headed drum is used for this purpose, holes should be punched in the bottom for drainage.

Old weeds which have not formed seeds, grass clippings, vegetable tops, raked leaves, plant tops, sods, hay, straw and manure can be used for a compost pile in a barrel. The method is simple: first a layer of garden refuse, then a layer of soil, as illustrated. Wood ashes or a few handsful of lime can be added from time to time.

Forking over a compost pile two or more times a year and wetting it down well in hot weather aids decomposition.

Ridding Scalp Of Loose Dandruff

By MME. QUI VIVE

It is not definitely known whether or not dandruff will cause loss of hair. Even if it doesn't, it is loathesome and untidy, and the perfect tenement for bacateria. Only recently was it discovered that it is a fungus growth, like yeast. Stubborn cases hang on for years, sometimes develop into seborrhic eczema.

It is vitally important that hair and scalp be kept scrupulously clean. The soap used for the shampoo must be bland. Men suffer from dandruff more than women; few of them wash their ambrosial locks properly. They rub the bar of soap over their noble heads, stand under the shower. Many times scalp and hair are smeared with soap scum that sticks like glue. Even the blandest soap should not remain upon the skin as it may set up an irritation.

Hair specialists claim that the reason women don't get bald or have dandruff is because they give their tresses better care than men do. Also, they eat more fruits and vegetables, supplying skin and silky shafts with the nutriment they need for well-being. Many a wife bawls out a bald-headed husband who makes a dinner of meat, potatoes and sweets, never touches vegetables or salads. The men pay and pay and pay — for treatments and hair tonics.

Olive or mineral oil applied hot to the scalp the night before the shampoo loosens the epidermal scales, which should never be disturbed with the fingernails or comb. To dislodge these flakes forcibly is to take a chance of causing an abrasion into which germs may creep. There is a disease known as "habit rash," an irritation caused by needless tussing with the scalp.

Sunlight has a favorable effect upon dandruff. If you are among the afflicted, sit in the sunshine, lift your locks so that the warm air will penetrate to the scalp. Brushing is recommended because it tugs at the hair roots, stimulates the tiny blood vessels that bring nourishment to the shafts.

Dandruff is contagious and for that reason one should be fastidious about combs and brushes which should be washed at least once a week. When visiting a beauty shop keep your eye peeled when the combs and brushes are brought out. If they don't look as they should, make a protest.

BARCLAY ON BRIDGE

By Shepard Barclay

"The Authority on Authorities"

MAKE ONLY ONE GUESS

SUPPOSE you are playing a hand which contains no absolutely airtight play for the contract, but a couple of suits in which you have such opportunities as finesses or tries for a particular division of the outstanding cards. In brief, a hand on which you must guess right at some point, with nothing but the probabilities and your own intuition or hunches to guide you. Would you rather select a method that necessitates your guessing right twice or one in which a single correst guess will bring success?

	♠ A 4 ♥ A J 8 ♦ K 4 2 ♣ A K J 10 6	
♠ K 10 9 5 ♥ K 5 3 ♦ Q 9 5 ♣ 7 6 2	N. W. E. S.	♠ J 8 7 3 2 ♥ 9 7 4 ♦ 8 ♣ 9 8 4 3
	♠ Q 6 ♥ Q 10 6 2 ♦ A J 10 7 6 3 ♣ Q	

(Dealer: North. Neither side vulnerable.)

North	East	South	West
1 ♣	Pass	1 ♦	Pass
3 ♣	Pass	3 NT	Pass
4 NT	Pass	5 ♦	Pass
7 NT	Pass	Pass	Dbl

South's 5-Diamonds showed one ace in response to North's conventional ace-asking bid, so North could hardly be blamed for his great leap. A little clear thinking should have made South's contract for him, after West's double and lead of the club 7 to the Q, but he fumbled it.

Logical planning would have sought five tricks in clubs, six in diamonds and the two major aces, since that would have required only guessing one spot correctly—the diamond suit. West would hardly have doubled on kings in the major suits, when two long minors had been shown; he must have one of the long suits stopped, or at least thought so. Since it was clear he could have nothing in clubs, he must have the diamond Q twice guarded. Finessing toward the K would have made the contract.

But South, without counting tricks, took the club Q, finessed the heart Q and J, dropped the heart K with the A, ran four more clubs, discarding three diamonds and a spade, won the diamond K and A, cashed the heart 10 and spade A, then lost the last spade trick. He even would have made the hand on a squeeze if he had discarded four diamonds on the clubs. Then, when he later played the heart 10, West would have had to unguard his spade K or throw his diamond Q, making dummy's 4 good for the deciding trick.

* * *

Tomorrow's Lesson.

	♠ 6 ♥ 7 4 3 ♦ 10 4 2 ♣ K Q J 10 7 6	
♠ J 8 7 5 ♥ Q ♦ A K J 8 5 ♣ 4 3 2	N. W. E. S.	♠ A K Q ♥ A J 9 8 ♦ Q 9 7 ♣ A 9 8
	♠ 10 9 4 3 2 ♥ K 10 6 5 2 ♦ 6 3 ♣ 5	

What is the soundest bidding on this deal?

(Dealer: East. Both sides vulnerable.)

HOROSCOPE

For Thursday, August 1.

PRIVATE affairs of a domestic, social or sentimental character are to the fore on this day, with business or other commonplace activities centered on such intimate functions or ambitions. Friendship, courtship, all forms of conviviality and celebration, may be stressed.

Those whose birthday it is may be prepared for a year in which their purely personal adjustments to life may bring happiness and gratification. While the attitude may be steady, serious and worthy, pleasure, festivity and major activity may involve the domestic, social or emotional relations. Such business as relate to these or to artistic expression in any of its forms may contribute to make this a happy, joyous year.

A child born on this day should be studious, steadfast, and ambitious, although its aspirations may lie in the direction of art, social or emotional expression. It should have a happy and successful life.

Committee Urges $5,000,000,000 More for Defense

COMBAT ARMY AND 2-OCEAN NAVY WANTED

Approval of Program Needed To Assure Efficiency, Congress Told.

(By Associated Press)

WASHINGTON—The house appropriations committee recommended today the spending of nearly five billion more dollars to start a "two ocean" navy and equip an army which might number 2,000,000 men on combat status.

The huge expenditure—exactly $4,963,151,957 — which President Roosevelt said was necessary to give the nation "total defense," would bring the session's appropriations and contract authorizations for the army and navy to the record-breaking total of $10,040,225,543.

Of the pending bill's total, $2,234,191,957 would be provided in direct appropriations and the balance of $2,728,960,000 in contract authorizations for which congress would have to provide the cash later.

While the committee emphasized that much of the equipment to be bought with the new money would not be obtainable for months to come, it asserted that approval of the program at this time would enable production and procurement agencies of the government to plan their work efficiently.

Piecemeal programs mean piecemeal preparation," the committee said, "which is neither sound preparedness in an emergency nor good business procedure."

During hearings on the measure, Gen. George C. Marshall, army chief of staff, testified that if congress authorizes immediate mobilization of the National Guard and a system of compulsory military training—both of which he said were needed imperatively—an additional $1,000,000,000 would be needed for maintenance of such a force in the current fiscal year.

Specific details as to the number of tanks, guns and other weapons which would be procured were kept secret but the committee recommended approval of the budget bureau's request for 14,394 airplanes of various types, of which 4,028 would go to the navy, giving that service approximately 6,000 serviceable planes.

5 Named to Posts In State Liquor Stores In County

Five men had been named today to posts in state liquor stores in Mansfield by the state liquor board to replace provisional employes who failed to meet civil service requirements.

Appointments, made from civil service certifications, went to Joseph D. Johnson, 10 Marion avenue; Raymond G. McDonough, Longview avenue; Wilbur F. Jolley, 137 West Second street; Thomas Sposito, 237 Wayne street, and Harold E. Stanley.

An extra man was appointed to substitute during the summer vacation period, it was said. There were only four vacancies.

A vacancy in the staff at the Shelby store was filled by shifting Steve Marvin, employe in the North Main street store in Mansfield to Shelby. All of the new appointees will be employed in the South park and Main street stores in Mansfield.

NEED TEACHERS

GALION—With the resignation Saturday of the girls' physical education teacher in the Galion schools, there are now several positions to be filled at the August meeting of the board of education, Tuesday, Aug. 6.

It is expected that Supt. O. E. Hill will have appointments ready for the board's approval at this meeting. The vacancies include two elementary teaching positions, an elementary music supervisory position, the girls' physical education instructor, and a vacancy in the janitorial force.

LEAVE FOR POST

BUCYRUS — Lieut. A. J. Cullen and his bride, the former Evelyn Phillips, left today for Fort Monroe, Va., where the former will be stationed for several weeks before leaving Sept. 14 aboard an army transport for the Philippines where Lieut. Cullen will be stationed for two years.

Cullen has been on leave since his graduation from West Point in June and has been visiting his parents, Mr. and Mrs. A. I. Cullen, and Mrs. Cullen's parents, Mr. and Mrs. E. O. Phillips.

FEAR 7 DIE IN CAMDEN BLAZE

Fumes and Heat Cause Delay In Search For Missing Dead Employes.

(Continued From Page 1)

Paint Company plant, which set off the fires that quickly grew and spread, a state of emergency was declared in the stricken surrounding area. It was near dusk before the fire was brought under control.

Here is an unofficial tabulation of the dead and those missing:

The known dead:

Raymond Harter, 38, Hollinshead chief inspector and general storage manager, burns of the entire body.

William Merrigan, 49, fireman. Died last night from heat exhaustion and heart disease.

Missing:

Laura Jacobowski, 24, Hollingshead employe.

Mrs. Bida Babcock, 32, employe.

Agnes Miller, 23, employe.

Mrs. Bessie Busa, 32, employe.

William P. Bennett, 64, plant engineer.

Mrs. Kobus arranged for searching parties, driven back by intense heat during the night, to get to work as soon as the ruins were cool enough—some equipped with asbestos suits and gloves.

While officials of the company, which manufactures automobile paints and polish, were inclined to ridicule any suggestion of sabotage, Mrs. Kobus said the idea would not be dismissed. She would not amplify that comment.

The factory is less than a mile from the Camden entrance to the Delaware river bridge and only two blocks from the main automobile artery leading from the span into south Jersey.

Five-hundred national guardsmen patroled the area to prevent looting.

R. M. Hollingshead, jr., company president who supervised a house-to-house check of all employes, said "There is a possibility that four men and three girls were trapped."

Hollingshead said the company was working on an order for gun paint for the United States navy but declared he saw "no possibility of sabotage."

Vice President R. M. Bagley expressed the opinion that heat exploded one of the many chemical mixtures in the plant.

So intense were the flames, fed by chemicals and greases that within two hours of the noon-time explosion nothing was left of the five-story brick building but crumbling walls.

Winds whipped the fire quickly across a railroad siding into a row of 20 houses. Sparks set off across two other streets.

Each successive explosion—some counted 25—added to the panic.

About 150 of the factory's 450 workers were at their jobs when the first explosion shook all Camden. The others were at lunch.

Firemen from south Jersey communities and all available equipment from Philadelphia, across the Delaware river, responded to a general emergency alarm and controlled the flames after a nine-hour battle.

WEDDING PLANS

BUCYRUS—Announcement has been made of the approaching marriage Sunday, Aug. 4, of Miss Marcella Love, daughter of Mrs. Jennie Love, and Donald L. Laughbaum, son of Mr. and Mrs. Erman H. Laughbaum of this city.

The nuptials will be solemnized in an open church service in Epworth Methodist church at 3 o'clock by the Rev. George A. Hickson.

A reception in the church parlors will follow.

BARRYMORE ADMITS HE'S BROKE ON $1,000 WEEKLY ALLOWANCE

LOS ANGELES — (NS — The great profile regrets to announce that he is broke.

He has an allowance of $1,000 a week, but to John Barrymore it just seems to melt away in household expenses, which, according to his testimony on file in a suit in United States Bankruptcy court, Ernest Utley was sort of a mysterious thing to me."

Barrymore appeared before Utley yesterday for questioning by his creditors, among whom was a former wife, Dolores Costello, regarding his assets and obligations.

He said he owed around $86,0[illegible] but was unable to explain just how he disbursed $1,000 weekly allowed him as living expenses. He got that amount several weeks ago when he petitioned for courts for an extension of time to meet his obligations.

"Have you any money at all in the bank?" he was asked by Samuel [illegible]

A little problem for his estate.

"No funds whatsoever, and I haven't any much to make that statement," said Barrymore in a dismal tone.

Asked how he used the $1,000 weekly stipend he declared:

"With our household expenses—those items have always been out of mysterious to me. I think I get a few dollars ahead and [illegible] well you know how [illegible]

He informed the referee he was jobless at the time, was not "a business man," and had made many obligations through various matrimonial adventures.

Miss Costello entered a [illegible] regarding owed payment of $8[illegible] has almost. They were married in one another when they met in the referee's room, and later, as Barrymore did not [illegible] of his [illegible] from the witness chair Miss Costello stared [illegible] actor that man is.

CHURCH PLANS NEW EXPANSION

Second Story to Be Added to Grace Gospel Building; Plant Gets Permit.

Building permits totaling $38,000 were issued today at City hall. They included an addition to Grace Gospel church and a new building for the Humphryes Manufacturing company.

The church will add a second story to its building at 85 East Third street. For a number of years it has been a single story structure. The new story of brick, steel and concrete, will be 16 feet high and with floor space of 50 by 90 feet. The contractor is S. B. White.

A boiler house costing $10,000 will be constructed at the Humphryes plant. A new office building is already under construction. Both buildings are a part of a $400,000 building program which was started in 1935, according to company officials.

The new boiler house will follow the pattern of the new office building and will be constructed of brick and concrete, according to the permit issued to Jacob Wolf, general contractor.

A permit for a $4,000 frame house issued today to Lee Auer, 232 Walter avenue, brought the total to $38,000.

JUNIOR FAIR

BUCYRUS — Plans are being completed for the Crawford county Junior fair, which this year will take the place of the county fair. The affair will be held Wednesday and Thursday, Aug. 14 and 15.

Members of the various boys and girls' 4-H clubs of the county will take part in the fair. Livestock exhibits, project exhibits and entertainment features are being arranged for both days.

REUNION HELD

LOUDONVILLE—The 20th annual Humm-Young reunion was held Sunday at Long Lake with 48 relatives and friends present to enjoy a picnic dinner. At a short business meeting the following officers were elected, president, Guy Hamm; vice president, Fred Young; secretary-treasurer, Mrs. Carl Kick; the remainder of the afternoon was spent visiting.

CLOSE WALNUT INTERSECTION

City Officials Take Action as Workmen Get Set to Pour West Fourth Concrete.

The intersection at North Walnut and West Fourth street will be closed to traffic the latter part of the week as the work of pouring concrete on the Fourth street paving project gets under way.

Forms for the six-foot concrete strips on either side of the highway have been set in the two blocks between Diamond and Walnut. C. H. Stander, president of the Mansfield Asphalt and Paving company which is doing the work, said that before concrete could be poured between Walnut and Mulberry, the pavement at the Walnut intersection would have to be removed. He said he expected to get it out and grading on it started this week.

The work progressed beyond Bowman street today as workmen began tearing up the old street car rails west of Bowman.

Stander said that the work at the downtown intersections would be done as quickly as possible in order to open the highway to traffic. The concrete work will start at Diamond and Fourth this week.

COMPANY GETS RECORD ORDERS

Westinghouse Chairman Reports Largest Demand In History of Concern.

Orders for its regular lines of products are the largest in the history of the Westinghouse Electric and Manufacturing company, A. W. Robertson, chairman of the board, announced in New York today. Associated Press dispatches said.

The company's backlog at the end of June totaled $86,386,749 against $52,442,563 a year ago.

Robertson, explained the unfilled business chiefly was for peacetime equipment and was exceeded only during the World war in 1918 when U. S. military orders raised the total greatly.

Sales in the first six months this year, he said, totaled $115,488,876, a gain of 32 per cent over the comparable period last year.

If Westinghouse receives large armament orders, Robertson stated, new plants and equipment probably will be installed to handle them.

Directors declared a dividend of $1 a share each on the common and preferred stocks, payable Aug. 30 to holders of record Aug. 13. The previous payment on each issues was 87½ cents on May 29.

GETS CONTRACT

Galion Iron Works Receives $235,351 U. S. Order.

The Galion Iron Works and Manufacturing company today received a $235,351 order for motorized road graders for the U. S. war department.

Officials of the company could not be reached immediately for information about when the equipment must be delivered or whether additional workers will be needed to handle the order.

It is believed the graders will be used in connection with the national defense program.

WRIST WATCH STOLEN

SHELBY—Ted Briggs reported to Shelby police that someone stole his wrist watch valued at $5 from the bath house at the swimming pool in Seltzer park Tuesday. The watch was taken while Briggs was in swimming, police said.

CLASS COMPLETES PLANS

SHELBY — Final plans for a camping trip Aug. 11 will be made when Young Men's class of First Methodist church meet at the church balcony for its regular weekly session Sunday.

12 SCOUTS TO BE ADVANCED TO EAGLE RANKING AT CAMP

Twelve Boy Scouts from the Johnny Appleseed area will be advanced to the rank of Eagle, highest rank in scouting, at annual area summer court of honor at 8 p. m. Thursday at the scout camp, Camp Avery Hand, jr.

This is the largest number of boys ever to be advanced to the Eagle rank in the area during a single court. The court marks the final "visitors night" during the summer camp which closes Sunday.

In addition to awarding of the Eagle rank, advancements are to be made in all other ranks and merit badges will go to about 200 scouts. Other advancements include 15 to the rank of First Class scout, 40 Second class, 15 Star rank and 10 to the rank of Life scout.

Four of those to receive the Eagle rank are from Mansfield. They are William Zimmerman, Larry Bergstrom, William Doolittle and Fred Morey. The others are William Ritchie and William Wickline of Lexington; John Van Meter of Galion; Paul Robinson, Kenneth Hageman and Harry Crawford of Shelby and Leland Brubaker and David Rees of Ashland.

J. Leo Hartmann, chairman of the area court of honor, will preside.

COMMISSIONERS ACT TODAY ON ELEVATOR PLAN

Board Considers Architect's Drawings, Gets Ready to Ask For Bids.

Plans for the installation of an elevator in the Richland county courthouse were expected to receive the approval today of county commissioners and a special committee of county officials, opening the way for an immediate request for bids on the work.

Scheduled to go over the plans with commissioners were Probate Judge C. J. Anderson, Sheriff E. P. Long, Clerk of Courts Fred Zellner, and James Bailey, named on the committee by Common Pleas Judge C. H. Huston.

Employed several days ago by the county, Charles W. Conklin, Mansfield architect, prepared the plans for the project, estimated to cost $15,000.

C. L. Mitchell, chairman of the board of commissioners, said the elevator installation would be taken care of first and then the top floor of the courthouse will be finished to provide more office space.

The elevator is expected to leave two main floor corridors in the courthouse free for use as offices since the steps at the north and west sides of the building will not be needed.

SEAT OFFICERS

Knights of Columbus to Hold Service Thursday.

Installation of officers for next year will feature a meeting of Mansfield Council No. 687, Knights of Columbus, at 8 p. m. Thursday at lodge headquarters, 157 West Fourth street.

John E. Flood of Mansfield, district deputy, will be the installing officer. Thomas J. Hanley will speak to members on "Ideals of Columbianism."

3 GET FINES

More Drivers Face Charges For Traffic Violations.

Three traffic violators appeared in municipal court this morning and drew fines following their arraignment.

Elmer Earick, 179 Poplar street, arrested for careless and reckless driving on an affidavit signed by H. F. Shover, 191 Home avenue, pleaded innocent. Following a hearing his license was suspended for 90 days. He must pay the costs, but fine of $25 was suspended.

Driving down Park avenue west at 48 miles an hour cost Roy F. Klopfenstine, 432 Edgewood road, $10 and costs. He was arrested yesterday by Patrolman William Colby.

It was failure to stop at a stop sign that brought Guy Ferguson, 57 North Adams, into court. It cost him $5 and costs.

BIXLER-BERRY WEDDING RITES

Bellville Couple Leave on Short Honeymoon Trip Through East.

BELLVILLE — Miss Winifred Bixler, daughter of the late Mrs. Arminda Bixler, became the bride of Faye Berry, son of Mr. and Mrs. Henry L. Berry, at 3 o'clock Friday afternoon at the home of the bride. The ceremony was performed by Rev. E. M. Lewis of Toledo.

The bride was given away by her brother, Louis Bixler. Mrs. David Russell of Greenwich served as bridesmaid, Mrs. Guy Gregg of Ashland, matron of honor and Mr. Guy Gregg as best man.

Miss Kathryn Spears of Savannah played a program of nuptial selections: The Indian Love Call, I Love You Truly, O Promise Me, and Lohengrin's wedding march for the processional. A buffet luncheon followed the ceremony.

The young couple left immediately on a brief wedding trip to Harrisburg, Pa., and other points of interest.

Out-of-town guests were Rev. and Mrs. E. M. Lewis of Toledo, Mr. and Mrs. J. E. Miller and Mr. and Mrs. Merlyn Miller of Milan, Mr. and Mrs. Guy Gregg of Ashland, Mr. and Mrs. David Russell of Greenwich, Mrs. Elwood Bixler and two children of Bedford, Mass., and Miss Kathryn Spears of Savannah.

TWO TRUSTIES BACK IN JAIL AFTER ESCAPE

O. S. R. Pair Who Fled From Sandusky In Station Wagon Captured.

Two Ohio State reformatory trusties who fled from the Sandusky honor camp 10 days ago, stole a station wagon and slipped through a police net after holding up two persons were back in custody of police today.

The pair was held in jail in Cincinnati after being turned over to authorities by the father of one of the youths yesterday.

Harry W. Knight told Cincinnati police, Associated Press dispatches from that city said, that his son Harry Jr., 20, and William Rutherford, 19, of Portsmouth, appeared at his home shortly after dawn "hungry and willing to go back."

Knight took them both to police headquarters.

"We were fools," said young Knight, "next October, the parole board was to have considered our cases. Our records were clean. For a week, we've tried to keep clear of the law. It's tough. Sleeping in boxcars and begging food is hard."

The pair broke into the carpenter quarters at the Ohio Soldiers' and Sailors' home at Sandusky July 20, stole $18, some clothing and then held up Maurice Schwinn, Sandusky, at a nearby stone quarry.

They took Schwinn's station wagon and headed south. Near Huron they held up W. P. Tabor, a retired Norwalk merchant but fled without robbing him when an automobile appeared.

Both had been transferred to the honor camp several months ago.

Knight was committed Oct. 26, 1939, from Hamilton county to serve one to 20 years for auto theft and Rutherford was serving a one to 15 year sentence for burglary and larceny. He was received at the institution July 26, 1939.

Supt. Arthur L. Glattke said today that he had not yet been notified that the youths were in custody. He expressed the belief that they might be turned over to Erie county authorities for prosecution.

Belgian Premier?

Long-time leader of an aggressive Fascist minority party in Belgium, Leon Degrelle, above, has been released from prison in the French Pyrenees and now is reported to be on his way back to Belgium to head a new pro-German government.

URGES 200,000 PLANES

GARDNER, Mass. (U.P.)—If the government adopted Mayor Fred E. Perry's suggestion, the army and navy would have 200,000 more airplanes. The mayor's resolution approved by his city council calls for one army or navy plane for every 1,000 of population in each city or town having a municipal airport.

Americas Present United Front to Common Dangers

THREE-POINT PACT SIGNED BY DELEGATES

Last Minute Reservations to Act of Havana Made by Eight Countries.

(By Associated Press)

HAVANA — The 21 American republics formally presented a united front today against political and economic dangers from other continents in a three-point program which Secretary of State Hull regarded with deep satisfaction despite last-minute reservations by eight nations.

The Havana conference, after setting up new machinery to bolster the solidarity of the western hemisphere, concluded last night with formal signature of documents amid flurries of cheers.

All the delegates signed the "Act of Havana" and supplementary agreements, although the Argentine delegation — which had argued against anticipating need of action concerning European colonies in the new world—led seven other nations in a succession of reservations.

The delegates of Argentina, Chile, Colombia, Uruguay and Venezuela specified that the agreements be ratified by their governments before participation. Mexico, Bolivia and Peru made reservations as to minor points.

The program consists of:

1. The act of Havana declaring all the republics opposed to transfer to other non-American nations or attempt to transfer or acquire interest in European possessions in this hemisphere.

2. Inter-American co-operation, through consultation and mutual exchange of information, to combat "fifth columnists" or other subversive elements.

3. Mutual effort to settle American economic problems, including market dislocations resulting from the European war, and "economic defense" against encroachment of European barter systems.

The act of Havana provides for joint administration of any foreign possession threatened by a non-American nation, but also recognizes the right of any American republic to act singly or jointly in emergency situations.

Secretary Hull, who was applauded when he led the parade of signatories, issued a statement reviewing the conference as he embarked last night with other members of the United States delegation for Miami.

The American republics, he said, "have demonstrated to the world their unalterable determination to preserve and strengthen the spirit and the system of continental unity and solidarity. They thus have cleared the decks for effective action whenever such action may become necessary."

Mansfield Driver Pleads Not Guilty In Traffic Death

Arthur E. Sherman, 48 Boughton avenue, stationary engineer at the Westinghouse Electric and Manufacturing company, was free on $500 bond today after pleading not guilty yesterday in Norwalk on a charge of second degree manslaughter.

Sherman was indicted by the Huron county grand jury Monday in connection with a traffic accident near Willard in which H. Albert Gatewood, 46, Baltimore and Ohio railroad claim agent of Willard, was killed July 15.

The Mansfield man and his wife were returning to this city when the accident occurred east of Willard at the intersection of the Plymouth and Monroeville road and the Norwalk-Willard road.

The two cars came together at the intersection and the Huron county authorities charge that Sherman disregarded a stop sign.

Sherman pleaded innocent yesterday through his attorneys, Beam and Beam of Mansfield. He maintains that he stopped at the sign before going into the intersection.

CLUB HAS OUTING

Rotarians Guests of Scouts At Camp Avery Hand, Jr.

A picnic meeting of the Mansfield Rotary club was held Tuesday at Avery Hand, jr., Boy Scout camp, Ashland road.

Dinner at 6:30 was followed by a kittenball game between Rotarians and Scouts, after which a program of readings, songs, stunts and boxing matches was presented by Boy Scouts of the Johnny Appleseed area, with David Rees, an Ashland Eagle Scout, as master of ceremonies. Harold W. Arlin was program chairman of the meeting.

Willkie Welcomes Support of Al Smith

There are half a dozen youngsters out on Davis road who really take the war situation seriously. When her seven-year-old son came into the house the other day and asked for six cents, his mother asked him what he wanted it for. "For our buried treasure," was the prompt retort. And a little investigation revealed that youngsters in the neighborhood had been carefully burying pennies in a nearby wooded area to conceal them from "the enemy" until they totaled enough to make a good-sized gift for war refugees.

* * *

County Recorder Howard Wenning is convinced he has just witnessed an economy act that tops them all. He had received a post card today that he believes was purchased more than 40 years ago. The sender, a Hoytville, O., man, had carefully erased another message on the card so he could use it again. The stamp had not been postmarked previously. Wenning received another old card from the same man several months ago, asking for information. Both cards were accompanied by equally old return cards for Wenning to use for his reply. The stamps on the cards bore pictures of Gen. Sherman and Gen. Sheridan, the Civil war notables.

Baku chapter, Order of DeMolay, will soon have the distinction of being the only fraternal organization in Mansfield to have two musical organizations made up entirely of its own members. A 28-piece DeMolay band has already been organized by J. Merton Holcombe, a member of the chapter's advisory council, and plans are being made to organize a dance orchestra within the organization, in the near future.

* * *

Efforts of Canadian authorities to keep the United States tourist trade this year extends down to its traffic cops. When Mr. and Mrs. Fred Black and Mr. and Mrs. J. Harvey Dickson stopped in Montreal last week they wanted to see the town in a hurry, so they stopped a traffic officer and asked the points of interest they should see. The copper, a smiling Irishman, said: "I get through work at 8 o'clock. If you would like me to, I'll be glad to show you the town." And from 8 until after midnight, he showed them the sights of the town.

ILLNESS FATAL

Mrs. Bertha Shriver, 70, Dies; Funeral Set For Thursday.

Mrs. Bertha Alice Shriver, 70, of 151 West Third street, died at General hospital Tuesday afternoon following a brief illness. She was born in Middleborne, W. Va., June 19, 1870, and came to Mansfield five years ago.

She was a member of the First Christian church and of the Martha Washington chapter, O. E. S., of Sisterville, W. Va.

Surviving are a son, Harry L. Shriver of Mansfield, and two daughters, Mrs. J. A. Conklin of Ashland and Mrs. A. E. West of Detroit, and six grandchildren.

The body was removed to the Geiger Funeral home where friends may call. Services will be held at the funeral home at 4 p. m. Thursday in charge of Rev. B. F. Hagelbarger. Burial will be in the Mansfield cemetery.

Temperatures

Daily Mansfield temperature range of 24 hours ending at noon today:
High—92.

ASHLAND BOY KILLED BY CAR

Youth, 7, Struck In Front of Home by Motorist Who Won Safety Award.

ASHLAND—Emerson T. Weaver, 7-year-old son of Mr. and Mrs. Charles Weaver who live on route 250 seven miles east of here, died shortly after 9 a. m. today in Samaritan hospital of injuries sustained when he was struck by an automobile on the highway near his home.

The car which struck the boy was driven by George L. Pifer, 46, of Wooster, National Biscuit company salesman, who just a month ago received a safety award from his company for never having been involved in an accident.

Pifer told Deputy Sheriff Earl Kaylor, who investigated the accident, that he was driving towards Wooster accompanied by his wife and two other women at about 8:45 a. m. when he saw the boy playing ball at the side of the road. He said he slowed down but that, as he approached, the boy came directly in front of the car.

Pifer swerved his car into the ditch but young Weaver was knocked to the road by the left front fender.

The boy was taken by Pifer to Samaritan hospital where Coroner G. M. Emery gave a verdict of accidental death due to fractured skull and internal injuries. Pifer was not held by Ashland county authorities.

DIES IN OREGON

Mrs. Dorothy Waugh Brown, Native of Mansfield, Succumbs.

Word was received here today of the death in Portland, Ore., of Mrs. Dorothy Waugh Brown, a native of Mansfield.

Daughter of the late Mr. and Mrs. J. W. Waugh, Mrs. Brown taught school here before leaving for Portland some 35 years ago with her brother, Dr. Justin Waugh, now in Cleveland. Mrs. Brown was married in the west, her husband dying within a year. Her father was a partner in the old milling firm of Gilbert and Waugh here.

Mansfield friends had had no word today of funeral arrangements.

HOSPITAL NOTES

General Hospital.

Admissions: Mrs. William Detman, 258 Park avenue east; Charles Mercurio, 99 South Foster street; Albert Cushing, Harland road; Mrs. Gerald Lenard, 124 Park avenue east; Mrs. David Peters, R. D. 1, Lucas; Mrs. Harold Marshall, R. D. 6; George Urdia, 22 Crestline avenue; Mrs. Leroy McMillan, 218 Lexington avenue.

Releases: Suzenne Cummins 411 Edgewood road; Edgar Dreier, R. D. 1, Shiloh; Oliver Elliott, 87 East Fourth street; Mrs. Thomas Moore and daughter, 533 Woodland avenue; Ruth Schaaf, 30 Wood street; Carol Massa, 438 Marion avenue; Alfred Majoy, 43 West Sixth street; Lucille Pennell, Shiloh; Leroy and Charlene Watkins, 102 South Foster street.

FINDLAY YOUTH STARTS CHAIN AD CAMPAIGN AGAINST DRAFT

FINDLAY—(U.P.)—A chain advertisement campaign against military conscription has been started by Robert J. Ohl, 29-year-old Findlay radio expert.

Ohl spent $2.70 of his own money to start what he hopes will be a newspaper advertising campaign against the Burke-Wadsworth conscription bill.

The "ad" placed by Ohl in the Findlay Republican-Courier was headed "Military Conscription Almost here!" and read:

"Young men, 21 to 30 years of age, who wish to oppose should act at once. The press, radio, movies and political party machines are rapidly creating public opinion favorable to conscription. There are over eleven million of us in the proposed active age group and we should be the ones to decide this question. Every one write or wire your representative in Washington that you oppose conscription; or, if you wish, drop me a card containing name, address, age and representative's name and I will include same in petitions. Meet this crisis the American way. Let Washington hear the voice of American youth. Please act at once, for the time is limited. This is a chain advertisement. If you possibly can spare the price, clip and insert this ad in another newspaper. With cooperation, this message can be carried to every state in the union. In the name of our Creator, cooperate!"

Ohl, raised a farm boy, operates a small radio store. He is six-foot-one tall.

"I figured that if young men were interested enough they would spend a few dollars to keep the appeal moving," he said today. "Already I've received a number of letters from persons supporting the movement. One man put the ad in a Columbus paper and said he would see to it that it was placed in other papers.

PICK KETTERING

U. S. Names General Motors Official to Head Council.

Dr. Charles F. Kettering, president of the General Motors Research corporation and former Loudonville resident, was appointed today to head a new national inventors' council to be set up under the defense program, a dispatch from Washington said.

The appointment of Kettering to the federal post was announced by Harry L. Hopkins, secretary of commerce.

Kettering, one of the nation's leading research men, owns a farm near Loudonville and visits there frequently. He was the principal speaker last year at ceremonies dedicating a new high school addition at Loudonville.

ASHLANDER FINED

SAVANNAH — Arraigned here yesterday afternoon before Mayor T. M. Henderson on charges of failure to stop for a stop sign, A. B. Smith of Ashland was found guilty and fined $2.50 and costs. Smith was arrested yesterday afternoon by state highway patrolmen at the junction of routes 60 and 250 in Ashland county.

WESTINGHOUSE PAYS $1

NEW YORK—(AP)—Directors of Westinghouse Electric and Manufacturing company today declared dividends of $1 a share each on the common and preferred stocks, payable Aug. 30 to stock of record Aug. 13. The previous payment on each issue was 87½ cents on May 29.

Laff-a-Day

"QUICK! See what it says to do when we GET A BITE!"

FORMER CHIEF OF DEMOCRATS WALKS AGAIN

Famous Brown Derby Takes Place Beside Straw Hat In Political Ring.

(By United Press)

COLORADO SPRINGS, Colo.—Alfred E. Smith's famous brown derby was beside Wendell L. Willkie's straw hat in the national political ring today and the Republican presidential nominee said he was "proud" to have it there.

When Willkie Learned that the former governor of New York and 1928 Democratic presidential nominee had thrown his support behind him, he said in a formal statement that he considered Al Smith "the first citizen of New York."

He paid tribute to Smith as a leading philanthropist and social worker with whom he was "proud" politically to be associated.

Smith's departure from the Democratic party was "not actuated by love of money," Willkie said, an apparent retort to President Roosevelt's explanation that Lew Douglas, former budget director, and John W. Hanes, former under-secretary of the treasury, "were actuated by love of money" in deserting their party to support Willkie.

The Republican candidate added to the list of his backers the name of Samuel Seabury, the special prosecutor who in 1931 almost single-handedly forced the resignation of James J. Walker as mayor of New York City by an exposure of Tammany Hall's political practices.

NEW YORK—(U.P.)—Alfred E. Smith, 1928 Democratic presidential standard bearer, who took his first "walk" in 1936 to support Alf M. Landon, said Mr. Roosevelt's nomination had heralded "the death knell of the Democratic party" and that Wendell L. Willkie was a "sure bet." He insisted that he still was a Democrat. He declared that the fundamentals of the party of Thomas Jefferson had been "torn to ribbons" by the New Deal.

DIES AT HOME

Mrs. Ridenour Had Been Ill For More Than Year.

Mrs. Bessie Vaneman Ridenour, 49, wife of Argyle E. Ridenour, 140 North Weldon avenue, died at the family home Tuesday afternoon following an illness of more than a year.

Born Jan. 5, 1891, near Wheeling, West Va., Mrs. Ridenour had lived in Mansfield a number of years. She was a member of the First Christian church. Surviving besides her husband, are her father, Robert Vaneman, and two sisters, Mrs. G. B. Mort and Mrs. Leo Bair all of Findlay.

Funeral services will be held at 3 p. m. Thursday at the Finefrock funeral home with Rev. B. F. Hagelbarger, pastor of First Christian church, officiating. Burial will be in Memorial park. Due to construction work on West Fourth street, entrance to the funeral home by automobile can be made only from West Temple court.

GOTHAM FAIR HIT BY HEAT

New York Exposition Goes Deeper Into 'Red'.

NEW YORK —(NS)— The New York world fair is going deeper into the red, Board Chairman Harvey D. Gibson reported today.

A sudden lag in attendance, induced by the hot weather, has made it impossible to pay the bond-holders another five per cent on Aug. 15, as previously hoped, Gibson said. The bondholders put up more than $21,000,000 and so far have gotten back about 20 per cent i. principal and interest combined.

FARMERS MEET

Mansfielder Presides At Marion District Meeting.

W. E. Stough, Mansfield, Farm Bureau trustee presided yesterday at a meeting of more than 100 farmers from Crawford, Marion, Morrow, and Richland counties in the United Brethren community house, Marion.

Principal speaker was Perry L. Green, Columbus, Farm Bureau president who declared, "low farm prices, unemployment, insecurity . . . and finally war are all logical consequences of restriction and artificial scarcity."

FILM DIVORCE

HOLLYWOOD — (NS) — Florence Rice, film actress, today had an uncontested divorce decree from Robert W. Wilcox, actor, on grounds of non-support and desertion. The pair was married on March 31, 1939, and separated 14 months later, the actress said.

The Voice of BROADWAY

—By DOROTHY KILGALLEN

Broadway Bulletin Board.

The Alexander Kordas (Merle Oberon) have their intimates rumoring. . . . Bettina Hall, the musical comedy star, is en route to Reno to shelve her millionaire husband, Robert Hammond Webb-Peploe. When she returns, she'll waltz down the aisle with Raymond Rubican, the advertising tycoon. . . . The Harold "Unk" Meenans (she was Suzanne Hatch, the much-headlined debutante) are knitting tiny garments . . . Secretary of Labor Perkins is on the verge of handing in her resignation, according to Washington insiders.

Norma Shearer arrives in New York Aug. 5 to keep track of her Dream Prince, Georgie Ratt . . . The Art Arthurs (Jessica Pepper) are lullabying a baby girl . . . .

The police recently hushed up an attempt by one of the bigger mobs to "knock off" District Attorney Thomas E. Dewey. The plot was foiled, but the scare was hair-raising while it lasted. (The bad lads know the present Dewey calm is just a prelude to his plan to go out of office in a blaze of glory—which means so many of them will wind up behind bars!)

* * *

Eleanor ("Cookie") Young and her ex, Bunty Bacon, have their friends betting they'll reconcile. . . . Sammy Renick, the jockey, and Belle Kronberg, of the Stork club, are sniffing orange blossoms.

Florida is having the biggest summer business in its history—the Miami hotels are jammed, and gambling is wide open . . . M-G-M is doing everything possible to halt the threatened elopement of Judy Garland and David Rose, Martha Raye's soon-to-be ex.

The Ziggy Elmans — he's the swing trumpeteer — have kissed and made up. He's recuperating from flu in a Los Angeles hospital and she's Florence Nightingaling daily . . .

One of the most famous stage and screen comedians has warned his eccentric wife that unless she stops embarrassing him in public, he'll sue for a divorce based on heckling.

* * *

The Duncan McMartins (he's the Canadian multi-millionaire) are rumored ready to call it a day . . . Broadway Rose, most famous of the Stem's feminine characters, confided in an interview the other evening that she's really Ann Dyonne, 27, of Brooklyn. . . . Garson Kanin, the director and Ursula Castle, a Coast debutante, are Too Romantic. . .

The Dan (Sonja Henie) Toppings are building a nest on L. I. . . . The network fight with ASCAP should be a honey — and may result in all ASCAP tunes being barred from the airways after Jan. 1. The songwriters' association, to which radio already pays $4,300,000 a year, wants twice that in its next contract—so the networks are countering by utilizing their own "baby," Broadcast Music, Inc., to take the place of ASCAP. Starting next week, all "remote" bands will have to play one non-ASCAP song at every broadcast—and that's only the beginning.

Talk Around Town.

Duke McHale, the musical comedy star, and Kathryn Case, of the Diamond Horseshoe, were secretary married a few weeks ago. They've parted already — and are starting to dissolve it! . . . Joel McCrea, the film actor, was almost killed making retakes of "Foreign Correspondent," but the studio soft pedalled the news. He was making a plane shot on United Artists' big sound stage, in which he was to jump out of a clipper ship into the water. The plane got out of control, and McCrea was in its direct path when the quick thinking of an uknown technician, who loosed a giant jet of water at the plane and diverted it, saving the actor.

Eunice Healy, the dancer, gets Ruby Keeler's part in the Jolson show . . . Col. Arthur Hutcheson, the military strategist, and Jane Owen Davis, daughter of the wealthy importing biggie, are yum, yum.

* * *

Pinkerton detectives broke up a fight between two of the country's more famous and monied men Friday, under the grandstand at Empire City . . . Polite query to Will Hays: Where were you when "They Drive by Night" was being passed by the censors?

William Grace Halloway, the Grace Bank heir, and Leila "Timmy" Kelner, of the Greenwich social set, are very warm for Connecticut . . .

Jack Dempsey, Babe Ruth, Red Grange and other famous sports figures will be offered high army posts to supervise athletics after conscription goes through.

Comic Joe E. Lewis, who was torching for one of the Frazee sisters, is forgetting with Inga Borg, of the Jimmy Kelly's floor show . . . Frederick K. Havemeyer, the multi-millionaire whose daughter Barbara, 18, was in love with a Chicago musician, blitzkreiged the romance by threatening to cut her off without a copper.

* * *

Jimmy Roosevelt and Romelle Schneider, his nurse, are slated to trek to the altar very soon—and very quietly . . . Tom Brown, the film juvenile, and Anna Mae Teslo, the local chorine who went to Hollywood for "Too Many Girls," have softening of the hearteries . . .

DuPont will gross $11,000,000 the first year on Nylon stockings . . . Raymond Massey, who deserves better, gets only third billing in Warners' hoss-opry, "Santa Fe Trail" . . .

Anne Radcliffe, who recently divorced Bob Durham, and Harry Wilson, who recently divorced Yale, are a constant twosome in the air-conditioned bistros . . . Matty Fox, the Universal vice-pres. and Mitzi Green, the cutie, are confabbing—to say the least.

Hollywood Speaks---

—By ROBBIN COONS

HOLLYWOOD—Pointed illustration of current studio economy trend is the Warner release of Pat O'Brien, after eight years on contract, soon after he finished what many say was his best role—in "Knute Rockne, All-American." . . . Useful as Pat was, his salary by periodical increases had reached the point where another boost, called for if he were "renewed," was deemed too high. . . . Pat probably will be better off free-lancing, with a choice of roles at other studios as well as Warner's.

Same consideration probably will have to be made by any studio which persuades Shirley Temple to go to work again. . . . Effective as she is in her last for 20th-Fox, "Young People," and comparatively high as her box-office rating was at the last annual count, Shirley had reached an astronomical money rating at Zanuck's plant . . . more perhaps (though this is treason) than she was worth, all things taken into account. . . .

* * *

"Arise, My Love," the Claudette Colbert-Ray Milland piece, is an adventure comedy with a current war background. . . . Newspaper correspondent stuff, but offhand it looks like a battle between whatever comedy the screen's journalese capers can provide and the real tragedy of the world. . . . Walter Abel gets a break in it. . . .

Gloria Jean's "25 uncles," mentioned in "The Under-Pup," are on the screen in "A Little Bit of Heaven," which is the sequel. . . . Among the uncles are screen oldtimers Charles Ray, William Desmond, Pat O'Malley, Noah Beery, Sr. . . . A few years ago those names in a cast would have cost a fortune. Today they're "uncles" to a little girl who wasn't even born when they were in their heyday. . . . Hugh Herbert, also in the cast, gives a woo-woo. . . . "It's suicidal," says he, "to play in pictures with children, Negroes, and dogs. . . ." Aside from Gloria, the children he has to contend with are Butch and Buddy, rascals of "The Under-Pup."

Claudette Colbert will tell intimates that she has laid away in 12 years in pictures exactly $300,000—or about $25,000 a year, but only a fraction of what she's earned. . . . The rest went to taxes and upkeep, considerable for any movie star. The savings account is supposed to take care of "depreciation" which is otherwise not marked off. . . .

NEWSPAPERARCHIVE®

Willkie's Boyhood Home Awaits the Big Day

Main street in Elwood

Callaway park, where he will speak

Date, Aug. 17, will be a memorable one for citizens of Elwood, Ind. For on this day Wendell L. Willkie, the home town boy who made good, will make his Republican presidential nomination acceptance speech before thousands in Callaway park. It was in a creek near this park Willkie swam as a boy.

Try 'Trickle Treatment' to Collect Back Bills for Water

(By Associated Press)

CLEVELAND — The city of Cleveland has applied the "trickle treatment" in an effort to collect $1,700,000 in delinquent water bills.

The treatment starts with insertion of a disk in water lines at business establishments and homes which are behind in their water bills.

Officials said it was bringing the desired result—prompt action by those affected—but the treatment spelled misery for 20 persons in a tenement where no one could be found to pay a $423 bill.

The 20 persons were dependent—and had been dependent for 18 hot days—on a small stream of water in the basement. Toilets were not functioning. Water for cooking and washing—and what bathing could be done—had to come from a tub that caught the basement trickle.

At least animals get water, even if it is in a trough," observed Mrs. Helen Galbincea, one of the tenants, all on relief. The Galbinceas have six children.

City officials said this situation would be "straightened out," but emphasized that their campaign for payment of bills would continue.

OLD HOTEL SOLD

BURLINGTON, N. J.—(INS)—The Steamboat Hotel, built in 1744 and bombarded by the British in 1778, has ended its career as a public hostelry. Originally called the Sheppard Hotel, the building has been sold to a social club.

The structure still retains evidences of the shellfire to which it was subjected in May, 1778, by British frigates anchored in the Delaware River. It got its present name when it became a terminal for a steamboat line between Burlington and Philadelphia.

WPA WORKERS ASSIGNED TO DEFENSE CLASS

118 Enrolled In Craft Course At High School, Get Regular Pay.

A total of 118 Richland county WPA workers has been assigned to the new defense training craft courses at Senior high school, it was announced today. They began their classroom and shop training yesterday.

James L. Kelly, Columbus, manager of the central Ohio WPA district, said 25 of the enrollees were assigned to auto mechanics classes, 28 as machinists, 15 as sheet metal workers, 20 in woodworking, and 30 in drafting.

Kelly lauded the co-operative attitude of Supt. W. L. Miller and H. V. Oberlander, who is in charge of the vocational training, for enabling Mansfield to lead the central Ohio district in starting the new program.

He said the Richland county men selected for the special 10-week course have been called off road, sewer and white collar WPA projects, although a few have been awaiting assignment.

All are between the ages of 18 and 35 and have been selected because of health and special fitness, he added. Most of the men have had at least a partial high school education and those without such training have shown special adaptability, Kelly said.

"For many," Kelly asserted, "the new classes will act as a 'refresher' bringing back skills which may have grown rusty for lack of use."

Kelly said men assigned to the classes will substitute training for productive work. They are expected to put in 30 hours a week, 130 hours a month—the usual WPA work schedule—and will have timekeepers to keep check on them. They will get federal checks twice each month, and in no case will their pay be less than they have been receiving.

STREET BOND ISSUE SLATED

Council Asked to Approve $22,250 Measure for Property Owners.

City council at its August meeting next Tuesday will be asked to approve legislation providing for the issuance of $22,250 in bonds to pay the property owner's share of the cost of improvements on nine streets.

The bond issue is sought to retire notes previously issued in the anticipation of the collection of special assessments for the construction of sanitary sewers and paving.

The improvements all were made last year and include paving of three streets in the southwest part of the city; the resurfacing of two others and the construction of sanitary sewer lines on three others.

The paving projects include the surfacing of Woodward avenue, Lawnview and Fairlawn avenues.

Also included is the resurfacing of Second avenue and Augustine avenue and the construction of curb and gutters on Coleman road.

Sanitary sewers were laid on Chilton avenue, Cook road, and an alley north of Ashland road.

STILL SWISHES

Kerosene Fan of 50's Gives Cool Breezes Today.

HOLLYWOOD, Fla.—(U.P.)—A kerosene-heated fan that was throwing off cooling breezes before the Civil war is in use today at the home of Eugene W. Richardson here.

The fan, which Richardson says is almost 100 years old, in appearance is similar to modern electric fans. The mechanism, however, is operated by means of a kerosene lamp, pistons and cylinders, on the principle of heat expansion.

The fan sits atop a hollow tube about 40 inches high. The kerosene lamp is set in a well at the base of the pedestal. When the lamp is lighted, the flame fills the chamber with heat, which is released on a pair of cylinders, one brass and one cast iron. The expansion of heat causes the piston to move on a set of ball bearings operating the fan.

ANTICS COSTLY

OKANOGAN, Wash.—(U.P.)—Ray Keech, itinerant woodcutter, emulated Tarzan in a forest near Okanogan, leaping on the back of a doe deer and killing it with his jackknife.

But later he learned that such a trick was all right for Tarzan but not for him. Haled into court on a charge of illegal possession of venison, Judge Howard Vich fined him $100.

KICKS BACK

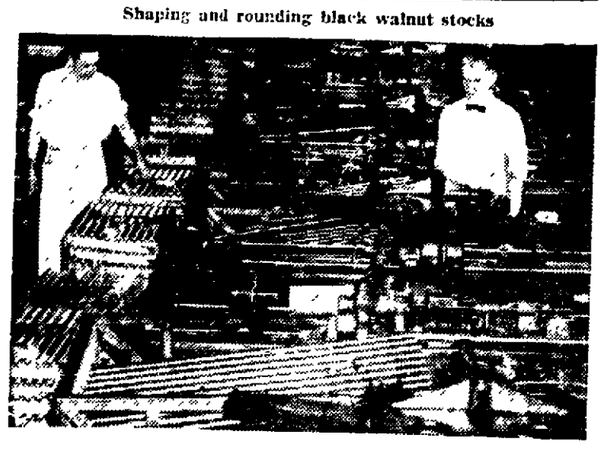
GALVESTON, Tex.—(U.P.)—A Czechoslovakian seaman picked the wrong place to shout "Hooray for Hitler" and consequently was fined $200 and costs by Justice of the Peace James A. Pipen. The place was the Alamo, Tex. sacred shrine.

ENJOYS TOURING

UNION, S. C.—(U.P.)—Mrs. R. N. Sprouse has turned tourist—at the age of 81. Mrs. Sprouse has just completed a 2,200 mile automobile trip to Washington and New York. While in New York she took her first airplane flight.

Making Rifles For Uncle Sam

Shaping and rounding black walnut stocks



Where barrels are turned out

Col. Stewart, left, and J. C. Garand

Camera takes you on a hurry-up trip through the Springfield armory at Springfield, Mass., where Garand semi-automatic rifles are being turned out at the rate of 200 every eight-hour working day. The U. S. army already has 40,000 Garands in service and has invested $15,000,000 in the manufacture of more. Col. G. H. Stewart is commanding officer of the armory. J. C. Garand, inventor of the weapon, is shown in the one picture with Colonel Stewart.

GIRL TRAVELS

SEATTLE, Wash.—(U.P.)—When 7-year-old Patsy-Jean Emard of Anchorage sailed for Alaska, she started on her 14,000th mile of travel.

To date Patsy-Jean has traveled by dogsled, airplane, automobile, dory, steamship and train. She toured the United States in 1938. Her parents live in Anchorage where her father heads a packing concern.

TWO MANSFIELD SMITHIES CLOSE SHOP FOR GOOD

Kramer Brothers, One's Been In Business 51 Years, Make Bow to Progress.

The spreading chestnut trees have been blighted and the village smithies are passing into oblivion, one by one. The latest to abandon an old business which time has out-moded are the Kramer brothers who are giving up their blacksmith shop on Marshall avenue this week.

They are going out of business because the building, owned by the Citizens Savings and Loan company, is to be torn down. The building itself has housed a blacksmith shop for more than 80 years.

John W. Kramer, older of the two brothers, has been in the blacksmith business for more than 51 years. He started as an apprentice in 1889 at the old Mansfield Buggy company, which was located on the site now occupied by the Ohio Brass company.

He worked there for years and in 1915, he and his brother, Frank A. Kramer, started their own shop in the old building which stood on the back of the lot now occupied by the Mansfield-Leland hotel. It was on South Walnut street, directly opposite the old city prison.

The building itself had been built in about 1860 by "Daddy" Day, one of the early blacksmiths of the town, and it has been used continuously for a shop since then. When the buildings on the Park avenue and South Walnut location were ordered down to make way for the city's first strictly modern hotel, the old blacksmith shop was moved to its present location on Marshall avenue, just off South Franklin street. That was in 1926.

But the Kramers are leaving it with little regrets.

"Business isn't what it used to be," Frank said yesterday as the brothers were preparing to sell most of their smithy's equipment to the junk man. "In the days of the horse and buggy, we did a thriving business. There was all kinds of repair work on buggies and farm machinery; setting steel tires on buggy and wagon wheels, and forging iron parts for vehicles.

"Then the autos came along and gradually Old Dobbin was forced out. Shoeing and repair work dropped away to almost nothing until we began to take in repair work for autos. In the last few years practically all of our work has been tool dressing and auto work."

Smithy equipment changed also, and it has been many a year since the old leather bellows were used to fan a flame in the forge. They used electric motors which sent a flame up through the coal in the forge just as soon as a button was pressed.

There still are three other blacksmith shops in Mansfield, but they, too, do the greater part of their business in auto repair work.

The Kramers will continue to do odd jobs in smithy work from their homes.

Smithies Here Go Way of Chestnut Trees

Gone are the spreading chestnut trees and now the "village smithies" make their last heat in the old forge before going out of business. At the rear is John W. Kramer who has been blacksmithing for 51 years. His brother, Frank A. Kramer at the anvil, has been in business with him for the past 25 years. They are closing their shop on Marshall avenue this week.

FANS INTRIGUE INVENTIVE MIND

But Heat-Blistered Brain Turns Out Some Odd Cooling Devices.

(By Associated Press)

WASHINGTON — Contrary to what Mark Twain said about nobody doing anything about the weather, the patent office disclosed today that Americans have been doing something about it for almost 100 years.

Fans, for instance, have intrigued the country's inventors since the government began granting patents for pert ideas.

As early as 1865 a man figured out a way to harness a dog, throw him a bone and force his gnawing to motivate a machine to swish cooling breezes across his master's bed.

In 1881 a methodical milkman gazed on the smooth swinging of a cow's tail and figured out a way to make that power cool man.

The world, however, beat no path to either door.

In the early 1900's an inventive fellow fell upon a plan for a refrigerated bed—a sort of ice-cooled couch which was guaranteed to all but freeze the heat sufferer.

Only last year there was an improvement of the plan—an air-cooled bed.

Just before the World War a farmer perfected a ceiling fan that got its power from the windmill in the yard. He didn't explain what he wanted with a breeze when there was one strong enough to turn the mill.

Another man had almost the same idea, but he made it a little more practical—he hitched his fan to the churn on the back porch and put his wife to work.

Feeling any cooler?

DUCK SENTRY

SEATTLE, Wash.—(U.P.)—Oscar, a Muscovy duck, serves as a self-appointed sentry at the Coast Guard repair base here. On 24-hour duty for only food and shelter, Oscar chases away dogs, cats and even persons who venture on the government property.

LEADS IN POLICE

ARDMORE, Pa.—(U.P.)—Lower Merion township on suburban Philadelphia's Main Line has the greatest number of policemen per population of any other place in the world, and has nearly twice as many per 1,000 inhabitants as the average American community.

AMBITIOUS

Texan, Now 26, Vows He'll Be Governor in 1952.

SAN ANTONIO, Tex.—(U.P.)—In 1952 the governor of Texas will be George Theriot, according to George Theriot.

This most determined young man, who now is only 26, has plotted a course that, he says, will lead his ship to the highest office in Texas.

Theriot declared he would keep his name before the electorate until 1946 at which time he will be graduated from the University of Texas School of Law and subsequently "be elected to some state office" from his home district of San Antonio.

"By that time I will have been over so much of Texas and made so many friends that no one will have a chance of beating me," he declared.

The "future governor" was graduated from a San Antonio high school where he was a leading debater. For the past six years he sold magazines, so "you see I haven't lost any of my debating ability."

CLOSING-OUT SALE

It's Not a Myth—It's a Fact!

Only 20 more days left! Hurry! Hurry! Hurry! We must vacate the building. Fixtures, tables, counters, etc. for sale . . . make us an offer.

TANK FARMING MAKES GARDEN OF WAKE ISLE

Tiny, Barren Coral Outpost on Pan-American Clipper Route Fruitful.

SAN FRANCISCO—(U.P.)—Tiny mid-Pacific Wake Island, coral outpost for Pan-American clippers, has been transformed into a garden haven capable of providing sufficient vegetables for 50 persons or more, according to Torrey Lyons, who has just returned from there.

The transformation of a barren coral reef into a vegetable garden has been made possible, Lyons explained, by the adoption of the system of growing crops in tanks. The water in these receptacles is supplied with the necessary minerals for growth.

Lyons, a resident of Stockton, Cal., and a 1938 graduate of the University of California, is in charge of the soilless gardens of Wake Island.

While there is not enough soil on the island to grow any kind of food plant or tree, "tank farming" has solved the problem of growing needed vegetables for the 30 inhabitants of the island, most of whom are employes of the Pan-American airways.

The farm is being enlarged by the installation of two additional tanks 75 feet long, 3 feet wide and 9 inches deep.

Crops to date have consisted largely of tomatoes and beans but other vegetables, Lyons said, are to be added as fast as the tank farm increases in size. The plants grow profusely, he said, and the vegetables have a particularly fine flavor.

The necessary plant nutrients to place in the tanks are taken to the island by the supply steamers of the Pan-American Airways.

The present program provides not only for growing sufficient vegetables for the regular inhabitants of the island but eventually to increase the amount necessary to supply the needs of all passengers who stop there overnight on the weekly flights of the Clippers.

Torrid Campaign Ahead for Election To Job Paying $25

LAS VEGAS, Nev. —(AP)— Hottest political fight in Nevada this year promises to be for a justice of the peace job in Las Vegas township which carries a salary, excluding fees, of $25 a month.

The fees, however, tell the story. Marriages alone are estimated to return the justice $2,000 monthly.

So lucrative is the post that Nevada's lieutenant-governor from 1934 to 1938, Fred Alward, has filed for the office along with the Las Vegas city attorney, Harry Austin, County Assessor F. C. DeVinney, Sheriff M. E. Ward and A. S. Henderson, former state legislator.

The present justice, George E. Marshall, is a candidate for district judge. Judges also get a share of the marriage business.

Most of the couples come from California, only 43 miles away. Each ceremony nets the justice an average of $5

Willkie the Watcher

Camera catches four glimpses of Wendell L. Willkie, the Republican presidential nominee, as he watches a sporting event while on his western vacation. Willkie registers interest, disfavor, satisfaction and fatigue in the facial expressions.

ASKS DOG CUSTODY

SAN JOSE, Cal. —(U.P.)— Mrs. Lotus McMurtrie made an unusual request when she applied for divorce on the grounds of cruelty. She asked for the custody of 20 St. Bernard and Great Dane dogs which have won prizes at dog shows throughout the West. Her husband is a well-known dog fancier.

MARTINIQUE REPEATS OLD ROLE AS CARIBBEAN TROUBLE MAKER

WASHINGTON—(INS)—The little Caribbean Island of Martinique, focal point in the dispute between France and England in the Western Hemisphere is repeating a historic role as trouble maker between these two nations, according to the National Geographic Society.

For more than 200 years Martinique was footballed back and forth between France and England as they struggled for domination of the West Indies. Its fine harbor at the capital of Fort Du France, although originally settled by the French about 1630, has served as strategic headquarters for both the French and British navies.

Serious French efforts to control the Indies collapsed after the "Battle of the Saints" in 1782. British warships met and defeated the French fleet near the Saints Islands, cutting them off from their base at Martinique. The British then captured the Island which they held, on and off, for more than a decade before returning it to the French in 1815.

Martinique will perhaps be remembered longest as the site of the greatest disaster known to modern times.

In 1902 the active volcano Monte Pele erupted destroying the thriving city of St. Pierre and taking the lives of more than 40,000 Islanders. As if this were not enough, earthquakes and hurricanes have added their toll to human misery on Martinique.

Despite its bloody and unlucky history, Martinique is today one of the most thickly populated areas in the world. The island's 385 square miles support more than a quarter of a million people, or roughly 650 to the square mile. These are ruled by a small group of whites, although the population consists mainly of negroes, mulattoes and other mixed bloods.

The Empress Josephine was born on Martinique. During the French revolution, she was supported by funds from her mother's island plantation.

CRUISE WEST.

SAN PEDRO, Cal. —(U.P.)— One hundred and seven cadets from the United States Coast Guard's academy at New London, Conn., will make their summer cruise to the Pacific coast for the first time this year because of the war in Europe.

Bargain Days are Here Again!

LUCKY FOR LOVE + + + + + +

By JANE DIXON
(Copyright 1940)

CHAPTER V

The dark young man who had played so significant a part in the lives of the Marshes, appearing out of the nowhere and thrusting them into the limelight, gave promise of becoming difficult. Marilyn's rebuffs merely fired the ardor of his pursuit.

Bill Marsh was hard at work on his third piece of French toast, a specialty of the Marsh breakfast table, when he suspended action in midair.

"Hey," he said, "lookit who's here! Gee whillikens, the world must be coming to an end!"

* * *

The three Marshes at table followed Bill's astonished eyes. Clara was gliding across the room—gliding is the word — her eyes opened wide, her lips puckered into the pouting smile she cultivated. Clara down for breakfast? The occasion was one for the family wonderment. Clara hastened to explain.

"I have the most marv'lous news," she said, sipping the orange juice her mother handed her, with studied daintiness. I'm leaving for New York in three days—that's from today. Al got a wire last night. He had to leave right away—I think he caught the midnight train. He's going to meet me at the station in New York. There's to be flowers and a welcoming committee and all the papers will take my pictures."

"Whadda they want to do that for?" Bill asked, through a mouthful of toast.

"To print, naturally," Clara dropped three lumps of sugar into her coffee. "There'll be pages and pages of them. Eat your toast, little boy, you'll be late for school."

"Gee, there must be a lot o' dopes in New York'" Bill forked his fourth piece of toast.

* * *

Marilyn's eyes sought her father's. He pushed back his chair, rose from the table. The dry cough, a sort of clearing of a constricted throat, was more eloquent than words Marilyn knew He had failed with Mums. Mums was not going to New York with Clara.

"They're arranging for a delegation to see me off on the train here in Millville," Clara went on. "They're getting the fife and drum corps from the Legion. I'm to ride in a special car, decorated with flags and flowers. The mayor is going to make a speech. I'll wear my new powder blue suit, the one with the cunning jacket and the cream lace blouse. I can't decide which hat—the crushed raspberry is the most becoming. If I could find crushed raspberry gloves and purse—Mother! look at that boy! He's eaten a whole glass of your good apple jelly!"

"Jelly's good for growing boys." Mrs. Marsh sat down to her coffee. It had grown cold while she waited on the others.

* * *

"Here, Mums, let we warm it up" Marilyn said, pouring the cold coffee into her own cup and refilling her mother's from the steaming porcelain pot.

"Thanks, Baby. As you were saying, Clara, the new powder blue suit would be lovely on you —finish your milk, William, and get on to school, that's a good boy."

Bill took a handful of sugar lumps from the bowl and thrust them into his pocket. "Geewhillikens," he grumbled, "can't a guy in this house ever grow up?"

* * *

A messenger waited to hand Marilyn a note when she arrived at the Bon Ton. The watchman was opening the store doors. Employes were straggling through the side entrance. They looked at her curiously. Messengers were major events in Millville. She waited until she had reached the cloakroom to read the message.

"H. B.—You get your wish I'm on my way. But don't burn the Roman candles. I'll be back in a flash with a dash. Maybe when this beauty parade is over you'll have softening of the heart and treat me more like a pal than a burglar. Until then—Al."

* * *

Sally Meacham breezed in threw her hat at a hook.

"Good morning, slaves," she called, addressing the room at large. "Look at Lynn. Looks like she's swallowed the cat—I mean the canary. What're you reading, honey lamb, a mash note?"

"Al Martino has been called back to New York. He left last night. The note says farewell."

"He'd certainly feel flattered if he could see the pleasure his farewell gives you. What about Queen Clara? Don't tell me she's given up the idea of knocking the metropolis into a coma?"

"She's leaving day after tomorrow." Marilyn tore the note into tiny bits, slowly. "She's going alone, Sally. I have a strange feeling—Clara—alone in the city, a place she's never been, people she's never seen — things she's never done—I don't like it."

* * *

The day Clara left for New York, Marilyn's check for a thousand dollars, the Clarco award, was delivered to her.

Scarcely had the reverberations of the Queen of Beauty's gaudy departure died down when workmen appeared on the roof of the gray house. There was a rain of broken shingles and the pounding of hammers. After five o'clock in the evening and until dark the figure of Mr. Marsh could be seen silhouetted against the peeling gray walls, scraping, scraping.

"If you're bound the house should be painted," he had told Marilyn, "better let me try it. I used to be right handy with the brush—done a lot of painting in my time."

"But a whole house, Dad, do you think you could manage it?"

"I don't see why not if I took my time. The painter down the street will lend me a ladder. I could work in my off time and I'll do a good job too. What do you say, daughter?"

* * *

Marilyn thought, Dad's awake. He wants to paint the house. He's looking forward to it, like Bill does to a football game. Maybe that is what he needs—to have a part in what's going on here at home, an acting part, not just a seat on the sidelines

"I say you're a dear to offer," Marilyn said. "It's a big undertaking We would save quite a lot of money, all we need to buy is the paint Dad, how about changing the color? Something brighter, more cheerful? I thought of ivory, just off white but with more life than white. Do you think ivory would become the Marsh mansion?"

* * *

Mrs. Marsh, who had been listening to the exchange said, "it would be pretty, but such a light color wouldn't hold up very well. It shows the wear and the grime. A nice brown wears well."

"Brown?" Marilyn appeared to ponder Actually she knew on the instant she was not going to change from a gray house to a brown house The change must be complete a transition with a life to it. "No, let's not choose a somber color. Our luck seems to have changed for the better, so let's be gay about it. I'm for the ivory and for the shutters a color as near the one they are now as we can find, a blue-green. It's a lovely color. Are there any more votes for ivory?"

"You hit the nail right on the head, daughter." Mr Marsh nodded appreciatively "I've seen the house painted that way a million times—in my imagination."

"Houses can't be painted with imagination," said Mrs. Marsh. "They have to be painted with paint." The ghost of Clara still lingered.

* * *

MRS. MARSH stood before a pier glass mirror in an upstairs bedroom. The glass had been purchased from a second-hand store for Clara who liked full-length views of herself. The frame, a fine satiny old walnut, had needed re-doing, and Clara had gilded it with gold paint from the five and dime store.

Marilyn, kneeling on the floor, was pinning up the hem of her mother's dress.

"How's that, Mums?" she asked, studying the effect in the mirror.

"It looks nice but—don't you think it's maybe a mite too short?"

"Not a mite, nor even half a mite, Mumsy. You have pretty feet and trim ankles, I've been noticing while I pinned your dress. No use hiding them."

"Baby, how you do go on," Mrs. Marsh denied, but Marilyn knew she was pleased. "I used to be very proud of my feet and my ankles when I was a girl. I wore size three, double A, and my ankles were quite shapely."

"They still are," Marilyn insisted. "Silk stockings — that nude shade they're wearing and a pair of first-rate shoes, good leather and smart cut, and you'll be a girl all over again. Now then, I've finished pinning the hem. Let me see how you look. Mums. Why, the dress is a natural—I mean it's right for you. Graceful lines and the black and white is smart. It gives you distinction."

Mrs. Marsh moved closer to the mirror. She did not believe her eyes Could clothes make such a difference? Was that she herself looking out from the gilt frame, that well-dressed woman in black crepe with white leaves sprinkled over it and touches of soft white chiffon at the throat?

"—I don't know what to say" She kept running her hands over the dress to make sure it was real. "This is an expensive dress, Baby. You shouldn't have done it. I've got my blue foulard—"

"The blue foulard is taking a well-earned rest," Marilyn announced. "It's worn to a thread. If you drive it any further, it is going to part company in a dozen places and drop off, maybe on Main street."

* * *

Mrs. Marsh laughed. A queer little cackle, rusty from disuse. Marilyn couldn't remember when last she had heard her mother laugh.

At supper Mrs. Marsh, in a fresh house dress, almost dropped the mashed potatoes

"Dearie me," she said, retrieving the dish just in time to save Bill's head from a potato barrage, "I clean forgot. There's a letter from Clara. It's on the hall table. Run and fetch it, William."

"Aw, can't we wait till after supper? I'm hungry." Bill was busy with a third frankfurter.

"Go fetch it this minute. A person'd think you'd want to hear what your own sister has to say —and her away off in New York."

Marilyn said, "I hope she wrote some news about herself. We've had two letters and a postcard and so far all we've heard is 'marvelous. The train trip was marvelous; the reception in the station was marvelous; the people she's met are marvelous; New York is too, too marvelous Did she say what she's doing, who she's met and seen, what her plans are?"

"No, she didn't say- only that she's so busy she could only write a few lines to let us know she was well and having a—"

Marilyn finished, "a marvelous time."

"How did you know, Baby?" This time Bill's head was endangered by a platter of baked summer squash.

"Easy, Mums. You can't go wrong on 'marvelous' with Clara."

The little group at the family table finished their supper, then went to the veranda. Their conversation was of the ordinary happenings about them: how father was progressing with the housepainting: that a neighbor across the street was canning pickles; that Bill's bicycle needed a new tire. They could not know that, rushing toward them through the night, in a mail car from the East, was another letter, a letter that would change the entire course of their lives.

* * *

In New York City, at ten o'clock in the morning, the offices of the Metropole Amusement Corporation struggled into their stride and were sputtering along at that erratic clip peculiar to theatrical enterprise.

Al Martino, field representative, hurried through the outer reaches of Metropole, flung brief but colorful greetings to the right and left of him, arrived with a bang at the door of the Chief, Palmer Watson, President of the concern.

"Stop banging on the door," came a low growl from within.

Martino grinned. The chief was in fine form. He "handled easy" when he was this way.

"What do you mean by making such a damned clatter?" the Chief wanted to know when Al came and lounged on a corner of the great chromium and plate-glass desk. "You want to get my goat? Well, you've got it. So spill!"

"Now, Chief, you know I never play with wild animals All I want is for you to take me off this Millville doll I've been pushing around town and give me a job that winds up somewhere besides the psychopathic ward"

"Who's going to a psychopathic ward?" Palmer Watson was a large red man with a frightening scowl.

"I am," Al said, disregarding the scowl, "unless you take me out of the woods and give me some decent work to do"

"Listen to the fellow! I put him in the contest department. I give him a beautiful girl, a contest winner. I tell him to show her the town, theaters, cocktail lounges, cafes, Broadway, Fifth avenue, Coney Island, the Fair, night life, daylight—I mean—day life—what makes the town tick. Now he comes asking for another job. Talks psychopathic words, decent work. Crazy!"

"Not quite—but soon, unless you switch me quick On the square, Chief, I'm fed up with this blonde beef-trust Clara Marsh. Let one of the other boys steer her for a while"

NEW BUILDING HIKES COUNTY TAX RECEIPTS

$1,626,000 Construction In Past Year Adds $25,000 To Richland Income.

New construction in Mansfield and Richland county totaling $1,626,000 from April 1, 1939 to April 1, 1940 will hike the county's tax receipts approximately $25,000 annually, County Auditor Norman L. Wolfe said today.

The auditor's office has just completed the task of sending new building notices to owners, with the tax appraisal figure which will be included on the tax duplicate in January, 1941.

There were 655 new buildings constructed in that 12-month period, the auditor's records show. Of this number there were 325 in Mansfield; 150 in Madison township, 45 in Shelby and 135 in the remainder of the county.

The total valuation of these new buildings is broken down by Wolfe as follows: $1,300,000 for Mansfield; $150,000, Madison township; $126,000 Shelby; and $50,000 for the county.

The tax returns from this figure will be about $25,000, Wolfe said today. These will be listed for the first half of 1940, payable in January of next year.

A complete file of all new buildings in the county is kept at the auditor's office, with a photograph of each building, whether it is a house or barn or garage, pasted onto the record card.

LEAGUE BOOSTS AND CRITICIZES

Scores Industrial Commission For Letting Audits Lag; Lauds Premium Reductions.

COLUMBUS—Both a pat on the back and a kick in the pants were directed at the Ohio Industrial commission by Samuel P Bush, president of the Citizens Tax League, in a prepared statement today.

The pat on the back was prompted by the commission's recent announcement of a reduction in premium rates which will slash premium payments by Ohio employers more than $1,500,000 below 1939 payments.

An ever increasing mountain of unaudited payroll reports was responsible for the kick in the pants.

Commenting on the revision of premium rates, first general reduction in the past 12 years, Bush said: "This action constitutes a big stride in the right direction. It serves as a striking example of what can be done by the application of common sense business principles to the operation of government.

"I am pleased to note the commission has made an effort to follow through on recommendations made by the league a year ago and also with the results obtained. However, I regret its members have not attacked the problem of unaudited payroll reports with more vigor."

According to the commission, the rate reduction was made possible by greater activity in the auditing of current employer payroll returns and the expansion of compliance enforcement activity. Both conform to recommendations made by the league in a letter to the commission last September following the first phase of a continuing survey of its administration.

Adoption of a system of interchecking records with the Bureau of Unemployment Compensation as recommended by the League resulted in the greatest increase in the number of premium paying risks in any one year in the history of the commission. The number increased from 46,308 on July 1, 1939 to 52,711 on July 1, 1940, as compared to a decrease during the preceding year, the league asserted.

The league has estimated that at least $2,000,000 due the commission in premiums and $500,000 due employers in refunds lies buried in these unaudited payroll reports, the number of which has increased from 295,404 on June 1, 1939, to 360,323 on June 1, 1940. During May the commission received 8,295 payroll reports and audited a total of 1,950.

Operating at that rate, it will require 15 years for auditors to go through reports already on file, at the end of which they would have some 1,440,000 more stacked up to keep them busy for another 60 years.

The league contends that until a solution to this problem is worked out, the audit of payroll reports will continue to be a source of grave danger to the status of the commission as a reputable agency of the state of Ohio. Bush also said the league renewed its recommendation that steps be taken to work out a system of interchecking and joint auditing with the Ohio Bureau of Unemployment compensation.

"Such a program" he declared, "not only presents the only apparent solution to this deplorable situation but also should serve to bring about a further reduction in premium rates. It therefore is the duty of the commission to take prompt and vigorous action."

INITIALED BRICK

BERNE, Ind.—(U.P.)—Forty years ago Albert Aeschliman wrote his name on a brick while working on the construction of the Berne school. Today Aeschliman, now retired, purchased the same brick for a quarter from one of the workmen engaged in razing the building.

Life 'Normal' Again In War-Ruined France

According to the German-censored caption on this picture, life has resumed its peaceful tenor in the occupied portions of France. This photo shows the wrecked town of Reoubaix, with workers going about their business as before the blitzkrieg. Note how wreckage has been neatly swept aside.

THEATERS

Gentleman Crook.

David Niven is cast as a suave and dapper gentleman crook in "Raffles" which is showing at the Ohio. But when he falls in love and becomes engaged to Gwen Manders, played by Olivia de Havilland, Raffles decides to give up his secret life of crime. Unexpected events intervene and he is forced to focus his attention on the famous emerald necklace of Lady Melrose, an eccentric dowager who invites him to her country estate for a week-end.

* * *

Bob Burns As Deacon.

What is said to be the most hilarious card game ever filmed is made a highlight sequence in the new Bob Burns comedy, "Alias the Deacon" which is showing at the Madison. Burns in the title role appears as an amiable card sharp who masquerades as a deacon while he solves the troubles of his friends. The story reaches its climax when Bob turns the tables on a couple of small town crooks and relieves them of their money. The co-feature is "The Biscuit Eater," a story of two boys and their dog.

* * *

Jungle Pioneer.

Graphic adventures of a white huntress in conflict with jungle beasts and African savages in the shadow of a flaming volcano are presented in the film, "Zanzibar" which is showing beginning Thursday at the Park. Lola Lane portrays a daring girl explorer and James Craig has the role of a danger-seeking young American. The co-feature will be "Bad Man From Red Butte" in which Johnny Mack Brown has the lead. Fuzzy Knight, cowboy comedian, portrays an enterprising hair-restorer salesman who yearns to be a two-gun fighter.

* * *

Newspaper Yarn.

Charlie Ruggles is up to his ears in trouble again in this comedy picture "Opened By Mistake" which is showing at the Ritz. With him are Janice Logan, Robert Paige and William Frawley. Charlie is in his favorite role that of a tipsy news-reporter and the scene for his antics is a metropolitan newspaper but the action scrambles in all directions. The co-feature is "Star Dust" with Linda Darnell and John Payne in the leads.

CYCLING RECORD

SYDNEY, Australia—(U.P.)—Hubert Opperman, Australia's cyclist, has established a new world record of 489 miles, 596 yards in 24 hours in an unpaced event. The previous record of 437 miles, 1,574 yards, was held by a German rider.

NOT OPOSSUM

Small Child Chokes Cat-Like Animal To Death.

WICHITA FALLS, Tex.—(AP)—Ten-year-old Virginia Gregory responded to the cries of brother James, 5, and found a cat-like animal under the kitchen table.

Thinking it was an opposum, she choked it to death. It turned out to be a skunk.

The American Red Cross operates under a charter granted by Congress in 1905.

LIKES HIS BEER

QUINCY, Mass.—(U.P.)—Soon after Roderick Morrison brought Chico, a monkey, home as a pet for his three children, the animal gulped a can of beer he managed to snatch from a table.

Now Chico refuses to behave unless given a chew of tobacco during the day and a beer nightcap.

CUTS INFANT TOLL

MADISON, Wis.—(U.P.)—Only one out of every 14 deaths in Wisconsin last year was that of a child less than one year of age, compared to one out of every five deaths in the state 30 years ago. Part of this difference is credited to a trailer schoolhouse which visits rural communities to teach child and maternal health.

Greatest U. S. Liner Reaches New York

Largest lines ever built in the United States, the $17,500,000 America, newest luxury greyhound of the United States Lines, sails into New York after her voyage from the builder's yards at Newport News, Va. The 723-foot, 35,000-ton liner will berth in New York and be placed on exhibition. Entire proceeds from the dollar admittance fees will go to the American Red Cross.

ESTABLISH COURT

STOCKHOLM—(NNS)—A section of the Arbitration Court of the International Chamber of Commerce has been established in Stockholm. This branch of the Chamber, the president of which is J. Sigfrid Edstrom, of Stockholm, consists of some twenty judges, formerly resident in Paris. Since at present it has proved impossible to solve disputes there between firms of various countries where a German firm is one of the parties, it has been considered appropriate to open an arbitration institute in Stockholm.

WAR KNITTER

BRISBANE, Australia—(U.P.)—Mrs. Winifred Jones is engaged in a knitting marathon on behalf of Australian troops. Since she started six months ago, she has knitted 40 sleeveless cardigans, 25 pairs of socks, 8 skull caps and 3 balaclava helmets. She has used 500 skeins of yarn.

FALL OF FRANCE BREAK FOR MULES

600 of Them Likely to Escape Trip Into War Zone

ATLANTA—(AP)—The ill wind that brought defeat to France blew good for 600 southern mules, purchased by the French republic in the spring for war duty.

Ever since the collapse of the French nation, an Atlanta company which handled the sale has been wondering what to do about the animals. The answer came today in a telegram from French agents in New York ordering the auction sale of all 600 August 1.

So the 600 probably will go back to the peace of the farm instead of into war perils—unless the English bid them in.

Official permits are necessary to build campfires in the national forests.

Mansfield Athletic Supply	22
Oaks Club	18
Yuncker Bros.	18

* * *

By GEORGE SATTLER

PACED by Pete Linster of the Richland Printing foursome who rolled up a par-shattering 31, golfers in The News-Journal Class "A" league carded their most impressive scores of the season yesterday at Possum Run.

Linster's 31, lowest score shot in the loop this year, equalled the low-scoring record for nine holes established this year at Possum by Joe Mayer Carl Wiseman is the only other golfer beside Linster and Mayer who has paced off the inside nine for a 31.

Although the Long Bar still holds fast to the league lead by a six point margin, the Printers gained on the top positioners last night by scoring a 4 to 1 defeat over the Yuncker's team

The Long Barmen barely nosed out the Sloan's Drugs by copping 2 markers to the Sloan's Drugs one.

Al Kushin, number one man for the Mansfield Athletic Supply, dropped a heart-breaker to Joe Mayer of the Barnes Schmid club. Both Kushin and Mayer netted 33's but Mayer won the battle on match play.

Nick Linster Oak's club, also had one of his good days He shot a 33 to defeat Pete Zeides, Nite club number one man who rolled up a 35 for the nine

Other low scorers were Carl Wiseman with a 34 Al Hager with a 36, John Kleshinski and C Snyder with 37's, Art Van Auker and Rollie Rachel with 38's and P Jessen with a 39

Mansfield Athletic Supply copped a 2 to 1 decision over the Barnes & Schmid Tires while the Nite Club team outpointed the Oak's club 4 to 1 to complete yesterday's card.

Ferguson Auditors Play Ashland Combine

The Ferguson State Auditors, who beat out the DeLuxe Cabs for the state softball championship last year, will invade Ashland to meet the Ashland All-Stars at 6:30 p. m. today. Frank Solt, star righthander, will hurl for the Capital city combine, while Mike Bogner, veteran Ashland ace, will toe the rubber for the All-Stars.

There's No Way to Make Sense Out of American League Race

By JUDSON BAILEY
AP Sports Writer.

THERE is just no way to make sense out of the American league pennant scramble

* * *

First the Boston Red Sox looked as if they were going places Then the Cleveland Indians went on the warpath. Intermittently the New York Yankees showed signs of awakening More recently the Detroit Tigers have been setting the pace.

* * *

But today for at least the fifth time this season the leaders are in a tie and there positively is no possibility of predicting how the race will wind up

Cleveland which once gained first place by the simple process of losing four games in a row, moved back into a deadlock for the lead last night by the equally unspectacular feat of winning one game in a row

Bob Feller kept eight hits scattered efficiently to beat the Boston Red Sox 2-1 in front of 49,238 fans It was his 17th triumph of the year and came at exactly the proper time to capitalize on a three-game losing streak by the Tigers, who were dunked 8-6 by the Yankees

This in turn lifted New York within 6½ games of the lead and one game out of third place.

The National league issue appeared more cut and dried than ever after the Cincinnati Reds snatched a 6-3 decision over the New York Giants and the Brooklyn Dodgers lost an 8-2 nocturnal tussle to the Pittsburgh Pirates. This set Brooklyn back to eight games behind the Reds

The Pirates, who now have won nine out of their last 11 games, scored four times in the first inning and with Truett Sewell pitching six-hit ball the Dodgers never had a chance

The St Louis Cardinals pounced on the helpless Boston Bees with a 19-hit attack that was good for a 13-5 victory Johnny Mize hit his 27th and 28th home runs of the year.

* * *

The Phillies managed to nose out the Chicago Cubs 7-5 although outhit 16-11. The Chicago White Sox extended their surge at the expense of the Philadelphia Athletics with a 3-1 victory on the five-hit hurling of Jack Knott and Pete Appleton.

* * *

Dutch Leonard shut out the St Louis Browns 4-0 for Washington in a night game, spacing seven hits and striking out seven

Juniors Open Tourney Fight

Mansfield Legion Ball Club To Meet Marion.

CANTON — (AP) — Survivors of some 500 American Legion baseball teams opened the state championship fight today as 10 district title-holders went into the Ohio finals to determine which should go on to the regionals and the "world series."

* * *

Little Louisville, Stark county village which won the Buckeye crown last year at Springfield, is among the contestants. Today's opening round schedule called for:

* * *

Toledo vs. Lima at Canton Middletown vs. Logan at Canton Warren vs. Louisville at Louisville

Thursday's second round games all at Canton, are: winner of the Toledo-Lima game vs. Springfield, winner of Middletown-Logan game vs. Portsmouth and Manager Dewey Durant's team vs. Marion. The latter teams drew byes.

Winner of the tourney goes to the regionals from which 11 teams will go into the "world series of the sandlots." More than 7,500 boys competed in the preliminary games in Ohio all of them under 17 last Jan. 1.

League scouts will be on hand for the Ohio series. Among the better known big league stars who started as legion players are Bob Feller, Cleveland's ace pitcher, Fred Haney, skipper of the St Louis Browns, and Catcher Mickey Owen

Feller Defeats Boston; Cincy Trips Giants

Bob Limits Red Sox to Eight Hits as Tribe Scores 2 to 1 Victory Under Lights.

CLEVELAND — (AP) — It was no fluke that put the Cleveland Indians in a tie with the Detroit Tigers for first place today.

Some days ago the Tribe went into the leadership after dropping four straight games—simply because Detroit fared worse

But the Indians claimed a share of the lead today by a pitching and fielding spectacle that produced a 2 to 1 victory over the Boston Red Sox last night and left nearly 50,000 spectators hoarse from cheering.

* * *

Bob Feller got most of the glory for the victory—his 17th. He staved off one scoring threat in the seventh by fanning Jimmy Foxx and Dominic DiMaggio with the bases loaded, then let the infield handle a second threat in the ninth. Coupled with the infield's performance was the failure of Manager Joe Cronin's strategy.

* * *

Lou Finney led off with a single for the Sox in the last frame and Jim Tabor fouled to Hal Trosky. Cronin then sent Fritz Ostermueller in to run for Finney who has an injured knee, and Ostermueller took second on Bobby Doerr's single Then came the fireworks

Ray Mack fielded Johnny Peacock's grounder and threw to Lou Boudreau, forcing Doerr. Boudreau prepared to throw to Trosky, but seeing no chance to get Peacock, turned and hurled to Third Baseman Ken Keltner. Ostermueller had rounded third, but Keltner chased him toward the plate and tossed to Catcher Rollie Hemsley who tagged the runner out as he slipped and fell in an effort to avoid the putout.

* * *

Feller struck out eight men and yielded eight safe blows, while the Tribe reached starter Jim Bagby and Jack Wilson for nine hits.

Joe Dobson was nominated for the mound today as the Indians sought their second straight over the Sox Dennis Galehouse was Cronin's starting choice.

THURSDAY'S LAST DAY

Tennis players in the city have only one more day in which to enter the City-wide Tennis tournament, sponsored by Yuncker Brothers sporting goods store. All entry blanks must be filled in and left at the store Thursday. Those filed later than that will not be considered. An entry blank can be found elsewhere in the Sports section.

Minors Prove Good Hunting

Association Has Wealth of Infield Material.

(By Associated Press)

The American Association is a happy hunting ground these days for major league scouts seeking shortstops and second basemen.

* * *

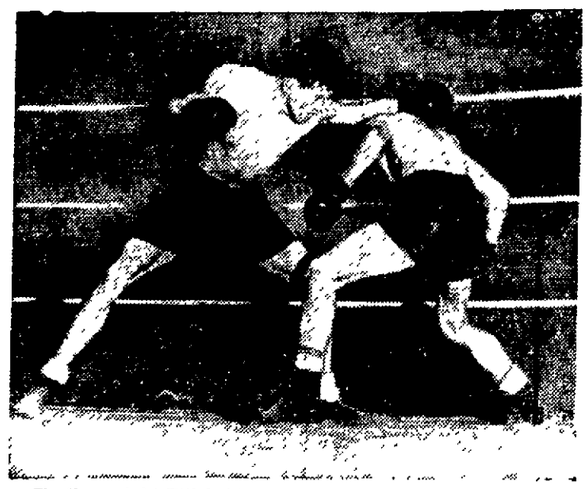
Association clubs peddled three shortstops to the majors last season and may improve on that output this year. Jim Pofahl of Minneapolis went to Washington, Louisville's Pee Wee Reese to Brooklyn and Milwaukee's Bob Mattick to the Chicago Cubs. Several other fine prospects are tabbed for big time duty next year.

* * *

Only two games were played in the association yesterday

Milwaukee avenged a crushing defeat at Louisville's hands Monday by trouncing the Colonels, 14 to 2, and the skidding Minneapolis club fell eight and a half games back of Kansas City by dropping a 6 to 5 decision in 12 innings to St. Paul.

Jeffra Beats Toronto Foe



Featherweight Titleholder Harry Jeffra of Baltimore is shown, right, as he ducked a left-hand punch thrown by Challenger Spider Armstrong of Toronto, Canada, in a 15-round title bout in Baltimore. Jeffra retained his crown with a decision over his Canadian foe.

Predict 500 Boys and Girls In Junior Olympic Events

PREDICTIONS that nearly 500 boys and girls will participate in the Richland county fair's Junior Olympics when the athletic field day opens at the fairground Friday morning were made today by Don Cram, Y. M C A physical director, in charge of the event.

* * *

Interest in the Olympics has increased daily since announcement of the program was made, Cram said. Thirty-six events are scheduled for the day and with 500 expected to participate, it was predicted that hundreds of other boys and girls will be on hand to watch the events as they are run off.

Boys and girls between the ages of nine and 15 are eligible to participate in the event which opens at 9 a. m Friday with preliminary events. There will be followed on

(Continued on Page 27)

Braves Suffer Defeat

Club Scores Four Runs in Ninth; But Oilers Register 5 to 4 Victory.

OUR BRAVES staged a thrilling, but futile four-run uprising in the ninth inning at Findlay last night as they dropped a 5 to 4 decision to the Oilers in an Ohio State league game.

Battling to cut down the advantage the second-place Oilers hold over them, the Braves outhit the winners, 9 to 7, but couldn't punch over the winning run.

* * *

Manager Dewey Stover is expected to send Rex Benton to the hill today against the Oilers at Findlay. Mansfield plays on the road until Sunday when it meets Lima in a doubleheader at the Fairground.

Everett Stenman worked nearly nine innings for the Braves last night and gave up four runs Findlay found him for two runs in the first and two in the eighth. Rex Benton replaced Stenman and allowed Findlay to score the winning run

Mansfield did tie the score in the ninth, but the Oilers were not to be denied. They put together two singles in the last of the ninth after two were out to send the deciding marker home.

For eight innings last night Griffore had the Braves eating out of his hand.

But with Herb Woodten pac-
